

MAZDA UNDER LASH OUTFOOTS JEANNE DEAN

Takes Three Heats After Loss of First Two; Track Is Heavy and Time Slow.

Syracuse, N. Y., Sept. 13.—The grand circuit meeting in connection with the New York state fair here closed with three races this afternoon. The races were late in starting and the time was slow because of a rain-soaked and heavy track. The last of two amateur events was raced in a rain storm.

Murphy, Dickerson and Lyman were the day's winners. Murphy drove Billy Jackson to a straight heat victory in the 2:10 class race after letting Walker lead to the three-quarters pole in each heat with Harper, Hubbard was the third starter with Bellinardine. The best time was 2:09.4.

The opening event on the program went in five full heats. Zoller drove Jeanne Dean to the wire first in the two first heats, but Lyman, in a whipping finish, sent Mazda in by a nose in the third and came back again in the fourth. The best time was 2:13.4. Mazda led all the way in the fifth for heat winners and won first money. Summaries:

Foot Ball Practice at University of Chicago Will Start Next Week

Chicago, Sept. 13.—Satisfaction was expressed by foot ball coaches throughout the western conference tonight that the War department is strongly in favor of the continuation of inter-collegiate athletics and will encourage the playing of the 1918 foot ball schedules instead of abandoning them.

A. A. Stagg of the University of Chicago announced he would start the practice season next Monday and that other coaches in the "Big Ten" were planning on launching the practice season next week.

The University of Chicago schedule will be carried out as originally planned, but Coach Stagg said it was probable that Minnesota and one or two other universities in the conference would be obliged to cancel one or two games which would require long trips away from home.

High School Foot Ball Given Tryout in Field

Central High grid warriors turned out Friday afternoon to start practice. No scrimmaging was done, but the three-score of candidates were given a little roughing up, chasing and falling on the pigskin. The half dozen "O" men limbered up by a little practice in passing the ball.

OH! WOE! OH! WOE! Life has finally become tough for the motion picture actresses and actors. No longer can the publicity agent get by with the tales of the fabulous fortunes being laid by screen idols, for the Pocket Sam is going to step on the pocketbook with his income tax next month. And now there is a great do around the studios on the question of photographs, for every star gets hundreds of requests each month for his or her phiz. Shall the company pay—because the stars aver they will be in the poor house if they have to foot the bill. Or mayhap the fan can no longer get his favorite star's face unless he encloses a check. It's things like these that must take all the joy out of life in these times of trouble.

Carl Laemmle, president of the Universal Film company and one of the giants in the motion picture business predicts a great change this year in the business in that he believes the day of the star is past and that the production itself, standing on its own merits will obtain its place. This fall will see the issuing of many special productions, conceived and completed on a large scale and having in the cast many well-known actors. But the name of the actor will not carry the play—on the other hand it is thought

MUSE SESSUE HAYAKAWA And His Own Company "HIS BIRTHRIGHT"

the play will make the name of the actor greater. The system will work out that the exhibitor, who has been forced to run poorer pictures as a part of his program in order to get stars will forsake the program bookings for the special productions if he believes he can obtain enough fine plays to keep his house open. The result to the public will be that the local house manager has to offer his patrons a better run of plays, chosen on his judgment as a picture man and not as a part of a program built by a production concern.

Alice Brady, who is in "The Better Half" at the Rialto has just been made sponsor of the submarine chaser 19 of the United States Navy. As part of her message of acceptance Miss Brady brought "smokes" for the whole crew and promised a liberal repetition when tobacco got scarce again.

The Lothrop theater announces that it has purchased a \$7,000 pipe organ and this suburban playhouse makes another step forward toward downtown ideas. Today there is being shown there one of the finest features of the year, a play that has seen very few of the smaller theaters, "Revelation," with Mme. Nazimova in the leading role.

Frank Campeau, who is the regular "villain" in Douglas Fairbanks' company, has organized a company of moving picture stars to go on a tour in behalf of war charities, playing in the "Virginian." Campeau was the original "Frank" in this play. The cast includes Dustin Farnum, Winifred Kingston, George Faucett, Ruth Allen, Tully Marshall, and others and will tour from Los Angeles eastward to New York.

