REPUBLICANS OF STATE GRATIFIED AFTER MEETING

Gathering One of Utmost Harmony, Largely Attended, Furnishing Evidence of United Ranks.

From a Staff Correspondent. Lincoln, July 31.—(Special.)—Many republicans who attended the republican convention yesterday still are in Lincoln. That victory is assured in November they declare a foregone

The opening speech of Robert W. De Voe, chairman of the convention. is declared by everybody who heard it to be one of the greatest addresses heard in Lincoln for years while the masterful address of the national chairman, Will H. Hays, is commended by all.

The convention, intensely enthusi-astic throughout, has passed, but it has left an atmosphere which is be-

ing breathed with enthusiasm. Not for many long years has the republican party enjoyed such a meeting. Shoulder to shoulder, every man, irrespective of past political differences is stuading up to the mark and on tip-toe awaiting the chance to be in the front line when the movement begins against the common enimmediately after the candidates have been selected in August.

Beach Much Gratified. Chairman Beach is feeling good. It was on his invitation that National Chairman Hays attended the convention. The result has justified his judgment. He was re-elected chairman of the state committee without a dissenting vote which is evidence that the new committee has confidence in his leadership.

The selection of Myron L. Learned of Omaha as vice chairman, and the re-election of E. G. Gurney of Fremont as treasurer, are pleasing to re-

publicans.

Burwell Girl Dons Feminalls and Brings Load of Hogs to Market

Shades and traditions of the wild and woolly west. The day of the stock man is to be eclipsed by the stockwoman. Attired in a suit of khaki feminalls the first stockwoman arrived at the South Side market yesterday morning from an eastbound freight car with a load of hogs which she had raised.

Nineteen-year-old Hazel Grunkemeyer, daughte of F. A. Grunkemeyer of Burwell, holds this unique honor of being the first girl to bring a car-load of live stock to market unaccompanied. Her father was very busy on the ranges and administering Hoover's rules for Garfield county, where he is food administrator, and her foster brother is in Uncle Sam's navy. Some one had to bring the stock to market and contribute a bit to win-

ning the war, so why not she.

Ou ckly donning a suit of feminalls and placing a khaki cap with a visor on her curly hair, she rounded up the hogs in the pen, watched them being loaded and hopped on the ca-boose of the train that bore them to the Omaha market.

She created quite a sensation when she arrived yesterday morning with her load of hogs, which were marketed at \$18.50, a price which showed that they were some of the best stock offered yesterday.

"This is not the first time that I have had to do a man's work and it's not going to be the last," said Miss Grunkemeyer as she recounted the adventures of her trip. "The boys are all going to war and if the farm work is to go on and this country and our allies are to be fed, we must

all get busy and do what we can.
"I simply love stock raising and have been helping around the farm as long as I can remember. In winter I go to a musical institute in Kansas City. I have not decided in what I

am going to specialize in."

Miss Grunkemeyer is tall and slen- a man's work as any oldtimer that der, but looks as capable of handling ever rode the ranges.

One Cereal That Needs No Sugar

Grape-Nuts needs no sugar!

Unlike most cereal foods it contains its own natural sweetening, obtained through the famous Grape-Nuts process from the wheat and barley from which it is made.

This natural sweet is the starch of the grain changed into a healthful, life-giving sugar.

This change is brought about by the ferment, diastase, in barley malt, and by long baking. The result is a wonderful food, easy to digest, abundantly sweet in its own right, nourishing, economical-
