Langfeld Given Clean Bill On the Butler Charges. City council, by a vote of 4 to 2, adopted a recommendation of Commissioner Ringer, that no further action be taken in the matter relating to the loyalty of City Bacteriologist Langfeld.

Mr. Ringer submitted to the council a report of an investigation made by Health Commissioner Manning, which was favorable to Dr. Langfeld and tended to discredit statements alleged to have been uttered by A. G. Beeson to Commissioner Butler and reported by Butler to an afternoon newspaper.

MOLLIE McCONNELL, who played the part of the mother in Charles Ray's feature "The Claws of the Hun," states that she has had hundreds of letters from mothers all over the country who hated to give up their sons to war as she portrayed the part in the picture. She thinks it is a great propaganda feature, as it has brought a new light on the war to lots of these mothers.

Crowds have thronged the Empress theater to see the special photoplay attraction "The Fourth of July in France," the first parade of United States heroes after their triumph of the Marne. The first wounded American soldiers taking part in the joint celebration of the two republics; the first view of the newly dedicated Avenue du President Wilson; the first parade of the American Red Cross nurses back from the battle zone, are all shown in this picture. Every state in the union, every city, every town and every village is represented in this wonderful spectacle.

Frances Burnham is again with the Fox company, this time playing opposite George Walsh. "A Side Show Girl," by Peter McFarlane, is announced as the next picture of Margarita Fisher's.

Bessie Barriscale and her hubby-director, Howard Hickman, hired a treasure of a Japanese servant awhile ago. They boasted so much about

him that they have been forced to raise his wages three times to prevent the rest of the film folk from hiring him away. Pretty soft for his servant to have the boss doing his advertising.

Warren M. Ritchey is at work on a new script for Wallace Reid, and it is said to be a surprise for all admirers of Reid, as he will be seen in an entirely new role.

Those who are accustomed to seeing Clara Kimball Young in the latest creations of fashion in her motion pictures will receive a real surprise in her newest production "The Savage Woman," for Miss Young is seen dressed most of the time in the meager skins of animals or in her own flowing tresses.

The Strand's offering of Ambassador Gerard's "My Four Years in Germany" at its opening on the 17th, will be the first time that this feature has been run in this territory at popular prices, the custom having been to get a theatrical price for the showing heretofore.

The Select Pictures corporation have compiled a list of all its men in the United States service. Omaha holds second place along with New York City, Washington, D. C., Pittsburgh, the only city in the country having furnished more men being San Francisco. The letter of the company expresses surprise that Omaha should have furnished any seafaring men, Mayer H. Monsky and Earl B. Kerr having joined the navy from here. They evidently thought this was a land turtle country.

AT THE THEATERS

Promises of the Press Agents. Orpheum—The presence of Eva Tanguay on the opening bill, starting Sunday, Aug. 18, is calculated to inaugurate the season in a big talkfest over at the Orpheum.

Gaiety—Decidedly in keeping with the times is the magnificent "Ballet of the Allied Nations," a dancing number included in the program being given by the "Golden Crook" company at the popular Gaiety during this, the opening week of the season at that house. At each performance there is a funny little "Hobo" Arlington introduces some new funniness into his role. His colleague in fun, George Douglas, is proving to be a most acceptable running mate. Ladies' matinee daily all week at 2:15.

Empress—Tonight the Scottish Clan have arranged to go in a body to the Empress theater, by special invitation of Sandy McPherson, the eccentric Scotch comedian who is appearing there. Besides telling a number of Scotch stories that keep the house in an uproar he plays his way into the hearts of the audience with his bagpipes. He has proved to be the big hit of the bill. Tomorrow there will be a complete change of program, the new bill being headed by the Archie Nicholson trio, in a comedy musical offering in which they introduce solos, duets and trios, with trombones, saxophones and other brass and wood instruments.

Another Creighton Man is Given Army Commission. E. P. Simmons, Creighton graduate and former teacher in the Omaha schools, has received his commission as a lieutenant at the Fort Omaha Balloon school. He probably will be assigned as a pilot. Lieutenant Simmons also took a course of eight weeks at the School of Military Aeronautics at Columbus, O.

Lieutenant Simmons attended the O'Neill High school and graduated from Creighton in 1913. He was afterwards superintendent of schools at Springfield, Neb., for several years. His parents are Mr. and Mrs. J. E. Smith of St. Charles, Neb.

announcing my candidacy for republican member of the Water Board, I herewith state explicitly where and on matters pertaining to this office: 1. The citizens of Omaha acquired the present water plant with a view of obtaining water for all its citizens, and with this in view I stand squarely on the proposition that mains shall be extended (if desired by majority of owners) so that he or she, no matter how humble, may have city water. People must have water; they cannot quench their thirst by reading statements of million-dollar surplus created out of the funds of the people.

2. The water plant was acquired under the impression that the small consumer should get water at cost; municipal ownership not providing for dividends nor a surplus to its managers. The \$606,543.29 shown in recent statement of water plant represents \$606,543.29 overcharges by present management, an amount inviting speculation, speculative ventures and extravagances. There being \$3,187 water consumers this overcharge represents \$18.28 from each consumer.

I stand for lower rate. Above mentioned surplus shows that lower rates are possible, not at a future date, but NOW.

3. I stand for persons being able to secure water on the same basis as owners. They have the same standing as owners with the Electric Light Company, Gas Company and Telephone company, but not so with the Water Board. At present, should a tenant desire to move into new quarters, he or she must see that the preceding tenant's water bill has been paid before water application is granted. This practice is utterly ridiculous, unlawful and pernicious, as it is the duty of the Water Board to sell water to whoever wishes to buy, and incumbent on its management to collect therefor, and the burden of this duty should not be shifted on the tenant.

4. I am opposed to rebates as unjust and pernicious, and condemn the present management for granting same. The Water Board has no right to play favorites.

5. I believe in the enforcement of the law relative to directors of the Water Board letting contracts and purchasing supplies from firms wherein any member of the Board has an interest, and condemn the prevailing practice of parceling Water Board business to firms in which any member has an interest directly or indirectly.

6. I believe in granting the U. S. Government all possible water facilities, realizing its necessity in the successful prosecution of the war, as well as the immense benefit the City of Omaha is deriving by the location of the Balloon School at Fort Omaha and the Post at Fort Crook, and condemn the present management in all its entirety for handicapping and hindering the Chamber of Commerce in assisting Colonel Hersey in obtaining water at Florence Field.

7. If elected, I faithfully promise to be at least one-sixth of the Water Board; to do one-sixth of its work; to assume one-sixth of its responsibilities, and under no circumstances allow myself to be used or become a rubber stamp. This announcement will be followed each day until the primaries, by a little inside history of the Water Board, how to have mains extended, how Colonel Hersey finally got water at Florence Field for his boys, how to obtain water if you are a tenant, why Municipal Ice Plant was not completed on time, how Water Board business is divided among its directors and a few other sidelights, rather interesting, some startling. Read every one of them so you will be in a position to judge whether or not you should retain the present incumbent or seek to better and strengthen your Board of Directors.

You will strengthen municipal ownership when you elect men who respond to the wishes of the people, the owners of the water plant. C. G. CARLBERG.

Annual Omaha Market Week

Will Start on September 9. Chamber of Commerce committees are busy arranging programs for Market week, which begins Monday, September 9. The tentative program calls for entertainment of the men visitors Monday evening at the Ak-Sar-Ben den, while the women visitors are taken on an automobile trip and to an Orpheum theater party.

A dinner-dance will be held the next day at the Field club, and on Wednesday Krug park will be open house for the guests.
