## REPUBLICAN CONTROL TO MEAN VICTORY

Senator Lodge Points Out Why Political Change in Congress Would Mean Early End of War.

Washington, D. C., Sept. 28.—Declaring that republican control of congress will speed up the preparation of the United States for victory over Germany, Senator Henry Cabot Lodge of Massachusetts, republican leader in the senate, today gave out the following statement: "I am extremely anxious to see a republican house and a republican senate elected."  
"I want to see the organization of the two houses pass into the hands of the republican party."  
"I urge republican success for one reason, and one reason alone, because I believe that it will best promote the one great object which is in common with every patriotic American, has at heart, and that is carrying the war to speedy and complete victory."  
"Will Strengthen Preparation."  
"Republican control of the two houses will strengthen preparation and accelerate speed in all the measures that lead to victory."  
"It will be of great service to have the republican party taking a direct share in the responsibility for the war. They are of one mind as to this war and as to the terms of peace. Even as a minority they have never flinched where the majority party has weakened."  
"Without the republicans of the house the first and second draft bills, on which all our success in war rests, could never have been passed. In control of the organization of house and senate they will be able to drive the war forward with greater energy than the present majority, because they have no friends in executive office to protect and no orders to take from any source except the country's cause. They will tell the truth without fear or favor and nothing can so advance the war as absolute truth in dealing with the American people."  
"Drive on to Victory."  
"When the time for reconstruction comes the republican party, which has always been the constructive party, is best adapted for that work; but now at this moment, if they can be given a share as a party in the conduct of the government they will drive it forward to victory with an energy and speed not thus far attained."  
"To return once more to the terms of peace, I believe that those which I have ventured to outline are the terms of peace, and the kind of peace which all Americans without regard to party not only desire, but demand. No other terms would be acceptable to the republican party."
