Was In Bed Weeks At A Time Unable To Move—Now Does Own Housework.

"For the past eighteen years my wife was a sufferer from rheumatism in one of its worst forms," said William Bennett, who is employed by one of the large saw mills at Redmond, Wash., recently.

"Whenever these attacks came on," he continued, "she would get so weak and crippled up that she would have to take to her bed, where she would lie for two or three weeks at a time, suffering untold agonies and unable to move. Her left foot was drawn up and twisted so with pain that she seemed to be permanently crippled, and one finger on her left hand was drawn all out of shape so it was useless to her. Her stomach, too, was all out of order, she no appetite, and although she was just as careful as she could be about her dieting, her food would sour on her stomach and cause her great distress afterwards. Her nervous system seemed to be shattered, and her rest was so broken at night that she could hardly sleep. Her arms and throat appeared to be withered, the skin soft and flabby, and she was just about as miserable as anybody ever gets to be. For years she had been too weak and ailing to do any of her housework, and what time she wasn't in bed she was barely able to get around.

"I consulted specialists about her case but they could give me no hope, and I took her to one of the most celebrated health resorts in the country, hoping she would be benefited through drinking the water, but it seemed to do her no good. Then she tried all kinds of medicine, but not till she started taking Tanlac did she find any relief whatever. After taking a few bottles of this wonderful medicine we are prepared to say that Tanlac is the only thing we have any faith in. Her last attack of rheumatism was all of two months ago, and she hasn't had a twinge since. Her twisted foot is getting back into its normal position, and that bent finger is getting straight and supple like the others. Her stores ach is in such splendid condition that she can eat anything she wants without suffering any bad effects afterwards. Her arms and neck are filling out, and are plump and firm, and she sleeps like a child every night. She is now able to do her housework. and she is in better condition than
