Garden as Thais; Galli-Curci as Rosina; Two Night: of Opera Promised for Omaha; Associated Retailers Announce the Plans

The Associated Retailers of Omaha have completed arrangements for the appearance of the Chicago Opera association at the Auditorium on Friday and Saturday, November 1 and 2, The engagement here will be limited to two performances, in which the strongest resources of the organization in both its Italian and French contingents are concentrated. Cleofonte Campanini is noted for his adherence to the "star system" in opera, and last season the success of the Chicago company in New York and Boston was largely due to his putting all-star arrays into his performances, making each presentation doubly attractive. In Massenet's "Thais" at the open-

ing performance, Mary Garden will have the title role, in which she has maintained supremacy since her

advent in the part. Georges Baklanoff, the great Rus-sian baritone, will have one of his most dramatic characterizations as Athanael; Forrest Lamont, last season acclaimed the peer of American tenors, will have one of his best roles as Nicias; and the balance of the cast will be assigned to artists of tried and proven fitness, including Con-stantin Nicolay as Palemon, Louise Berat as Albine, Elvira Amazar as Crobyle, Anne Sullivan as Myrtale and Desire Defrere as the servant,

with Campanini conducting. In Rossini's "The Barber of Se-ville," on the second night, Amelita Galli-Curci will appear in a role re-freshingly new to those who have beheld her only as tragic heroines, for "The Barber" is one of the few works in the grand opera category in which comedy and humorous characterization transcend, and her role of Rosina displays her versatility and vivacity as

no other does. Her artistic consorts will include the foremost Italian bariductor.

We now offer the trade SAXON VINEGAR. This is a new product, which we believe most perfect, strictly pure and wholesome, and adapted to every vinegar use. A degree of CLEAN-LINESS is assured which we consider impossible to attain in cider vinegar, due to wormy or decayed apples. SAXON VINEGAR is made by a scientific distillation of corn, rye and barley, and a fermentation of sugar, aided by selected yeast, and then a skillful blending. This blended product then goes through specially prepared generators, under expert supervision. After it has acquired the proper strength and flavor, it is then stored in immense tanks to age, mature and mellow. The users of SAXON VINE-GAR will quickly appreciate its uniform amber color, its pleasing, aromatic flavor, and its delicious, mellow taste, combined with its peculiar appetizing zest. Tanks and Airplanes Do Great Work in Drive at St. Mihiel

By Associated Press.

With the American Army in France, Sept. 14.-Eleven enemy ammunition dumps are known to have been blown up by the artillery of one corps alone in the St. Mihlel sec-

tor. The fine work done by the tanks in the beginning of the offensive is illus-trated by the execution of one ma-chine in command of Sergeant Gra-ham. This tank ran far ahead of the infantry and captured a battery of German 77s, 17 heavy machine guns, five light machine guns and 75 pris-

When the tank went into action the sergeant crawled to the top of the turret and directed operations from there.

Another tank, unaided, took 30 prisoners.

The losses to the tanks have been very smail. Only two of the ma-chines have been destroyed entirely and in the tank corps the Americans have suffered only four casualties. Not a man has been killed in connection with the operation of the tanks. American aviators have been tak-

ing the most active part possible in the present fighting and notwith-standing the bad weather have been flying over German territory without
