

DEMOCRATS IN PLIGHT TO FIND GOOD ARGUMENT

Increased Expense Matter of Record and All Talk in World Will Not Alter Cold Facts.

From a Staff Correspondent, Lincoln, Oct. 2.—(Special)—Democratic submarines sailing beneath the political ocean are finding plenty of trouble locating republican arguments which their torpedoes have any chance to penetrate. They are discharging plenty of high explosives, but somehow they miss the mark. Republican destroyers are keeping the gateway to political success pretty well clear of the underside craft of the opposition. Charging S. R. McKelvie, republican candidate for the governorship with saying and doing things, only to find that his statements were absolutely founded on fact, or that such statements never were made, is about all the satisfaction they have received so far in the campaign.

Arguments Fall Down.
The opposition is having a hard time trying to convince the voter that when Mr. McKelvie charged that the tax burdens of the state had increased from \$4,367,257.31 to \$9,594,189.04, he misrepresented the facts. Mr. McKelvie quoted figures from the republican state platform of the last state convention, which are shown to be true by the records of the state archives kept by democratic state officers. However the democrats attempt to prove that Mr. McKelvie "grossly misrepresented and misled the voter" by giving out yearly figures furnished by the same records. The facts in this matter are that Mr. McKelvie quoted the appropriations for state expenses passed by the different legislatures for the biennium or two-year period. They show how fair they can be by quoting yearly expense figures of the state in comparison to those of the republican candidate for governor, saying nothing about the latter being biennial appropriations. The whole matter becomes a huge joke when one takes the figures of the democratic statements for the two years and adds them together.

Take One Example.
For instance take the appropriation of the legislature for the last biennium as quoted by Mr. McKelvie as \$9,594,189.04, which covers the years 1917 and 1918. Then take the yearly figures furnished from the democratic records and they are shown as follows:

1917.....	\$4,484,959.27
1918.....	5,251,539.10

Add these together and the amount is found to be not so very far away from the figures of Mr. McKelvie, and surely shows that the latter's figures are not "more than 100 per cent greater than the true figures," as charged that Mr. McKelvie quoted.

Property Values Higher.
Then the democrats again seek to justify their position on the financial condition of the state by showing that the tax levy for the four last years of the republican control and the state board of assessment, which fixes the levy, was 3.58 mills more than the total for the four years the democrats have controlled the board, which according to the records is doubtless true. But there is a reason for the lower levy and the democratic board is not entitled to any credit unless it be for doing its duty. The board, with all the effort it is making to claim everything in sight, will probably not insist that the increase in the value of land, or crops, or stock, or grain, or houses or lots, is the result of its great wisdom, but the reason of the lowering of the levy is due to the increased value of property of all kinds in Nebraska.

Omaha Lieutenant in British Army Predicts Kaiser Will Never Be Taken Alive.

Fremont, Neb., Oct. 2.—(Special Telegram)—Lieutenant Stephens of the British army addressed a crowd of 500 persons at the high school auditorium last evening on conditions in Europe as seen by a soldier who has been in action on all fronts except the Russian. Lieutenant Stephens came to Fremont under the auspices of a committee of prominent business men. He flayed the kaiser and his soldiers, calling them barbarians. He predicted an early end of the war and said that the kaiser would never be captured. When the German army is routed and the allied soldiers are marching triumphantly to Berlin, the ruler of the German people will take his own life, the speaker predicted. Lieutenant Stephens will return to England in two weeks. He made a strong plea for support of the Liberty loan. Lieutenant Stephens came here from Omaha, where he has been visiting his parents.

Spanish Influenza in Lincoln Gives Doctors Concern

Lincoln, Neb., Oct. 2.—(Special Telegram)—Whether it is the Spanish "flu" or some other sort of "flu," there are about 300 cases of some disease in Lincoln and University Place that gives the doctors concern. About 100 of the cases are at University Place, but none of a serious nature as yet.

Seven young veterans of the great war arrived in Omaha Wednesday morning and are at the Conant hotel. They are typical specimens of that splendid young manhood of which America is so proud; intelligent, jolly and hearty looking. In spite of their looks, they have all been invalidated home. Hun gas did it. They are helping to win the war just the same, though, by making speeches for the Fourth Liberty loan. They will speak in Omaha and throughout Nebraska, telling their actual experiences at the battle front.

They come from various units. T. C. Clements, whose home town is Eastman, Ga., spent seven months at the front with the medical corps in first aid work on the field and health work in camps. Salvation Army Praised.
H. A. Allen has the distinction of having gone over with the Rainbow division just two weeks after Pershing. He was with the 17th engineers for 10 1/2 months and saw severe service at Cambrai and other parts of the line. He, like Clements, talks with a pleasing southern drawl.
