**REAL PATRIOTISM** Evidenced by the Actions of

Each Individual.

Real Patriotism demands that each one of us do his or her part, unswervingly, gladly, that every ounce of personal energy be given to the performance of each patriotic duty, no matter how great or how small.

New conditions are constantly arising on account of the war. which requires the hearty co-operation of every individual, every partnership, every corporation, with the Government in its tremendous efforts to win the war as a final result.

The splendid, wholeharted, response of the prople of Omaha and vicinity and of Nebraska generally to every request of our Government, no matter what inconveniences or sacrifices they have imposed, makes us feel proud to be numbered part of such an intensely patriotic community.

The universally cheerful accentance of limited delivery service and other restrictions which conditions have made necessary is, indeed, most gratifying.

We want to congratulate you
