

RESIGNATION OF JAP CABINET NO EFFECT ON U. S.

Believed Action Will Mean Internal Reforms; Co-Operation With America Is Not Endangered.

Washington, Sept. 23.—While the resignation of the Terauchi cabinet is expected to result in important changes in Japanese administrative policies, officials here, who have closely watched and measured the development of political issues in Japan, expressed the opinion today that these will manifest themselves principally in the direction of internal reforms and will not affect the relations between Japan and the United States or cause any substantial change in the plans for co-operation between the two countries regarding the extension of aid to the Czech-Slovaks.

Plans of military action in Siberia formed hastily to meet the emergency created by the attacks upon the Czech-Slovaks by armed forces offered an recruit to some extent by German and Austrian outposts of war are very limited in scope. Beyond the relief of the Czech-Slovaks, there is no definite agreement as to further movements of the international troops. Reconstruction of the eastern front in European Russia, or even in western Siberia has been discussed as a military possibility, but only in an informal way.

The opinion prevails in official circles here that the new government in Japan will be content, in the immediate future at least, to follow the policy in regard to Siberia laid down by its predecessors.

It is thought for granted here that the Sei-Yu-Kai party, which has opposed the Terauchi cabinet, now will undertake the formation of a new government. While numerically stronger than any of the Japanese parties, the Sei-Yu-Kai is not expected to be able to command a pure party majority in the diet. The head of the party has been Marquis Saionji, formerly premier, but on account of his advanced age it is thought probable that active leadership may devolve upon Mr. Hari, one time in the cabinet.

The Sei-Yu-Kai party is progressive and may expect friction with the imperial council of elder statesmen. If it is able to carry out its policy in favor of the cabinet, it is thought probable that active leadership may devolve upon Mr. Hari, one time in the cabinet.

Debs Silent on War in Cleveland Address as U. S. Agents Listen

Cleveland, Sept. 23.—"Socialists do not disagree with the government about the desirability of ridding the world of the kaiser, but we do not agree with the method," declared Mrs. Marguerite Prevey of Akron at a socialist meeting here today. Eugene V. Debs also addressed the gathering.

Letton No Longer With North American Company

John F. Letton, president and general manager of the North American Hotel company, has severed his connection with that company.

Mr. Letton was, for two years, manager of the Hotel Fontenelle, previous to his connection with the North American company. During the time he has been a resident of Omaha he has taken an active interest in association and war work and was president of the Omaha Association during 1917.

Mammoth Service Flag for Confederate Army Regiment

Tulsa, Okla., Sept. 23.—A badge of honor linking the men who fought in the confederate army with the present war in Europe will be unfurled tomorrow at the opening of the 28th reunion of the United Confederate veterans and the sons of veterans. It will be a mammoth service flag containing 167,000 stars, each representing one son of the southland who is at present in the service. The flag will be presented to the confederacy by the Colorado representation.

Bond Compromise.

Washington, Sept. 23.—Senate and house conferees on the administration bill to increase the amount of income from Liberty bonds exempt from surtaxes broke their deadlock today by compromising the dispute over the house clause authorizing the president to regulate and prohibit the sales of bonds and other government securities. The house compromise yielded to the senate's objection and the section was rerafted to provide for investigation and approval of security sales by the president or otherwise, with specific provision that the authority given should be construed to prohibit sale of cash or for notes denominated at federal reserve banks.

General Allenby Praised For Victory In Palestine

London, Sept. 23.—(via Montreal.)—The victory of General Allenby in Palestine is hailed here as a model in conception and execution, his consummate use of cavalry being especially praised by the military critics.

The immediate effect of the victory is likely to be the liberation of the Holy Land, for it is anticipated that General Allenby will have little difficulty in entirely clearing northern Palestine and be able to relieve his communications by establishing a base at Haifa, whence the railway runs to Beisan and Damascus. Thus the whole Turkish railway system in southern Syria is controlled by the Anglo-French forces in Palestine.

The Turkish disaster, it is pointed out, is bound to have the most profound reaction in Constantinople and Sofia and likewise to compromise the situation of the Turks in Mesopotamia. It seems probable also that it will terminate the Turkish adventures in Persia and the Caucasus.

The Morning Post urges that a diplomatic effort be made to detach Turkey from the central powers.

New York, Sept. 23.—The liberation of Palestine by the British forces will be celebrated here by a demonstration at Carnegie hall next Sunday night at which Secretary of the Navy Daniels is expected to speak, it was announced today by the Zionist council of Greater New York.

Significance is added to the celebration by the fact that the Jewish legion, probably including the American contingent, is actively participating in the Palestine drive, which so far has liberated all of Samaria and parts of lower Galilee.

MOTHERS OF MEN AT FRONT IN NEW CLUB

(Continued From Page One.) organization, a story printed in one afternoon paper Monday giving out the impression that foreign mothers would not be eligible for membership in the new society.

They printed that story to hurt our organization. Foreign-born mothers are just as welcome to join this society as any American-born mother," she said.

