

## TANKER BURNING WITH SUBMARINE LYING CLOSE BY

**Life Guards Rescue Crew of Steamer Probably Shelled Off Cape Hatteras by German Boat.**

Beaufort, N. C., Aug. 16.—A large oil tank steamer is afloat about 25 miles off Cape Hatteras, according to reports brought here tonight. A submarine is lying close by. The members of the crew have been taken off by life guards. It is presumed the submarine is a German and the tanker was set on fire by shell fire.

**Brazilian Ship Torpedoed.**  
New York, Aug. 16.—The Brazilian motorship *Madrugada*, 1,613 gross tons, was sunk by shell fire by a German submarine yesterday morning near Winter Quarter shoal, off the northern Virginia coast.

Frederick Rouz and his crew of 21 men told of the destruction of the vessel upon being landed here today by a steamer which picked them up. The captain and crew escaped in lifeboats and were rescued after floating about for four hours. The *Madrugada* left New York two days ago carrying a cargo consigned to Santos, Brazil.

According to Captain Rouz, the submarine emerged about 200 yards from his vessel and opened fire without warning. The crew immediately took to the boats and the ship went down within a few minutes. No attempt was made to molest the lifeboats, of which there were two, according to the captain's statement. He estimated that the undersea boat was about 400 feet long. She carried two guns, fore and aft.

**Navy to Guard Fishing Fleets.**  
Washington, Aug. 16.—Steps to protect the fishing fleets off the coast of New England from German submarine raiders have been taken by the navy. Secretary Daniels announced today that where the vessels operate in fleets, as is the general custom, naval patrol boats hereafter will accompany them to their banks and there maintain guard.

Protection of the fishing fleets was decided upon as a food conservation measure, as much of the nation's fish supply comes from New England. Decision to have naval patrol boats accompany the little craft whenever possible resulted from the sinking of a dozen or more smacks by a submarine which appeared suddenly on George's bank, off the Massachusetts coast, last Sunday.

The schooner *Sybil*, recently reported sunk by a German submarine, has arrived safely at Gloucester, Mass., the Navy department today was informed. The department also announced today that the remainder of the crew of the schooner *Progress*, one of the fishing vessels sunk off the New England coast, had been reported rescued.

**Soldiers' Wives Accepted As Hospital Assistants**

Washington, Aug. 16.—Fifty thousand women will be needed by July 1 next year to assist in the care of the sick and wounded of the American army. Surgeon General Gorgas stated today in announcing that young wives with husbands fighting in France would be accepted as hospital assistants.

The vast majority of the 50,000 women must be trained nurses and available for service overseas. To supplement the supply of graduate nurses the army medical department has established the army school of nursing, at which physically fit young women between 21 and 35 years will be trained and sent abroad as the need arises. Fully 15,000 women can be used as hospital assistants or student nurses in the United States.

**Cole Blease of South Carolina Receives "N. G." from Wilson**

Spartanburg, S. C., Aug. 16.—President Wilson has addressed a letter to Thomas H. Daniel, a local newspaper man, in response to a request for an expression of his views on the senatorial race in South Carolina, in which former Governor Cole L. Blease is a candidate, in which he says:

"Let me say that I have perfect confidence that the people of South Carolina will judge rightly in the senatorial contest and I have no fear that they will believe that Mr. Blease is or can be a friend of the administration. The record of his opinion is already written and it is a little late to expunge it."

**English People Subscribe Five Million Pounds Bonds**

London, Aug. 16.—(Via Montreal.) The subscriptions for national war bonds have reached the stupendous figure of £1,000,000,000, according to a statement issued today by Andrew Bonar Law, chancellor of the exchequer. Hitherto, the statement says, the world's record was held by the great war loan of 1917, which yielded £948,459,000.

