

THOMPSON LIKES FLYING IN ITALY, SAYS IN LETTER

Grand Island Boy Writes of
Flights at Training School
at Which He is
Stationed.

Grand Island, Neb., Oct. 1.—(Special.)—Aeroplane flying in the night over the mountains of Italy, W. H. Thompson, well known in the state, is described in a letter by Lloyd G. Thompson, son of the state, as one of the most thrilling of his experiences. Thompson is now connected with the second instruction center, U. S. Air Service, A. E. F. in Italy. The letter to his wife and parents reads: "Just a note to let you know that the 'Big Knife' has not fallen on my neck yet. Have classes to teach, Caproni building, gas pipes, water, electrical system, wires, frames, wings and their angles, pumps, indication dials, troubles that may arise, their cure and the functions of all of these."

Takes High Flight.
"They think I am the meanest man—just like school boys who do not like their teacher because it is school—but they are all glad to know these things after the hours of torture are over. Will not get away from here until this school is closed, or rather until my last pupil has finished his course, then I expect to be transferred."

"Just went up with a pupil to 3,400 meters and lay around there for 50 minutes, then dropped to 2,000 meters and climbed back. It was a beautiful trip early in the morning. All three meters were running like a clock and the air just cold enough at that height to keep you awake. Could see the city and the ocean shining up at us. The mountains looked like a large garden with parts of it built of marble, the white being the snow with the sun shining on it. Other planes below us looked like they were running on the ground."

"We then climbed on up until the air was too thin for the motors, so we cut off the power and started a smooth and steady glide back to the landing field. At each 500-meter drop, we cleaned the motors out by running them a few seconds, also closed our mouths, holding our noses, and blew to force the ear drums back so we could hear."

In Air at Night.
"In descending so rapidly, you must do this to save your ears from too much pressure. Swallowing also helps. Made a nice landing, then left again for 1,200 meters, where I cut the power, and let my pupil see if he could land on the field without using his motors. He did very well."

"Last night I went up 3,000 meters and stayed there for about half an hour. It was a beautiful moonlight night, so could have landed without the searchlight that is used for landing. The searchlight is on one end of the field and shines down the piece so that you land on the lighted path that it makes."

"After I got up I shut off all of my lights and flew by the light of the moon. It was beautiful. The higher I got, the deeper blue the sky seemed. Went towards the sea, but ran into a heavy fog bank, so was forced to beat it back to camp way down below us. The three engines were shooting fire out of each of their six exhaust pipes. Each looks like a tiny blast furnace shooting up fire."

"Seems so queer to be up there where everything looks so still and hear the roar of those big engines. The night flying fills you with amazement at the grandeur of the sky and sleepy earth below. Did not flash my whereabouts until I was about 300 meters from the ground, then the flashlight flashed that everything was ready for me to land. I am now chief inspector of all planes used at this training school, with 10 assistants under me, and am pretty busy."

"Feeling fine and have a hunch I'll see you and Grand Island and my friends again."

Twelve Persons Fined On Drunkenness Charges

Fremont, Neb., Sept. 30.—(Special Telegram.)—Twelve persons were arrested in the biggest raid made by local police since the prohibition law went into effect. All pleaded guilty in police court on a charge of drunkenness and paid fines. All efforts to get information that would lead to the source of the booze proved unavailing. Six of the men were arrested at the race track, where they were drinking cider, three were taken at a pool hall and three more picked up on the street. On order of Mayor W. C. Wiley the pool hall where three of the persons were arrested was closed till noon today.

"Get the Dough" Ahead of the Liberty Loan, Is Demo Plan

Lincoln, Oct. 1.—(Special.)—More evidence that "politics has been adjourned," has been given by the democratic state committee by the collection of a 2 per cent assessment on state employees at the state house ahead of the subscription for the Liberty loan. The employees drew their salary warrants this week and found the assessment awaiting them.

Phone Case Before Board.

Lincoln, Sept. 30.—(Special.)—The Lincoln Telephone and Telegraph company is before the State Railway commission today on an application for a raise in rates covering most of its exchanges. In some instances the raise covers on business telephones and in some exchanges only the residence district. In Lincoln the company is asking a 25.50 a month.

Man Injured.

Lincoln, Oct. 1.—(Special.)—Swanson, a carpenter, was seriously injured today, falling from a ladder. Little recovery is held.

Daddy of Fighting Sons Sore Because Was Born Too Soon

Lincoln, Oct. 1.—(Special.)—Many men in Nebraska are disappointed because they were born too soon and for that reason have passed the military age limit, which deprives them of the right to shoulder a gun and join the boys "over there."

One of these is Charles A. Nippell of Niobrara, who writes to Governor Neville that he already has two boys "somewhere in France," who went from Iowa and South Dakota.

