STATE TEACHERS ASSOCIATION IS UNIT BY ITSELF

Decision by Judge Welsh at Wayne Says Branches Are Not Allowable Under Its Rules.

Wayne, Neb., Sept. 21.—(Special Telegram.)—Teachers' conventions at Alliance or Hastings may not use the name, funds or membership privileges of the Nebraska State Teachers' association, according to a decision reached by Judge A. A. Welsh, in district court at a hearing in chambers in Wayne today.

The prosecution, instituted by Supt. J. A. True of McCook, contended that the executive committee expected to divide the association in disregard of the constitution, which requires at conventions the membership to be of the association as a whole.

Prof. F. M. Gregg of Peru, president of the association, and Prof. A. V. Teed of Wayne State normal, declared their action was not unconstitutional, inasmuch as recognition of the Hastings and Alliance groups as auxiliary sections of the state organization did not violate the fundamental purpose of the constitution. They stressed the fact that the annual convention is attended mainly by teachers of the eastern one-third of the state.

The officers, they stated, acted in the interests of the teachers at large. Attorney A. R. Davis of Wayne represented the defense, and Attorney Wertz of Schuyler the prosecution. Despite sustaining of the injunction against the executive committee, meetings at Alliance and Hastings will be held in accordance with present plans, which action will result in a divided rather than united associations in Nebraska.