Mary Miles Minter was the recipient of a letter from a prison camp in Germany, in which an American admirer there stated that he and the other prisoners had been permitted to see one of her films that week.

Where Can I Find Relief From Itching, Terrifying Eczema?

This Question Is Ever on the Lips of the Afflicted. Eczema, Tetter, Erysipelas, and other terrifying conditions of the skin, are deep-seated blood diseases, and applications of salves, lotions and washes can only afford temporary relief, without reaching the real seat of the trouble. But just because local treatment has done you no good, there is no reason to despair. You simply have not sought the proper treatment, that is within your reach. You have the experience of others who have suffered as you have to guide you to a prompt riddance of blood and skin diseases. No matter how terrifying the irritation, no

AT THE THEATERS

WITH tonight's performance in "Camille" Sarah Bernhardt will close her week's engagement at the Orpheum. She is to be first on the bill, and the curtain is to rise sharply at 7:50. Many hundreds of people have been turned away, unable to get seats during Bernhardt's engagement. For next week comes one of the most charming of American comedienne, Marie Cahill. One of her numbers will be a medley of her song successes. She is in vogue for only four weeks, after which she goes to New York to open in her musical comedy, "Just Around the Corner," which recently closed after 12 weeks in Chicago.

James E. Cooper's "Sight-Seers" come to the Gayety theater this afternoon for a week's engagement during which they will present William K. Wells' fun-laden vehicle, "Wait a Minute." Mr. Cooper has spent more money than ever in securing a high-grade cast, a superior beauty chorus, specialties ad innovations, and scenic and costume attractiveness of exceptional quality. Tomorrow's matinee (Sunday) starts at 3:00.

"Odds and Ends of 1917" will close at the Boyd theater with two performances, matinee and evening. This unusual offering gives the theatergoer a much desired element of originality. The action of the entertainment from the first curtain to the last is entirely away from all tradition followed by musical comedies. Besides M. Norworth, chief among the

fun-makers, are Harry Watson, jr., for six years the comedy mainstay of the Zeigfield follies, and Miss Betty Parker, one of the most beautiful comedienne on the stage today.

"The Little Teacher" concludes its engagement at the Brandeis theater today, with two performances. This appealing comedy-drama is from the pen of the late Harry James Smith, and strikes a distinctly human note in its hold on our best emotions. Maude Fealy's visualization of the title role is a positive delight. Indeed, there are many who think that as the little teacher she is perhaps at her very best.

"Oh, Boy," the musical comedy that found such great favor here last season, will come to the Boyd theater for a return engagement of four nights and Wednesday matinee, commencing Sunday evening, September 15. The special company for a limited tour includes Lavinia Winn, Harry Meyers, Theodora Warfield, Franklin Graham, Helen Du Bois, Anna Little, James F. Fulton, Thomas C. Leary, James E. Rome, Billy Gould, Florence Smith, and Miriam Haebler. Some of its most popular musical numbers are "An Old-Fashioned Wife," "Rolled Into One," "Till the

Clouds Roll By," "The First Day of May," "Koo-la-Loo," and "Nesting Time in Flatbush."

Patrons of the Empress today are given their final opportunity to see the Two Hickey Brothers, sensational acrobats, comedians and singers, who provide real thrills interspersed with an abundance of comedy that calls for many laughs.

Build Potash Refineries on Cherry County Lakes

Two potash refining plants are in course of construction in Cherry county, one at Elk and the other at Merriman, both on the Northwestern's Black Hills line.

Cherry county is the center of the sandhill country of Nebraska and within its limits there are numerous small lakes that until recently, with the ranchers, have been looked upon as liabilities instead of assets. Reports to the Northwestern offices here are to the effect that the water of practically all these lakes is rich in alkali salts, convertible into potash. It is said that ranches on which there are lakes and which a year ago sold at around \$6 to \$10 an acre have gone up and are now selling at fabulous prices.

We placed an order for these suits a year ago, with makers who were using foresight in the purchase of clothing fabrics and were in a position to place large orders. Had we waited, the price of these suits would be \$30 at the very least—perhaps more—for the condition of the clothing trade today is acute, and the makers' temptation to lower quality to meet competition is getting stronger and stronger.