He has three more in service who lived under the parental roof before enlistment. He expresses regret that when the five boys went, the government did not include him also, but he is sixty years of age and he calls it a "misfortune." He believes he has a lot of fight in him yet and if Uncle Sam will take a chance on him he'll be there and deliver the goods.

Express Employees To Receive Another Big Boost in Pay

From a Staff Correspondent.

Lincoln, Oct. 1.—(Special.)—The State Railway commission is in receipt of a communication from the Interstate Commerce commission, which discloses that employees in the service of express companies may receive an advance in wages aggregating in the neighborhood of \$10,000,000. This in addition to a recent advance, since the government took control, of a like amount.

An advance has not been asked for by officers of the company, which, under the taking over of the railroads by the government, have put control of all express companies under one head, but the communication says that Director McAdoo believes the raise should be made.

The right of the government to control this matter is questioned for the reason that the action taken by congress, giving government control of the railroads, did not include the express companies. It is not believed, however, that there will be any effort made to embarrass Mr. McAdoo in his efforts to control the situation.

Windolph Jury Still Out At Norfolk at Midnight

Norfolk, Neb., Oct. 1.—(Special Telegram.)—The Windolph sedition case was finished in federal court shortly before 5 o'clock Tuesday evening, when closing arguments were finished. The jury had reached no decision at midnight.

A. D. Graham Is Dead.

Fremont, Neb., Oct. 1.—(Special Telegram.)—A. D. Graham, former prominent business man of Ames, died at his home in Lincoln, following an illness of several months. Mr. Graham was a member of the firm of Johnson and Graham, during the period the sugar factory was operated at Ames. He conducted a large mercantile establishment and grain business. The firm had charge of the sale of the land belonging to the Standard Cattle company, owners of the sugar factory. Mr. Graham was born and grew to manhood in North Bend. His wife and daughter, Margaret, are the close surviving relatives.

Dr. Heine Made Major.

Fremont, Neb., Oct. 1.—(Special Telegram.)—Dr. W. Howard Heine, prominent Hooper physician, has been commissioned a major in the medical corps of the army. Dr. Heine offered his services several weeks ago and recently was notified to hold himself in readiness for a call. He expected to be appointed captain.

Kearney Boy Dies of Influenza

Kearney, Neb., Oct. 1.—(Special Telegram.)—Horatio Hendrix, 19-year-old son of L. J. Hendrix of the Nebraska Cash Grocery company, died of Spanish influenza at Newport, R. I., naval station where he was in training.

One in Four of Our Men Called for Draft Examination Was Physically Deficient

CITY PHYSICIAN STRONGLY ADVISES ALL PERSONS TO HAVE
BLOOD EXAMINATIONS MADE BY FAMILY DOCTOR
SAYS THOUSANDS SUFFER FROM IRON DEFICIENCY

And think it "overwork," "too much worry," "a case of nerves," or some other trouble. Ordinary Nuxated Iron still increases the strength and endurance of such folks in two weeks' time in many instances.

In General Crowder's report to congress, he stated that twenty per cent of the men called for physical examination were found physically deficient. The deficiency is more than one out of four of the flower of our land. When the iron goes out of the blood, the man is in a state of physical weakness. In commenting on this serious condition of affairs, Dr. James Francis Sullivan, formerly Physician of Bellevue Hospital, (Outdoor Dept.) New York, and the Westchester County Hospital, said: "The probability is that many of these cases were due solely to lack of sufficient iron in the red blood corpuscles. When the iron goes out of the blood, you can have most any kind of symptoms, varying from a weak, nervous, run-down, downy, to the most serious malady, the volume of blood often increases, thereby imposing an extra heavy burden on the heart. Contrary to general opinion, lack of iron in the blood does not necessarily mean you do not have enough blood, but it means your blood is not of the right kind."

If you feel tired in the morning; if you suffer from weakness or lack of vitality; go to your family doctor and have him take a specimen of your blood and examine it, and if it shows iron deficiency, get him to give you a prescription for organic iron—Nuxated Iron. Do not be misled by the fact that some of the numerous forms of metallic iron preparations on the market may do you far more harm than good. Or if you do not want to go to this trouble, procure an original package of Nuxated Iron and see for yourself that the words Nuxated Iron appear on the package—not

who wish quickly to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy. **Manufacturers' Note:** Nuxated Iron which is used by Dr. Sullivan and others with such amazing results, and which is described and recommended above by Dr. Sullivan is not a secret remedy, but one which is well known to druggists everywhere. Unlike the other inorganic iron preparations it is easily assimilated and does not form a coating on the stomach wall, nor does it irritate the stomach. The manufacturers guarantee successful results or money back. Please call and try it. They will refund your money. It is dispensed by Dr. Sullivan, McCormick Drug Store and by all other druggists.

