

# SHIP EVERY SIX MINUTES GOES FROM U. S. PORT

Shipping Board Operates Merchant Fleet on Schedule as Rigorous as That of the Railroads.

Washington, Aug. 17.—Every six minutes a merchant vessel arrives and another departs from American ports. From North Atlantic seaports, there is a departure every 11 minutes, and one for Europe every 40 minutes. This rate of operation does not include vessels in the service of the army or navy.

The merchant fleet of 1,500 ships under the control of the shipping board are run as railroads on a time schedule. The duty of measuring ships' performances with their tasks is lodged with the planning and statistics division of the shipping board, headed by E. H. Gay, formerly dean of the Harvard Graduate School of Business.

Obviously, the division must know the tasks in detail, and so it co-ordinates with the war industries and war boards in determining and providing for the country's needs from abroad. It works on month to month schedules or as far in advance as it is feasible or possible to forecast.

In planning the use of ships, the division works with the food administration in determining the shipping requirements for food; with the War department in correlating shipping with the requirements of the line of supplies to the western front; with the war industries board in seeking solution of the problem of bringing necessary raw imports into the country, and with the war trade board in preparing the lists of essential imports and exports.

As the country has gone more and more on a war basis, it has been regarded necessary to limit the list of essential imports to less than 100. Data on the ships and their trade provide the basis for operation of the vessels under the shipping board's control. Likewise, records are kept of neutral vessels coming to this country or linking up with its foreign trade. Thus the division checks daily about 7,000 vessels, 1,500 of them being those of the shipping board; 3,000 engaged directly in American commerce and 2,500 scattered over the globe and trading for the most part with the allies or their colonies. Roughly, one-fourth of the merchant ships of the world are watched by the shipping board.

**Ships Must Make Good.**

Ship performances against tasks are recorded by "progress charts," which show at a glance what the vessels have to do and how they are doing it. Each set of charts is divided into 10 divisions—one each for movements of vessels, turn-arounds, ships charts of commodities, individual commodity charts, summary of imports, individual trades, summary

of trades, ship charts of exports, performances in ports and dock performances. Copies are distributed every 10 days to governments which require constant information about the movement of supplies.

By these movement charts, all information regarding locations and movements of vessels is accessible, and from past records one may forecast the time of future voyages.

The summary on shipping and trade, prepared every 10 days for the war industries and war trade boards and the food administration, helps shape the larger policies underlying the use of American ships in war time. The charts tell whether the ships allotted to a certain trade are enough, too many or too few; whether they bring in too little, or too much; whether they are on time; ahead of time or behind time, and whether the trade movement is too slow, too fast or just right. The charts also serve to guide the ship control committee in the assignment of vessels to various trades. By comparing import requirements against deliveries, the charts show when vessels may be transferred from one trade to another or released to the army.

**Lakeview Has Long List of Special Features for Week**

Special events, either in the way of a picnic or a feature attraction at the dance palace, for almost every night in the week, makes it possible for summer amusement seekers to enjoy a different brand of entertainment on each visit to Lakeview park. Tuesday night the big feature will be a celebration in a patriotic light, with many unusual features attached. Favors and novelties for the event will be furnished by the management. On Thursday, the big fun feature will be a carnival ball, when the festive spirit of carnival times will be greatly in evidence. Carl Lamp and his jazz band continue to extract much applause from the dancers for particular style of rendition.

**Manawa Allures Many by Its Waves, Breezes and Beauty**

Two concerts by Finn's Greater Omaha band; free movies tonight; scores of bathing and picnic parties, dancing and all the other usual attractions—these make up the program at Manawa park today. The park is beautiful at this time of year, with all the flower beds in bloom.

Over 10,000 more people have gone bathing at Manawa thus far this season, than at this time last year. Last week over 5,000 went "in swimming" and there were 315 picnic parties at the resort, including several large affairs.

Shotwell for County Attorney

**To the Voters of Douglas County**

The question has been asked how I stand on law enforcement. This is a fair question and demands a square answer.

I stand for the enforcement of all the laws of the land, including the order of the government to "WORK OR FIGHT."

There is no room in this country today for the BOOTLEGGER, THIEF, PROFITEER, GRAFTER, BUM OR SLACKER. They are all our country's enemies and must go.

I stand for efficiency and economy in the handling of the county's business. This is no time for extravagance and waste. Every dollar and man must count in order to win the war.

If elected your County Attorney, I shall endeavor to conduct the office so as to merit your commendation. If you believe in these things I shall be pleased to serve you as your County Attorney.

# Vote for Mike Clark

Republican Candidate at the Primaries for Renomination as Sheriff

They all look alike to Mike. He plays no favorites. That is why the Court House Gang would like to see him turned down. Don't let them. He put the Lid on disreputable Road Houses and made it stick. He took the Lid off the Court House Gymnasium and closed it up.
