### LITTLE TROUBLE EXPECTED FROM **GRAIN EMBARGO**

New U. S. Order Finds No Congestion Here; Ship- ments Equal to Receipts.

By order of the U. S. Railroad Administration, and because of limited storage capacity, an embargo was placed yesterday on all' grain shipments consigned to Omaha, Council Bluffs, Kansas City, and other points in the grain belt.

As a result of the embargo fuure shipments of grain to these markets will be made on a permit ministration. in co-operation with the Food Ad-

A specially appointed grain control committee will receive these storage can be given at destination, the shipper or agent at point of origin will be so notified, and the shipment may be made accordingly.

While Omaha, theoretically, comes under the provision of the embargo. it actually should have little effect on the movement of grain from the country elevators to this point, acording to a statement issued by the Grain Exchange yesterday.

"Omaha starts under the new egulations without congestion. while other markets are not so fortunate," says a bulletin issued at the Grain Exchange. According to the oulletin, during the 30-day period at this point, and there were 5,777 cars shipped. Heavy shipments are being made from Omaha to interior points, and that there will be ample facilities for handling the regular amounts of grain due this market, is the opinion of Omaha grain men.
