Women Go to Jail In Desire to Help Cause of Suffrage

Washington, Aug. 15.—Twenty-six women who have been defying the police in woman's party demonstrations on the square opposite the White House in protest against the senate's delay in acting on the federal suffrage amendment were given jail sentences in the police court today when they refused to pay fines.

Ten-day sentences were imposed for unlawfully holding a meeting without permit and 17 of the defendants were given five additional days for climbing on a statue of General Lafayette.

Today's sentences were imposed for participation in the first demonstration staged last week. Cases are pending against most of these women and others on account of later activities.

Surgeons Perform Miracles On Men Wounded in War

An Atlantic Port, Aug. 15.—Bishop Joseph M. Francis of the Protestant Episcopal diocese of Indiana, who has been a Red Cross worker at the American front, on his arrival here today on a French steamship, described "miracles of surgery" which he had seen at the Red Cross hospital No. 2 in the Toul sector where he was stationed.

"Men with great holes in their abdomens," said Bishop Francis, "are soon made fit again, while bullets through the neck, which formerly would have been considered more than grave, are treated lightly by the wonderful surgeons who are 'making over' the men mangled in the great war for democracy.

"When I saw what the marines did at Chateau Thierry it made me thrill with pride and there have been many occasions since when an equal pride possessed me because of the wonderful work of the boys of the new army who are fighting so gallantly."

13,000,000 MEN TO BE ENROLLED UNDER NEW LAW

New Draft Needed by October 1 and Registration Planned for September 5 If It Be Possible.

By Associated Press.

Washington, Aug. 15.—Provost Marshal General Crowder announced today that plans already have been made for registering the 13,000,000 additional men which he estimates will be brought under the selective service law when congress enacts the pending bill extending the age limits to include men between 18 and 45 years. From this number approximately 2,000,000 qualified for full military service are expected to be secured.

So urgent is the need for additional manpower, General Crowder said, that the draft machinery is being put into shape for the great task ahead without waiting for the final action by congress. Men of the new draft will be needed by October 1, and in order to get them registration day will have to be held not later than September 15 and if possible September 5 will be fixed as the day.

When the 13,000,000 men are enrolled, nearly 25,000,000 will have been registered since the United States entered the war. There were only 10,000,000 enrolled on the first registration day, June 5, 1917, and 7,000,000 last June 5, and several hundred thousand more are expected to be enrolled next 24.

Boards Begin Preparations.

"Preliminary steps have been taken by the provost marshal general," said General Crowder's statement, "to provide for the registration of those men who will be affected by the act which congress is expected shortly to pass extending the age limits of the selective draft."

"State headquarters, local boards, and other officials in the various states have been advised to hold themselves in readiness to proceed promptly with their work as soon as congress has acted and the president by proclamation has fixed the date of registration."

"Until the legislation is actually passed, it cannot be stated with exactness, of course, what the new age limits will be. But because of the urgency of the situation it is essential that as much of the preparatory work as possible be done at this time in order that the administration may promptly avail itself of the new law. To that end, now, as in the past, the utmost reliance is placed on the American people to supply the necessary co-operation and team work."

"The situation is urgent because by October 1, Class 1, under the age limits of the original act, will have been entirely exhausted. Unless there is to be a very serious interruption in the flow of American troops to the camps and thence across the seas to France, Class 1 must be replenished at the earliest possible moment by available men both below and above the present age limits of 21 and 31."

There is, literally, no time to be lost. "The bill which has been introduced in congress at the request of the War department would fix the new age limits at between 18 and 45 years. That is to say, it would include, in addition to the men within the present limits, those between 32 and 45, inclusive, (14 annual classes) and those between 18 and 20, inclusive, (three annual classes)."

"These limits were suggested to congress by the War department because the military man power program of the United States requires the now nearly depleted reservoir of Class 1 men shall be replenished by more than 2,000,000 men available for full military service. On the basis of actuarial figures from insurance companies, census computations and the experience of this office in the previous registration, it has been estimated that the required number of men for Class 1 may be had only by including within the draft age limits men between 32 and 45, and between 18 and 20. That is to say, approximately 13,000,000 men must be added to the list of registrants in order that with all exemptions allowed, at least 2,000,000 men will remain in Class 1."

The New BIG-SIX

Beautiful in Design
Thoroughly Modern
Mechanically Right

Note the harmonious design of body, fenders, radiator, lamps, and general outline of this New Studebaker Big Six!

See how gracefully the curves of each are blended. Few indeed are the cars which match it in appearance, or in which the modern bevel-edge body (originated by Studebaker) has been so perfectly developed.

Its power-resources are marvelous. Its "touring range" is ample for ordinary driving; its "emergency range" gives express train speed and power.