**Aeroplane Drops on Tram Car and Kills Five Persons**

Marseilles, France, Aug. 16.—An airplane returning from a flight because of engine trouble today fell upon a tram car which was preparing to leave the station. Four persons in the car were killed and several others injured. The two aviators in the machine were severely burned.

**American Navy Aviator Killed in Flight in Italy**

New Haven, Conn., Aug. 16.—James Lyons Goggins, an American naval aviator of this city, was killed in a flying accident in Italy on August 11, according to a message received here tonight from the navy department. Goggins was a graduate of Georgetown university and was a foot ball star while in college.

## Treasury to Float Certificates for Use in Payment of Taxes

Washington, Aug. 16.—To permit business interests to provide in advance for income and profits tax due next year under the revenue bill now being framed, Secretary McAdoo tonight added that an indefinite amount of certificates of indebtedness bearing 4 per cent and acceptable for taxes in 1919, will be issued immediately. These certificates similar in terms to those floated in anticipation of tax collections earlier this year, are to take the place of the usual bi-weekly issue of loan certificates, announcement of which was due today.

In effect the offering of tax certificates at this time affords a means of advance installment payments on next year's taxes. Although the precise nature of these taxes will not be determined until the new revenue bill is enacted, many corporations already have begun to set aside tax funds, and these business interests are expected to invest heavily in the tax certificates.

## Rail Service Economies Save Huge Sum Yearly

Washington, Aug. 16.—By reduction of passenger service, elimination of freight train duplication and pooling of facilities under government operation, economies at the rate of \$25,000,000 a year have been effected in the northwestern operating district, Regional Director Ashton reported today to Director General McAdoo. Officials say the other six districts are making similar records.

## Canadian Officers Race to Boche Headquarters

By the Canadian Press. With the Canadian Force in France, Thursday, Aug. 15.—Some interesting incidents of the fighting of the past few days are now available. For instance, all day Thursday of last week when the battle opened, great difficulty was met in advancing on our extreme left. Finally it was decided the only way to advance was to turn the left flank. A famous Quebec battalion was entrusted with the task. They had to take up their position in the dark by the aid only of the stars, maps and compasses. Only military men can comprehend the difficulty of the undertaking. At the appointed hour—4:30 in the morning—they were on the ground, whence they advanced and took the position, forcing the entire enemy line in his sector to fall back, with trifling loss to us.

One officer had a bet with another that he would be in the boche divisional headquarters at Quensil first on Thursday night. It was a wild race and was not settled till Friday morning, when the winner actually took possession of the quarters while his troops were still fighting at the far end of the town. He captured the entire enemy divisional plant. Shortly after the loser came along and had to content himself with humbler billets. This was nine miles from the starting point of Thursday morning. The advance of a Manitoba battalion was the record of the battle, being over 20,000 yards from our front line. When marching down a road this battalion was attacked by 18 German airplanes, flying low and sweeping the road with machine gun fire. The order was given for the men to scatter and not one was hit.

## Aliens Required to Obtain Permits Before Departure From U. S.

Washington, Aug. 16.—Freedom of departure from this country of aliens by means of which a number of dangerous enemy agents have been able to escape from the authorities will not be permitted after September 15, under a proclamation signed by President Wilson and an executive order. The proclamation and executive order puts into effect the alien control law passed by congress last May. Under the executive order aliens after September 15 will be required to obtain permits before leaving the United States and additional restrictions will be placed on the entry of aliens. Attempts to evade the draft, through leaving the country, which officials believe will increase with passage of the bill extending the draft ages, will be rendered less easy.

## Famous French Diplomat Dies in San Francisco

A Pacific Post, Aug. 16.—The body of Albert Metin, chief of the French embassy mission, accompanying General Paul Gerald Pau of the French army on a tour of American cities, will be taken at once to France for burial, according to statements by members of the mission. M. Metin died at midnight last night from apoplexy, induced, physicians said, by the strain of the trans-continental trip on which he acted as spokesman for the mission.

**Department Orders.**
