You people that own land that is worth \$200 to \$300 per acre won't believe this and will probably say: "If they had land one-half that good it would be worth twice what they ask for it." If seeing is believing come and see. We are pricing this 7,360 acres from \$15 to \$170 per acre, with a small payment down, another in March or April when percession is given, then a small payment each year, as the retiring members of Cover & Ce. given, then a small payment each year, as the retiring members of Cover & Co. would rather carry back their meney in this land than to have the each.

The 7.360 acres are all owned by us We are selling only in order to settle up a partnership and is subject to sale only. Will not make any change in price, as we have put it down to where it will all sell in 36 days. It is a good buy as a home or investment. All on the IT P.

Corn Market Given Upward Swing by Scarcity of Supplies in Pit.
Chicago, Sept. 13.—Nearly complete disappearance of corn here good enough in yesterday's market with its extreme low close makes comparisons today difficult. To-glay's market is better than yesterday's low-est time, but not as good as the high time. Yesterday's long string was \$19.50.00 today's long string was \$19.50.00 today's long string will be \$12.4500 \$19.55, which is probably as good a comparison as can be made. Today's bulk is \$19.40 \$1.54\forall and November \$1.52\forall to \$1.54\forall and November \$1.52\forall to \$1.54\forall to \$1.54\fora sive values an upward swing. Largely in consequence, the close was unsettled. 1% to 2% cents not higher with October \$1.54% to \$1.54% and November \$1.52% to \$1.52%. Oats gained %@1c. Provisions finished unchanged to 50c higher.

Shorts in the corn market were plainly nervous over the scarcity of supplies in Chicago elevators and regarding the meager amount of pit offerings. The September option especially showed overseld condition, and went to a sharper premium as compared with October. Widespread need of warm weather and sunshine counted to of warm weather and sunshine counted to a material extent as an additional stimulus toward higher prices. Bears attempted to use the favorable war news as a factor in forcing a decline, but the buying was too persistent to allow success of the effort. Instead, the market even to the last relained most of the day's advance. Liberal purchasing on government account had a bullish influence in the oats market. Besides, country offerings to ar-

rive were light. Hogs at \$20.85, a new high price record, gava a decided upward slant to pro-visions. Business, however, lacked volume. Cash quotations; Corn.—No. 2 yellow, \$1.82@1.59; No. 2 yellow, \$1.82@1.65; No. 4 yellow, \$1,54@1.59. Oats—No. 3 white, 70% @71%c; standard,

New York Coffee. New York, Sept, 13.-The issue of new or amended regulations by the food admin-istration served to unsettle the market for coffee futures here today. These regulations provided that there could be no trading in December contracts except in liquida-tion of existing commitments and also that no deliveries could be accepted on contracts except by licensed dealers. The opening was unchanged to 9 points lower.

A decline in the Santos futures market probably increased the disposition to liquidate long contracts, but the near months were influenced by reports of a very firm spot situation. Liquidation, Due to Contracted Conditions in Money Market.

New York, Sept. 13.—Further enforced liquidation of specialties prompted largely by contracted money conditions, were fea-tures of today's stock market. Irregular recoveries enaued late in the session. Stocks which bore the brunt of the initial decline included shippings, tobacces, motors and oils, their depreciation being attended by unconfirmed reports of further withdrawal of bank loans. Standard stocks, rails as well as indus-trials, also weakened in the early selling, but railed at the first signs of support and short covering. Altegether, it was an uncomfortable day for pools and allied professional interests.

refessional interests.

Aside from adverse loan conditions, there vere specific reasons for the heaviness of certain issues. Marines preferred, for in-stance, owed its setback of 3 points to the company's annual report, which disclosed large decrease in net income. United States Steel closed at a slight fractional gain after losing almost 1 point and investment rails strengthened, but 1 to 24 point recessions in St. Paul common and preferred and New Haven were not re-

Widespread rains putting the soil generally in good condition for a record winter wheat seeding, some improvement in cotton and corn that had not been injured beyond repair, and unprecedentedly high prices for all kinds of farm products and meat-producing animals, have removed some of the hesitation shown in the southern and southwestern sections of late, and jobbers, final distributors and consumers are alike freer buyers. MEN CALLED FOR OCTOBER DRAFT

Contingent Will Practically Exhaust Class One Men; Draft Registration Exceeds Estimate.

Des Moines, Ia., Sept. 3 .- (Special Telegram.)-Adjutant General Lasher received a call today for 5,305 class one men to be sent to Camp Dodge in the five-day period beginning October 7. This call will practically ex-

haust class one men in Iowa. Early returns from cities over the state indicate that registration of Thursday may exceed government estimate for Iowa of 288,000 by 4 or \$ per cent. Returns from country districts are slow in coming in.