POOL ENCLOSURES HIS CARD WITHIN STATE MISSIVE

Secretary of State Sends Out
Campaign Notice With
Other Documents Re-
quired by Law.

By Associated Press.

Lincoln, Oct. 1.—(Special.)—The Sixth congressional district are discovering upon opening their envelopes, sent out by Secretary of State Pool, containing the arguments on the amendments to the constitution that three propositions are enclosed for them to consider instead of two as provided by the legislature.

One relates to suffrage for voters of foreign birth, the second relates to the calling of a constitutional convention, but the third and new proposition, while not exactly expressing itself in plain terms that way, would indicate that the secretary of state would like to have an amendment to the constitution prohibiting Moses P. Kinkaid from having a life lease on the job of congressman from the Big Sixth and turning the place over to one Charles W. Pool, now secretary of state, but who aspires and prespires to be congressman.

The "third amendment" to the constitution was not put up to the special session of the legislature, for probably the same reason that Governor Neville did not include the ratification of the national prohibition amendment in the call for a special session—for that it might cause a scrap—and so as the envelopes are signed, sealed and delivered, there is enclosed in the envelope a card bearing the picture of Mr. Pool and an announcement that he is the democratic candidate for congress in the Sixth congressional district.

Mr. Pool is a strict disciple of the idea of conservatism and by enclosing his campaign cards in the envelopes it saves quite a sum in postage from his personal campaign fund. The postage on the envelopes is paid for by the state and why should not the cards go along with them. There is room in the envelopes for the campaign cards of all the rest of the bunch. If not; why not?

State Rail Board Tries to Enjoin Federal Rate Raise

Lincoln, Oct. 1.—(Special Telegram.)—The State Railway commission will oppose the order of Postmaster General Burleson and started matters today by filing an injunction in the federal court alleging that the act of congress authorizing the president to take over telephone companies confers no authority whatsoever to initiate rates for services by telephone companies. The suit is intended to test the right of the postmaster general to establish charges for interstate service for telephone companies.

Demos Not Able to Fill Position Madden Resigned

Owing to the fact that he has enlisted in the navy and is liable to be called at any time to take a course to qualify as an ensign, Police Judge Madden has resigned from the democratic ticket after being nominated as a candidate for re-election at the recent primary.

The democratic county central committee met Monday night for the purpose of filling the vacancy, but, after canvassing the available material, decided to adjourn until next Monday evening. In the meantime all democrats qualified to file their claims with the committee.

STATE BAPTISTS TO THROG HERE IN CONVENTION

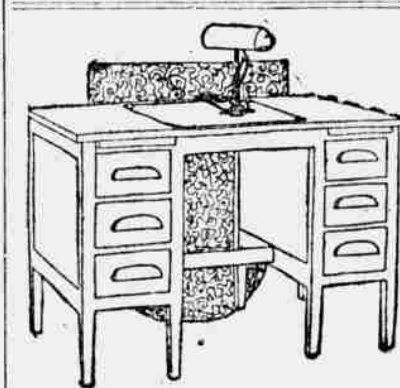

Fifty-first Anniversary of
Nebraska Baptists Will
Attract Many Laymen
and Missionaries.

The Nebraska Baptist State convention will hold its 51st anniversary in the First Baptist church October 5 to 10. Five hundred out-of-town delegates will come. The World Wide Guild, the Young People's society and the Sunday school will hold their annual sessions Saturday and Sunday.

The sessions will open at 9:30 a. m., 2 p. m. and 7:30 p. m. each day. There will be a men's banquet at the First Presbyterian church on Wednesday evening, October 9, with an address by Isaac W. Carpenter of Omaha. A. A. Forshoe, national representative of the Laymen's Movement, New York City, and others.

Among the out-of-town speakers during the convention will be Rev. Samuel G. Neal of Philadelphia, Miss Nellie Lucas Maudsley, Burma; Rev. Jas. A. White, Ph. D., Chicago; Rev. L. R. Bobbitt, New York; Rev. J. C. Robbins, D. D., Boston; Rev. W. P. Behan, Ph. D., Chicago; Rev. Rolin, Ph. D., Philadelphia; Prof. Ernest D. Burton, Ph. D., University of Chicago; Rev. F. W. Padelford, D. D., Boston.

All sessions, except the men's war supper, which will be held in the First Presbyterian church, will be held in the First Baptist church, and are open to the public.

Old Fashioned Out of Date Office Equipment

Filing Cabinets, Desks, Safes, Etc., are just as out of place as painted bows and arrows would be in Pershing's Army. The Modern Office is the very heart of modern business and should be kept efficient, even to the linoleum on the floor.
