## CZECHO-SLOVAKS **NEEDING RELIEF,** SAYS LEADER

Americans Arrive at Vladivostok: Chinese Send Troops to Siberian Border; Aid From Allies.

BULLETIN. Vladidvostok, Aug. 19.—A second transport carrying American troops arrived at Vladivostok Friday. The transport bearing the first contingent of American soldiders entered the harbor Thursday afternoon after a voyage of seven and a half days from Manila. A third troop ship is expected to arrive soon.

By Associated Press.

Vladivostok, Aug. 19.—General Dietrichs, the commander of the Czecho-Slovak forces, in pointing out Friday the great odds his troops are facing, estimated the enemy strength at 40,000 men, with 70 guns and 200 machine guns. The status of the Czecho-Slovaks in trans-Baikalia is unknown, he said, but it certainly must be desperate. To attain the object sought by the entente allied government. ernments a substantial force must be sent to their relief.

Dr. Yaromir Spacek, a member of the Czecho-Slovak national council, has left for Washington to acquaint Prof. T. G. Masaryk, the president of the council, with the situation of the Czecho-Slovaks.

Czecho-Slovaks.

In the absence of artillery, the British have equipped two gondolas with guns from a cruiser and sent them to the front.

Chinese Send Troops.

Washington, Aug. 19.—The Chinese government has sent a large force of troops to the Siberian border to prevent a threatened invasion of Chinese territory by German and of Chinese territory by German and Hungarian prisoners of war who joined with the red guard and other elements of the bolsheviki against the Czecho-Slovaks in the Trans-

Baikal region.

The sending of the Chinese force was taken to mean that every means of bringing relief to the Czecho-Slovaks was being taken by the allied powers. That the army of prisoners set free by the bolshekivi and armed the Czecho-Slovaks was to fight the Czecho-Slovaks was menacing the Chinese border has been known here. China has declared she will not permit them to cross her border and if Chinese territory is violated a battle is promised.

It was said today at the State de-

partment that the allied troops in Vladivostok are not under orders to remain there as was indicated in an appeal for assistance recently made by General Dietrichs, the Czecho-Slovak leader, but may go anywhere they can assist.

Japanese troops probably will be the first to render aid to General Dietrichs.

#### Spain Will Not Recede from

Its Neutrality Position San Sebastian, Spain, Sunday, Aug. R.-Foreign Minister Dato today de-

There have been persistent and ap-parently well-founded reports during the last week that Spain had sent another note to Germany concerning the torpedoing of Spanish ships. It had been reported that the note included a notice to Germany that Spain would compensate herself for future losses from self-interned German yeasels in Spanish harbors.

**Great Labor Shortage** 

Threatens War Supplies Washington, Aug. 19.—That the shortage of labor in war industries, estimated at nearly 1,000,000 men, is still seriously curtailing production and unless quickly remedied threatens to result in a shortage of supplies and

to result in a shortage of supplies and equipment for the army was emphasized today in a statement of the Department of Labor.

The shortage in skilled labor is becoming almost as acute as that in unskilled labor. The available supply of unemployed labor is now practically depleted, the department said and the one remedy lies in the patriotic recognition by non-war employers that they must release labor to war industries in order not to imperit the supply of the military forces.

#### **Burleson Approves Wage** Increase for Telegraphers

New York, Aug. 19.—Postmaster General Burleson, in control of tele-graph and telephone systems, has ap-proved the 10 per cent increase in wages of employes of the Western Union Telegraph company, it was an-nounced at the company's offices to-day.

Navy Stands Guard As President Wilson

Enjoys Big Outing Manchester, Aug. 19.—President Wilson's outing has much improved

Today he played the best game of golf of his stay, winning from Dr. Cary T. Grayson, his physician. While the president and Mrs. Wilson drove along the shore or strolled on the beach and in the woods they were accompanied as usual by secret service men. Less noticeable and observed by but few

was the part played by the navy.

Marines picketed the grounds.

Two hydroairplanes searched adjacent waters and at a little distance off the coast two torpedo boat destroyers and a fleet of submarine chasers kept guard. This watch over the sea was taken because the president and Mrs. Wilson selected a house standing almost at the edge of a promontory that commands a wide view of the sea and which, in turn, can be plainly seen from some distance out. It was not believed to be beyond the range of possibili-ty that some German submarine commander would be tempted to risk his ship to take a pot shot at the conspicuous target.

## HUN U-BOAT

trol fleets. It is known that the activities of one boat ceased immediatey after a destroyer reported having discharged depth bombs near the spot where the U-boat submerged.

One Cable Cutter. One of the three submarines, it is thought, was equipped as a cable cutter. This is held to explain the parting recently of two Atlantic cables. A naval repair ship, escorted by fighting craft, spliced both.

Descriptions of the submarines give their length as 300 feet and their armament as two guns of either 5.7 or 5.9 inch caliber. Naval experts adduce the craft have a cruising radius of not less than 17,000 miles.

The German admiralty now has in commission between 160 and 180 submarines, while the total number destroyed by the allies has passed the 200 mark, according to the most reliable information available here. If correct these figures would indicate that new German construction has barely held its own over the period of four years, as at the beginning of the war the Germans are known to have had about 150 submarines. The toll in the last six months has been many times that attained in any previous period and the constantly increasing allied anti-submarine forces, according to naval officials will put the ratio continually higher as time passes.

Submarine Sunk. Philadelphia, Aug. 19 .- A German submarine was sunk in a running battle with a British tank steamer last Friday about 300 miles northeast of Nantucket, according to members of the tanker's crew. The oil ship arrived here tonight from Mexico.

When first sighted the U-boat was two miles away, according to the captain of the tanker, who said he immediately opened fire. Two shots from the submarine struck the British ship, one of them passing through nied recent press reports that the neutrality of Spain was threatened. He said the cabinet "would suffer tank. Neither of the shells exploded nothing to turn it aside from a policy" and did no material damage, the captain reported.

"As to the famous note addressed to Germany," the minister continued, the tank ship, one or more of which her master declared scored clean hits it does not exist." the port side of the submarine which he said sank a few minutes later.
