NEW YORK STOCKS

U. S. Steel Advances to Year's Best Price; Gains in General Reduced Irregularly

Before Close. New York, Aug. 27 .- Stocks were slightly more susceptible to favorable developments today, although extreme gains of 1 to 2 points among the usual favorites were ir-

regularly reduced before the close. A more hopeful feeling prevailed as to money movements, regardless of renewal by the federal reserve board of last month's warning concerning the urgent need of credit conservation.

Pronounced expansion of business in bank acceptances was reported, but this was without effect upon ordinary call loans which ruled at 6 per cent, the same rate apply-ing to such time funds as were available. Reports from Washington pointed to early adjustment of the railroad contract dispute, investment rails evidently anticipating this outcome by their firmness.

outcome by their firmness.

Canadian Pacific, in no way concerned in the difficulties of the transportation systems with the federal government, enjoyed another upward spurt, though not attaining to its high record of last week.

U. S. Steel rose to the year's best at 115%, an extreme advance of 2 points from its minimum of the forenoon. But half of this advantage was forfolded in the moderate selling of the final hour,

Gross advances of 1 to aimost 3 points were registered by other industrials and equipments as well as shippings, coppers, tobaccos, industrial alcohol, distillers and aundry specialties.

tobaccos, industrial alcohol, distillers and sundry specialties.

Foreign issues were the striking feature of the enlarged dealings in bonds, French 5½s and municipals making substantial gains on the further hardening of Paris exchange. Total sales, par value, aggregated \$7,700,000. Old U. S. bonds were unchanged on call.