To Rectify Mistake. "We are not knocking any other society or taking advantage of any one else," Mrs. Bell emphasized. "We are merely forming our own club, where we may have our liberty as mothers, do all that we can to help win the war, to inspire our boys to victory, to sympathize and aid mothers in distress, to rejoice with them in their happiness and to rectify the mistake we made in joining the other club, assuming it was for mothers only."

Mrs. Brady claims priority of organization for the American war mothers. "It was organized September 29, 1917, in Indianapolis, Ind., and the first annual convention was held there August 16-17. By obtaining more than 100 signatures tonight we became charter members in the national society. Mrs. Alice M. French is the president. The War Mothers of America, who held their meeting in Evansville last week, and to which Mrs. F. E. Young of Omaha went as a delegate, is a later society."

Mrs. Bell announced that Mrs. Young, who is president of the local war mothers, had, previous to her departure, expressed her disappointment with the admission of other women relatives to the society and given permission to use her name as a member of the new club. Mrs. Young has not yet returned.

Only Blood Mothers Join.

Whether mothers of adopted sons could claim membership in the American war mothers was raised. With the sentiment of many of the members in favor of the motion, the chairman ruled only blood mothers could join. A ruling will be asked from national officers.

Meetings are to be held the first and third Tuesday evenings of each month in the Board of Education rooms, city hall. A drill team of members, who will be drilled to form the letters of the word "Mother," is planned in the near future.

Fire Sweeps Railroad Yards in Grand Junction, Colorado

Grand Junction, Colo., Sept. 23.—Fire of an origin yet undetermined yesterday afternoon destroyed the Denver & Rio Grande freight depot, ice house and a number of smaller railroad buildings, together with 30 loaded freight cars which were standing in the railroad yards.

Dynamite was used to clear the area and less valuable buildings in order to save the passenger depot, Armour & Company warehouse and the Mutual Creamery building.

The loss is variously estimated at from \$100,000 to \$250,000 and cannot be determined accurately until invoices of the loaded freight cars which burned are checked over. Virtually all the railroad records were destroyed.

Positions Held by Women Classed as Nonessential

Helena, Mont., Sept. 23.—All positions which can be held by women will be considered nonessential and unless men of draft age who hold them voluntarily seek work in essential industries they will be considered draft evaders, according to a telegram Nathan Smythe, assistant director of the United States employment service, has sent Secretary Greenfield of the State Council of Defense.

He said the regulations—the most drastic ever issued in this country—are now being prepared by the employment service for the guidance of community labor councils, which will be expected to compile lists of all nonessential work, the test being a woman's capability to hold it.

Kaiser Visits Yank Front in Attempt to Cheer Men

Amsterdam, Sept. 23.—"We will never let Frenchmen or Americans through here," was the promise given Emperor William by his troops when he visited the Alsace-Lorraine front September 19 and 20, according to Karl Rosner, favorite press agent of the kaiser, in a Sunday dispatch to the Lok Al-Anzeiger.

The purpose of the visit was to thank the troops for having bravely held out, and, according to a possibly significant remark by the emperor's chronicler, "at the same time giving them inspiring words for the fresh fighting on the threshold of which we are perhaps standing on the southwest of the empire."

U. S. PATROLS RAID ST. MIHEL, CAPTURE 25 HUN

Obtain Narrow Gauge Railway with Thirty-Eight One-Man Engines and Tracks.

With the American Army in France, Sept. 23.—American troops raided the enemy lines in the neighborhood of Haumont village, in the center of the new line across the St. Miheil salient, last night. They captured 25 prisoners.

One unit attacked Haumont itself. It engaged in sharp fighting in the village, taking 20 prisoners and killed and wounded some 40 more Germans. The prisoners were members of a Jaeger battalion formerly stationed at Metz.

New Trenches Found. American patrols have discovered enemy trenches and a machine gun emplacement south of Dommarin, which is in the Kriemhild line. The enemy continues work all along this front.

The American engineers' detachment now is operating a complete narrow gauge railroad in the St. Miheil salient. The Americans have captured 32 one-man gasoline locomotives during the offensive.

The Americans took six of these locomotives which were in running order. The Americans soon had the damaged engines in operation.

Miles of Tracks. The equipment includes many miles of tracks, with great stacks of unladen rails and steel ties. All along the front these one-man engines are darting here and there on tracks laid by the Germans, and also upon new trackage set up by the Americans.

Hundreds of small flat cars also were captured, and the Americans are using gasoline which they found in the German supply station. The Americans had little difficulty in solving the mechanism of the German engines and they were ready for operation when the shell torn tracks were repaired.

Narrow gauge flat cars, which came from the United States, also are being used over the German rails. They are twice as long as the German cars and bear on this side "U. S. A." in big white letters.

"Y" Workers Praised by U. S. Commander for Aiding of Men

Paris, Sept. 21.—An American commander, according to the chief of staff, has written a letter to the officials of the Young Men's Christian association, reading as follows:

"Particularly valuable were your services during the recent operation at St. Miheil. You have furnished aid and comfort to the American soldier in the last few days and in accomplishing this worthy mission you spared nothing."

