Women in War Time

WILL Mrs. Howard Baldrige succeed in obtaining permission from Washington to take charge of a Red Cross warehouse in France? The answer to this question is awaited with great interest by Mrs. Baldrige's friends and associates in the state inspection warehouse, where she serves as censor. Mrs. Baldrige is the only woman in the United States appointed to such an important post, so far as can be ascertained.

It was a cable from Henry P. Davison, national president of the Red Cross soicety and a personal friend of the Baldrige family, which first raised the question. Mr. Davison asked the Omaha woman to take charge of a warehouse in France. Mrs. Baldrige's ability to speak French would, of course, make her additionally valuable in this capacity.

But here a stern government interferred with the regulation that no woman, who had a son or husband in the service could qualify for overseas work. Mrs. Baldrige's son, Captain Malcolm Baldrige, is already overseas.

Mrs. Baldrige's friends believe she will go. On Mr. Davison's return to this country, important seas workers are anticipated.

Outside the window sill was her aerial chariot. As Peggy stepped into view she squawked a greeting with the horn. The effect was not what she expected. Instead of laughing back at her, the Whip-Poor-Wills and Night-Hawks gave one look at this strange and awful looking Bird and dashed away with loud screeches of fear. Peggy had to call to them again and again before they would believe that it was really she and not a fierce, wild
