Several well improved imigrated farms; two good cattle ranches.

In very best part of Nebraska where affalfa yields 3 to 4½ tons per acre every year. Wet or dry grows better than any weed on earth. Can show you farm after farm that will net the landlord over \$40 per acre in rent.

You people that own and that is worth. acres alfalfa.

\$40 per acre in rent.

You people that own and that is worth \$200 to \$300 per acre won't believe this and will probably say: "If they had land one-half that good it would be worth twice what they ask for it." If seeing is believing come and see. We are pricing this 7,360 acres from \$15 to \$170 per acre, with a small payment down, snother in March or April, when possession is given, then a small payment each year, as the retiring members of Coxer & Co. would rather carry back their money in this land than to have the cash.

The 7,360 acres are all owned by us.

We are selling only in order to settle up a partnership and is subject to sale only.

Will not make any change in price, as we have put it down to where it will all sell in 69 days. It is a good buy as a home or investment All on the U. P.

Cozed is on the main line of the Union Cased is on the main line of the Union Pacific, 245 miles west of Omaha and is the createst alfalfa country in the world. Grow more natural here than any weed we have. Wet or dry cuts about so much hay every year. Can show you alfalfa 15 to 15 years old and is still yielding lots of hay. All that has ever been done to it since it was seeded is to cut it three or four and one-half tons per acre every season. If seeing is believing, come and

sees.

If you are interested in anything described, come and see, don't waste your time by writing, but wire by number, what piece you are interested in, and we will held it for your inspection.

If you come and see any of this and don't find it exactly as described, we will pay oyu for your time and all your expenses both ways.

confidence in a gradual clearing up of the influences which have held bullish initiative in restraint. Decreased activity in the steels was attributed to a disposition to await the outcome of the Washington conference at which an appeal was presented for price increases. Especial strength was mani-fested in shippings, notably Atlantic Guif, which advanced 4 points to 108 on revived reports of a new combination of maritime interests. Omaha Soldier Returned

Is Believed to Be Insane Private Peter P. Mollner, member of Company E, stationed at Camp Fremont, Cal., was returned to Omaha Thursday morning by the military authorities and placed in the custody of the sheriff until further examination as to his sanity is made by the Douglas county insanity board. According to reports of the military doctors, Mollner is suffering from dementia praecox, a hereditary form of insanity.

Mollner's Omaha home address is 3108 Webster street, where his mother now lives. The Red Cross has been notified of the case by Sheriff Clark, as that organization takes an active part in the disposal of such cases of returned soldiers. Mollner was examined Thursday by the medical examiner of the county board, who will make his report today, following which the insanity board will act.

The Lincoln Joint Stock Land Bank of Lincoln, Nebraska, adds another important source of supply for borrowers on land in Nebraska and Iowa to which states their loans are confined.

This is not a farm loan association formed for the purpose of obtaining loans from the Federal Land Bank of Omaha. A borrower need not be a farmer and does not join an association to obtain its loan. It is a private corporation with a capital of \$250,000, organized and doing business under the Federal Farm Loan Act to lend on farms only, not on city property.

All its loans are on an amortized plan, i, e., a small payment of principal is made at time of interest payments reducing the loan gradually, with liberal option of prior payment. Most of the loans are being made for a term of thirty-three years, and are not limited in amount, except that they must not exceed 50 per cent of value of the land and 20 per cent of the insured improvements.

The company calls attention to the fact that borrowers pay no commissions whatever, and that long time loans do away with renewal commissions and the uncertainty about obtaining renewals. If rates go down in the future, loans may be paid in full and new loans taken out with practically no expense.

One bank in every community is desired as a local representative to which a commission is paid for obtaining loans. The officers and managing directors of the new bank are: W. E. Barkley, President; L. E. Southwick, William H. Wallace and J. A. Reichenbach, Vice President; N. C. Brock, Secretary; D. L. Love, Treasurer, and these with R. L. Tiger, Loan Manager, E. B. Stephenson, J. L. Teeters and H. B. Grainger, direct its affairs.
