store, recently. "Ever since an operation three ears ago," she continued, ealth has been very poor, and I fell off fifty-six pounds, going down from one bundred and fifty-six to even one hundred. I had no appetite at all and was forced to live for a long time on nothing but milk and eggs. I suffered from indigestion very badly and gas would form on stomach causing me awful my smothering spells. I was so weak and dizzy at times I could hardly stand up. In fact, I was sick in bed a greal deal of the time, unable to do any of my housework. I finally took rheumatism in my left leg and up to the time I began using Tanlac I had been unable .o get up and walk for two months.

"I tried a great many different medicines, but no real benefit came to me until my husband got me some Tanlac. My improvement was not very rapid at first, but I kept gradually improving, and now my appetite is so big I can hardly eat enough to satisfy me, and all my bad feelings are gone. I never have a sign of indigestion or gas now and the dizziness is all gone. The rheumatism has disappeared from my leg, too, and I am just feeling fine. I eat all I want, sleep soundly every night and feel strong and well all the time. I am now able to do all my housework and believe I am going to get all my lost weight back. Tanac certainly has been a blessing to me and I would advise anybody who is in a run-down condition to try it."
