

### PRINCE SCORES NORRIS IN LETTER ON WAR ATTITUDE

#### Grand Island Lawyer Declines Invitation to Join Booster Club and Gives His Reasons.

Grand Island, Neb., Aug. 14.—(Special.)—W. A. Prince has written a letter to C. C. Flansburg of Lincoln in response to an open invitation received to join a Norris for Senator club of which Mr. Flansburg is president. Mr. Prince says:

"Your open invitation of recent date for me to join a Norris club was duly received. I regret to say that I must emphatically decline to do so. And I briefly give you my reasons.

"I believe in the justice of this war. I believe that our American boys who have already distinguished themselves upon the battlefields of France are fighting for a righteous cause. And so believing, I can not support Senator Norris.

"I observe that your communication does not refer to any act of Senator Norris in support of the war. Your boy and mine were among the first to go. They were among the first Nebraska officers sent to France, both have been at the front of battle. God has taken yours. I know not what has been the fate of mine. Your noble son died for the greatest cause humanity ever fought for. You ask me to support Senator Norris and I will frankly tell you why I will not do so.

#### In Odious Filibuster.

"Senator LaFollette, Norris, and others deliberately held up the congress of the United States in the most momentous hour of our nation's history, by an odious filibuster which is contrary to every principle of a republic.

"The rules of the United States senate allowed 12 reactionary senators to paralyze this great government. Those 12 men out-Cannon anything Cannon ever attempted to do. They stood for the principle that an American vessel sailing the high seas under an American flag had no right to protect itself, when attacked by German pirates.

"Can you now fail to understand how it comes that Senator Norris' photo should adorn the front page of the Fatherland? Senator Norris made his reputation upon the issue that this was a representative government. He and LaFollette and others overturned such a government. He detested Cannon so enthroned LaFollette. He voted against the declaration of war. He voted against the selective draft. He fought the 'teeth' of the espionage law, a law to protect the crops of the farmers as well as the property of all. Not only that, but he voted after your boy and mine and thousands of others were in France not to raise and appropriate money to clothe, feed and pay them their wages.

#### Fought War Measures.

"You can not point to one act which he has ever done to aid President Wilson in this war. In your carefully prepared circular you do not attempt to do so.

"He with LaFollette and others have fought every important war measure.

"Nebraska has 40,000 boys who have gone to this war. They are all doing the part assigned to them by the government. Are these men fighting as Senator Norris suggested 'to put the dollar mark on the flag?' Or are they fighting for the noblest cause ever taken up by a brave and patriotic people? Are they fighting for Wall street as Senator Norris in his distorted vision sees them doing? The epitaph written upon the monuments of our heroic dead should be 'He died for humanity, for justice, for right, and to protect childhood, womanhood and virtue—not the sentiment, 'He died for Wall street and to put the dollar mark on the flag.'

"I have taken the liberty to send a copy of this letter to the press."

### Two Men Killed When Train Crashes Into Motor Car at Seward

Seward, Neb., Aug. 14.—(Special Telegram)—Two men were instantly killed and another seriously injured when an automobile crashed into a Burlington train a mile and a half south of Seward Tuesday night about 9 o'clock.

Henry Nagle, a blacksmith at York, was instantly killed and Foster Kinsman, a soldier, in the heavy artillery, presumably from Fort Riley, died shortly after. A. R. Rich, employed in a York garage, suffered both hips broken and a fractured skull. He is unconscious in a Seward hospital. Nagle and Rich are both married, and Nagle has one child.

Trainmen say the automobile was rushing toward a crossing with the soldier standing on the running board of the car. He motioned the train forward and indicated that the car was going to stop. The machine was completely demolished.

The York men were returning from Lincoln and friends think they met the soldier in that city as he was unknown to the associates of the other two men.

### Farmers Suffer Heavy Loss By Lack of Machine Repairs

Lincoln, Aug. 14.—(Special.)—Blame for the loss of small grain is placed at the doors of the International Harvester company and other manufacturers of farm machinery in a complaint made to Governor Neville by Herman A. Peters of the Clear Lake Ranch company of Hay Springs. He says the farmers are unable to replace broken or wornout parts of their tractors and harvesting machines.

The complainant suggests the State Council of Defense ought to stop all machine companies from selling a new machine in the state until they get a complete stock of repairs and proper facilities for getting them to the farmers.

From a Staff Correspondent. Lincoln, Neb., Aug. 14.—(Special.)—Men who are looking out for the interests of the railroads themselves, and not of the shippers or the general public, are in control of the federal railroad administration, except for Director General McAdoo and a few of his principal assistants, Railway Commissioner Vic Wilson charges.

When the freighter sent out S. O. S. calls, a ship which could not be identified appeared. At a time when the British gun fire was getting close to the submarine, then only two miles away, the unknown vessel maneuvered between the combatants and, according to the sailors, saved the enemy craft.

### Food Administration Tells How to Save Sugar

Seven ways to save sugar and make the two pounds per person per month allotment meet the requests are given by the federal food administration for Nebraska. With more than 50,000,000 pounds of sugar lost by submarine sinking it is imperative that the two-pound request be followed. The seven ways are:

- Use fresh fruits without sugar.
- Cook dried fruits without additional sugar; they already contain sugar.
- Can more fruit without sugar; put up fewer jams and jellies. Use less sugar in tea and coffee.
- Avoid sugar luxuries such as candies, cakes, sweet drinks and sodas.
- Use honey, maple sugar and sirups and other sweeteners.
- Cut out all desserts or other dishes that require much sugar.
