Youth and Girl Hurt When Auto Strikes Wheel

Robert Kalla, 6136 Wirt street, a special delivery boy at the postoffice, and little Mary Goodwin, 4-year-old daughter of Mr. H. C. Goodwin, 2906 Hamilton street, were injured in an automobile accident last night at 8 o'clock at Thirty-third and Hamilton streets.

According to Kalla's story he was riding east in Hamilton street on a motorcycle when an automobile driven by Ralph Smith, Twenty-fifth and Leavenworth streets, struck his wheel, the violence of the impact throwing the boy from the motorcycle, and also injuring little Mary, who was playing in the street nearby.

The girl was taken to the Ford hospital where she was found to have a fracture of the left leg, and also to be seriously bruised about the head and chest. Kalla's injury consists of a bruised right leg.

Ralph Smith, whose car struck Kalla's motorcycle, was arrested, and later released on bond.

SOUTH SIDE

Wyoming Range Good And Stock Doing Fine

P. T. Milburn, Torrington, Wyo., who brought two loads of cattle to the Omaha market, says, "There has never been a better season for grass and cattle. Late rains have started the range to greening up again and I hardly think it will be sufficient to spoil the winter feed."

"It has been a hard proposition to look after the stock this summer, as we have all been short of help. The boys are all in the army or going to go in and we have already had to buckle down and get along the best we could. I don't know what we would have done if it had not been for the women folks. My wife can ride and helps with the stock better than a good many men and with her help I got along fairly well."

"There seems to be about the usual number of cattle in the country and so much feed that we are figuring on putting in a few more steers if we can get them. The help problem is the big drawback, but I suppose we are not worse off in this respect than they are in other parts of the country."

The dance to be given Saturday night at the Eagle Home by the Liberty club will be for the benefit of the South Side Red Cross salvage corps.

The South Side Branch library will be closed for the Ak-Sar-Ben parades this week, today from 1 to 6. The report of the month of September shows an increase in the number of books circulated for home use over the same month last year, the daily average being 121.

Indignant That Newsies Held Without Complaint

Frank Oborsio, a news vendor, who was arrested Saturday by order of Acting Chief of Detectives John Dunn without a complaint being filed against him, was released in police court when he appeared for hearing yesterday.

Judge Madden was indignant because of the irregularity of the proceeding. Oborsio was arrested, it is understood, at the instigation of the Daily News. He was confined for a time in jail without charges or any kind of complaint filed against him. No one appeared in court yesterday against him. It is intimated that it was a case of spite, and when Judge Madden asked detectives why Oborsio was arrested they said they did not know.

Oborsio sells papers at Sixteenth and Howard streets.

Judge Troup Holds No 14 Degree Honor No Legal Standing

The legal controversy between Washington, lodge No. 27, Degree of Honor, Ancient Order United Workman, and Omaha lodge, No. 14, Degree of Honor, was given a hearing before Judge Troup in district court Wednesday.

The real defendants in the case, Mayme Cleaver, grand worthy chief, and other officers who went with her to lodge No. 14, who were cited for contempt of court in violating Judge Troup's order of July 5 to restore the charter to lodge No. 27 and all other rights, were held to be guilty, but the court explained if they would now live up to the order no punishment would be meted out by him.

Judge Troup directed counsel on both sides to prepare a decree according to his ruling, and that he would then act upon its merits. He held that Omaha lodge, No. 14, had never been legally organized and that its members had never been anything but members of Lodge No. 27.

Police Arrest Suspects. Police last night arrested Dave McBride and Isidore Waeser, both of St. Paul, Minn., in the crowd at 15th and Farnam streets.

"We had a close call coming over," he wrote. "We encountered a submarine a day before we landed and we had an exciting battle. At least one of the attacking subs was sunk and all of our vessels, 20 in number, came through O. K." The letter was dated September 4.

Early Christmas Shopping Is Demanded By The Council of National Defense

The Council of National Defense insists that stores throughout the country shall not employ extra force of salespeople at Christmas time.

They also state that business hours shall not be lengthened temporarily and that the public should be urged to begin their buying of Christmas gifts early.

Another advice by the Council is that gifts be confined to useful articles (except for children) in order that the nation's man-power may be employed in the largest possible degree in "WAR WINNING INDUSTRIES," recognizing, of course, that merchants must dispose of stocks already on hand, manufactured, perhaps, many months ago.

To many this may be an entirely new idea to buy Christmas gifts so early, but WHY NOT BEGIN NOW? Conditions are in many ways abnormal, merchandise in many respects scarce, productions having been curtailed and prices are constantly advancing.

Therefore, we urge you to BUY CHRISTMAS GIFTS EARLY

What is "Triple-Heated" Gas?

It's simply ordinary gas heated three times before it is shot into the cylinders—and thus made far more volatile, far more lively. The instant a spark is projected into the cylinder-head, there is an immediate response with a clean, sharp explosion that leaves no residue to form power-stealing carbon on the piston-rings and side-walls.

The first heating is at the carburetor. The gas is then conducted through a cylinder block channel between the hot firing cylinders to the opposite side of the motor where the larger particles not yet vaporized are thrown against the hot walls of the Exhaust-Contact Manifold and cracked like water on a hot griddle.

But, fuel-saving is not the only FULTON claim to economy. The internal-gear drive is lighter, gives more power and saves on tires.
