### SPAIN TO TAKE HUN SHIPS FOR SUNK TONNAGE

#### Protests Losses from Operations of Submarines and Threatens to Seize Equal Amount of Shipping.

Paris, Aug. 21.—Spain has informed Germany that because of the serious inroads submarine sinkings have made into Spanish shipping, Spain hereafter will use German vessels now in Spanish ports in place of tonnage sunk. This announcement is made in an official statement issued after a meeting of the Spanish cabinet at San Sebastian. The cabinet statement, which is transmitted from Madrid by the Havas Agency, says: "As a consequence of the submarine campaign more than 20 per cent of our merchant marine has been sunk, more than 100 Spanish sailors have perished, a considerable number of sailors have been wounded and numbers have been shipwrecked and abandoned. Ships needed exclusively for Spanish use have been torpedoed without the slightest pretext. "The government has believed that it is unable without failing in its essential obligations and without setting aside neutrality, to defer the adoption of measures necessary to guarantee Spanish maritime traffic and to protect Spanish crews and passengers. "Will Use German Ships. "Consequently, the government has decided to address the imperial German government and declare that owing to reduction of tonnage to its extreme limit, it will be obliged in case of new sinkings to substitute therefor German vessels interned in Spanish ports. This measure does not imply the confiscation of the ships under definite title. It would be only a temporary solution until the establishment of peace, when Spanish claims also will be liquidated. "Our ambassador at Berlin has received instructions to bring this decision to the notice of the German government. The Spanish government does not doubt that the German government will appreciate the circumstances determining this resolution and will recognize that Spain, in holding to the neutrality it has practiced since the beginning of the war, which has sacrificed many of its rights and legitimate conveniences when it has been possible without affecting the dignity of Spain and its national life. "The decision of the government does not affect its firm resolve to maintain strict neutrality."
