German soldiers are so accustomed to looting that when deprived of a defenseless enemy they turn on their own military stores.

Another thing the city commissioners should keep in mind is that at no far distant future Omaha will be called upon to provide ample dock facilities for Missouri river steamboats.

Duke Adolph Friederich of Mecklenburg-Schwerin has consented to take on the job of being king of Finland. As long as he can conduct the affairs of his office at long range, he will get by, but wait until the Finns get a closeup of him and the course of the story may change.

Remedy for Automobile Thievery.

Stealing of automobiles has developed into a well organized industry, locally. Statements have been made that 102 machines have been taken by other than their owners from the streets in Omaha during July, and only a few of these have been recovered.

The careless owner, who leaves his car for hours without protection on downtown streets cannot escape his share of the responsibility for the thievery. The buyer of "used" machines or parts seldom if ever satisfies himself as to the history of the purchase he makes, and by his indifference enables the thief to dispose of his booty. To get around the first factor, it will only be necessary to provide places where cars can be parked under such form of guardianship as will make them secure. This must be at the expense of the owner. The other phase of the question can be met by devising some form of record to carry the history of the car and to pass from hand to hand as title changes. Such a document would protect the purchaser, and might have the effect of insuring ownership so far as the seller is concerned.

One thing is certain. So long as cars are left exposed on streets at all hours of the day and night, owners must not be surprised if now and then one is stolen. And while second-hand cars can be sold as readily as at present, thieves will have little difficulty in turning their loot into cash.

The Schumann-Heink Children.

Lincoln, July 25 .- To the Editor of The Beer A few days ago you gave a reply to an inquiry about Mme. Schumann-Heink and her children, but I have mislaid the clipping. May I ask you to restate the information then imparted?

MUSICAL. Answer: The original query was as te how many sons Mme. Schumann-Heink had in the service of the United States and how many in the German army; also her own nationality. She is a native of Bohemia; her first marriage was to Herr Heink, in 1882, three sons and a daughter being born to the union. In 1893 she married Schumann, and again three sons and a daughter were born to her. Four of her sons are in the service of the United States, two in the navy, one in the coast artillery and one in the field artillery. Her oldest son, who did not come from Germany to America with his mother, was in command of a German U-boat when last heard from. The third son also re-mained in Germany, is not accounted for, but very likely is in the service of the kaiser. Mme. Schumann-Heink has sung at many of the army cantonments during the last winter, and is now understood to be employed to go abroad to sing for the boys "over there."