The Young Men's Christian association distributed, before the attacks, 10,000 doughnuts to one divisional organization. It supplied to each soldier cigarettes, chocolate, matches and chewing gum without cost.

The organization distributed during the drive to wounded and men returning 17,000 packages of cigarettes, 4,000 packages of biscuits, 4,000 boxes of matches and 5,000 cigars.

National Security League Activities May Be Investigated

Washington, Sept. 23.—Investigation by the judiciary committee of the activities of the National Security league was asked for by the house today by Representative Frear of Wisconsin, republican, who was attacked by the league during which he was nominated.

Representative Frear prefaced the introduction of a resolution authorizing an inquiry by a speech criticizing officials of the league, who include Eihui Root and Alton B. Parker, and describing letters they have sent to members of the house as insolent. Ninety per cent of the members of congress have been branded as disloyal by the league, he charged.

The resolution proposes summoning of the officers of the league for examination concerning contributions to the organization and as to efforts to influence the election of members of congress.

Senate Votes to Send War Power Bill to Conference

Washington, Sept. 23.—After a spirited discussion, the senate today voted, 42 to 9, to send the administration war power bill as passed by the house, to conference for consideration in connection with the senate bill for which the house substituted the measure as drawn by the secretaries of war, interior and agriculture. Three members each of the committees on commerce and public lands will be named as the senate managers.

34 I. W. W.'s Held On U. S. Charges of Conspiracy

Wichita, Kan., Sept. 23.—Thirty-four men, alleged to be members of the Industrial Workers of the World, five of them held by the government as enemy aliens, are held this morning to face charges of conspiracy to hamper the production of coal, gas and oil in Kansas and Oklahoma.

The first move of the defense was expected to be a motion for a continuance of the case.

John Francis Bender, Mt. Carmel, Pa.

HUN POLITICAL "CRISIS" CALLED MOVE FOR PEACE

Parliamentarization Agitation Thought Made to Put Germany in the Light of Democracy.

London, Sept. 23.—Although reports of a German political crisis arising from the supposed movement for parliamentarization of the government are printed at greater or less length in the papers here, the whole thing is mostly regarded as merely an integral part of the German "peace offensive."

The Telegraph, discussing the rumors, says that this is the eighth political "crisis" in the course of the war and adds "all of them have left things very much as they were before."

The newspapers generally ignore reports editorially, but the view widely taken is expressed by the Graphic, which describes the discussion now filling German newspapers as a "stratagem to lure the allies into making peace by depicting Germany as a democracy."

The Graphic believes that the emperor is following the example of some of his Hohenzollern predecessors and is gladly playing his part in the "farce which is about to be restaged with the centrist majority and the socialists as joint managers."

The inwardness of the move, the newspaper adds, is that Matthias Erzberger hopes, with the help of Philipp Scheidemann, the socialist leader, and his followers, to oust Imperial Chancellor von Hertling and secure the center of the stage as peacemaker for Germany.

Allied democracies are led to believe it will be quite safe to negotiate with a German parliamentary government," the Graphic says. "The whole movement is clearly preparing the way for a resuscitation of the notorious Reichstag resolution in revised edition in the hope that the allies have forgotten how completely that sham has been exposed."

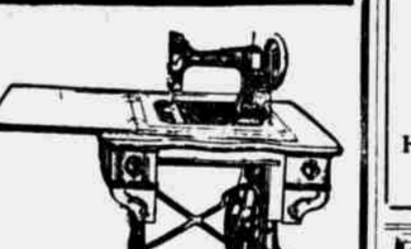

Name Commission to Arrange Voting Plan for 100,000 Soldiers

Des Moines, Sept. 23.—(Special Telegram.)—Governor Harding announced today that a commission will be named by him in a few days to consider providing opportunity for Iowa soldiers to vote in the fall election. It is estimated that 100,000 voters are in military service.

Woman Fatally Burned When Clothes Catch Fire

Webster, Ia., Sept. 23.—(Special Telegram.)—Mrs. W. M. Meekins was fatally burned while alone in her home this morning. Her clothes caught fire while she was trying to light a gas stove. She rushed into the street and fell in a faint, where neighbors came to her help. Her body was burned to a crisp and physicians say she will die.

August Trade Marks Greatest Record in America's History

Washington, Sept. 23.—Both imports and exports of merchandise were greater in value during August than in any previous August in the history of the American fur trade. Figures announced today by the bureau of foreign and domestic commerce show imports valued at \$273,000,000, an increase of \$5,000,000 over August, 1917, and exports of \$529,000,000, against \$488,000,000.

Imports of gold slightly over \$1,500,000, were less during August than in any month, for over 15 years.

Many Cases of Spanish "Flu" On Transport as it Docks

An Atlantic Port, Sept. 23.—An American transport arriving here today from another Atlantic port had aboard 36 cases of Spanish influenza among the crew. They were removed to a hospital.

THOMPSON, BELDEN & CO. The Fashion Center for Women
