RAIL MEN MUST BE COURTEOUS IS **UKASE BY M'ADOO**

'Public Be Damned" Policy Will Not Be Tolerated in Future is Order of Director General.

Washington, Aug. 19 .- Railway en ployes today were specifically ordered by Director General McAdoo to show courtesy in dealing with the public and to cease excusing train delays and other errors with the plea that Uncle Sam is running the railroads "'The public be damned' policy will

in no cause be tolerated on the railroads under government control," said the director general's order, addressed to "all employes in the rail-road service of the United States." The order follows in part: "For many years it was popularly believed that 'the public be damned policy was the policy of the railroads under private control. Such a policy is indefensible either under private

control or government control. It would be particularly indefensible under public control when railroad employes are the direct servants of the public.
"The public be damned policy will in no case be tolerated on the railroads under government control.

Every employe of the railroads, should take pride in serving the public courteously and efficiently. "My attention has also been called to the fact that employes have sometimes offered as an excuse for their own shortcomings, or as a justification for delayed trains or other difficulties, the statement that 'Uncle Sam is running the railroads now or these are McAdoo's orders, etc. Nothing could be more reprehensible or nothing could be more hurtful to the success of the railroad administration or to the welfare of railroad em-

ployes themselves. There are many people who for partisan or selfish purposes wish government operation of the railroads to be a failure. Every employe who is discourtedus to the public or makes excuses or statements of the kind I have described is helping these partisan or selfish interests to discredit government control of railroads.

"Recently the wages of railroad employes were largely increased. In order to meet this increase the public has been called upon to pay largely increased passenger and freight rates. The people have accepted this new burden cheerfully and patriotically. The least that every employe can do in return is to serve the pub-lic courteously, faithfully and efficiently."
