REPUBLIC IN THE HOLY LAND NOW SEEMS ASSURED

Movement of Jewish People to Ancestral Home Promises to Attain Great Force.

After 2,000 years of exile, it is now almost certain that a Jewish government will be established in Palestine. When General Allenby, at the head of his victorius army, carried the Union lack into the Holy City last Decemher, a dream of the twenty cen-turies became possible On the hills of Zion a Jewish civilization with something of its old moral and intellectual vigor may once more come into seing. The Jews have seized their opportunity, and already an Administrative Commission of Hebrews is at work restoring the country for that Tace.

This Administrative Commission has a program. Its aim is to bring back they life of the Jewish colonies in Palestine to their flourishing prewar conditions. It intends to furnish the necessary educational, medical, and economic aid to all Jews who go back to the Holy Land. One of its most important projects is the immediate founding of a Jewish university. Along the lines of diplomacy, the commission proposes to create harmonious relationships with the Arab and Armenian states which are to be its neighbors.

Jews Go Back to Palestine. The story of the return to Palestine of the Jews during the last forty years is as amazing as that of our Pilgrim fathers and in many ways a remarkable parallel to it. This migration, too, was born of persecution The first great series of massacres of Jews in Russia began in 1882. Scores of thousands of them fled to America. A few turned toward Palestine.

Every great movement of the Jew-ish tribes has had its prophets and

leaders. The Joshua of the Jews today is Dr. Chaim Weizman, president of the Administrative Commission. He is a chemist. He was born in Russia, but later became a British subject. Zealous in the cause of the Zionist movement, he nevertheless has a strong practical sense that appeals to the British He acquired a reputation and made influential friends. Balfour was one of them. Thus championed, the Jewish aspirations moved into the realm of practical politics. Land Miraculously Developed.

When the Germans pushed through their plan in their dogged Prussian fashion, the friends of the Hebrew language resigned in a body. The fight continresigned in a body. The fight contin-ued, with the result that six new institutions were opened by the Zion-ists at all of which Hebrew alone was taught. Thus the attempt to Prussianize Palestine had already been morally defeated before the war broke out.

Zionist Troops in the War. But the language war was merely a clash of cultures, a battle of the principles fought to a finish without bloodshed. Since then, the devoted Zionists of Palestine have taken part in actual warfare. They are now fighting among entente troops for the cause of democracy as valiantly as any soldiers.

One organization of Jewish soldiers layed a part in the glorious, but illfated Gallipoli campaign.
