CHICAGO GRAIN AND PROVISIONS.

Rain and Cooler Weather Give Corn Market
Downward Swing.

Chicago, Aug. 14.—Rains and cooler temperatures made the corn market average lower today, despite builish crop advices both from government and private sources. The close was weak, &@ lc net lower, with September \$1.61\cdot @1.61\cdot and October \$1.62\cdot @1.62\cdot and provisions down 7c to \$5c.

Weakness in the corn market developed chiefly around the opening and the close. Initial declines were the most pronounced and were wholly due to better weather conditions, whereas final setbacks resulted more or less from profit taking sales. Only transient upturns were brought about by the adverse crop news because to a large extent the facts had been discounted in advance. The crop features that received the greatest attention included an estimate that the seven leading states would harvest \$2,000,000 bushels less than had been implied by the government returns of August 1. Besides, according to official announcement, the crop in many upland districts of Missouri, Kan-sas, Oklahoma and Texas will be a failure

Oats were governed mainly by the action of corn. Gossip was current that the movement to terminal markets is not as heavy as the trade had expected, Provisions went down grade with hogs.

Provisions went down grade with Bogs-Business, however, was small. Chicago, Au., 14.—Butter—Market higher; creamery, 394@44%c. Eggs—Receipts, 10,766 cases; market unhanged.

TO MAKE CAPITAL straining Influence or Rails;

OF TAX FIGURES New York, Aug. 14.—Ralls were less conspicuous in today's more circumscribed stock market, yielding to industrials and specialties of the several groups which owe their intermittent activity to pools.

During the morning, when prices were believed attention was drawn towards the Anthes Shows it is the Other Fellow Who is Playing

highest, attention was drawn towards the railroad contract conference at Washington, but prices broke 1 to 2 points later on an-Issue. other restraining influences were the weekly weather report indicating crop deterioration in the west and southwest, further activity of enemy submarines in nearby waters and the rigidity of call money, which held at 6 per cent, albeit time funds were in better supply.

Shares of the prominent electrical companies enjoyed a brief period of strength and activity, due presumably to Secretary McAdoo's suggestion of an extension of the electrification of the country's transportation. The article goes on to say that Frank article goes on to say that Frank McAdoo's suggestion of an extension of the electrification of the country's transportation systems, and telegraph and telephone shares railled substantially. Final quotations among leading rails and industrials were fractionally under those of the preceding day. United States Steel yielding practically one point. St. Paulissues displayed consistent strength and to-Dewey is a candidate for re-election and that he aims to make political capital out of this investigation. "Now doesn't the shoe fit the other foot? said George Anthes, who compiled the figures. "Is not Auditor Smith, Secretary of State Pool and Governor

Hill ran out of gasoline and left his car standing be in shares of the Salvation will of gasoline and left his car standing placed him under arrest.

## To My Neighbors of Douglas, Washington and Sarpy Counties:

I have filed for the Republican Nomination for Congress and want your support. My home has been in Douglas County for eighteen years. My father and grandfather were pioneers and homesteaded in Douglas County: my children were born here. My business is located here and I always expect to make Omaha my home, therefore I claim the right to call you my neigh-

For fifteen years I have taken an active interest in cleaning up politics and putting out of business the old Third Ward gang and the special interests that supported it financially. They are now fighting my nomination and spending a lot of money to beat me at the eleventh hour.

They know I put through the Direct Primary and the Election Commission Law, "Known as the Dodge Election Law," which made it impossible to control nominations and steal elections by crooked counts or ballot-box stuffing. So I have earned their hatred and I am proud of the enemies I have made, but I don't want you to let them beat me for this nomination.

I stand for a vigorous prosecution of the war, regardless of politics.

I believe in a national budget for congress and more economy and efficiency in public business. I believe in protecting the people in the cost of living by regulating distribution of food, and the encouragement of cooperative organizations.

I believe there should be some arrangement and regulation of the purchase and sale of raw materials, so as to protect American labor from ruinous foreign competition.

Let us stand together in this fight to protect the rights of the American people, now, as well as in the reconstruction period which we will soon have to face.
