Chicago Grain and Provisions. Chicago, Sept. 16 .- Corn weakened in value today, owing chiefly to an embargo on shipments of grain to Kansas City, St. Louis and Omaha. The embargo was exsected to increase the movement to Chicago, now the sole big center that has not suffered from congestion. Peace talk tend. ed to emphasize bearish sentiment, but only in a minor degree. Opening prices, which varied from unchanged figures to %c lower, with October, \$1.52\%, \$1.52\%, \$0.152\%, and November, \$1.49\%, were followed by a material setback all around. Oats displayed comparative strength. Recent buying for experiment and for exp ent buying for government and for export interests was the main basis. After opening unchanged to %c higher, the mar-

ket reacted somewhat with corn.

Provisions lacked support. Weakness of corn more than offset the firm tone of corn more than offset the firm tone of the hog market.

Charles Altschuler, Madison, ! Neb., was in the city Monday, with a fine display of white and yellow corn, which he had picked at random from what is considered the largest field of corn in the northern part of Nebraska.

Mr. Altschuler retired from the farm 40 years previous to the entrance of the United States into war. As soon as he realized Uncle Sam would need the energies of every able-bodied man in the country in food production, he and his son went back to farming, and they have not only reaped a harvest of grain, but also a harvest of money in so doing.

He has 255 acres of corn, the sample ears of which are over 12 inches in length. He picked 24 ears from 10 stalks and there are indications that his corn will go 60 bushels to the acre. He uses a tractor in his farming operations.

Restricted Money Situation

Overshadows Peace Overtures; Tobacco Lowest in Months; Bonds Hold.

New York, Sept. 16.—In the face of the renewed peace efforts by the central pow-ers, the stock market opened steady today, supported by the readjustment values as begun on Saturday after last week's liquidation. The effects of Austria's political move were entirely nega tive. United States Steel was unchanged to a quarter of a point off, and other representative lesues and the investment shares were slightly higher. A subsequen shares were slightly higher. A subsequent sharp break in American Sumatra Tobac-co, which declined 5½ points, and a loss of 2½ points in United States Alcohol, caused the market to yield a fraction in sympathy.

One of the documents, a terse One of the documents, a terses ter were still active in Siberia in the note from the German general staff to the Council of People's Commister of the People's Commission of t sars, discloses that as long ago as November, 1917, when the Russian regime still was regarded as an ally of the nations at war with Germany the Germans were brusquely requiring Lenine and Trotzky to furnish information regarding the amounts and places of storage of supplies received by Russia from America England and France.

Early Moves Against Allies. Others tell of the launching in January and February this year of a bolshevik peace and socialistic propaganda against the United States, England and France, at the direction of the German intelligence service. This was at the very time that Scheidemann, the powerful German socialist and world socialism apostle was in communication with his Russian brothers "regarding the destruction of the traces of the party's business relations with the imperial government."

The intelligence service required the bolsheviki to send to the allied countries through neutral Europe "comrades" under assumed names and with false neutral passports, to preach their doctrine of disorganization and to carry on campaigns of "counter revoluton, sabotage, looting, etc.
