Nebraska Lands. COME ON YOU FARMERS

Land is moving fast here. The weather is good now but will soon probably be bad. Why not come now and buy that quarter or half section or that ranch yo The price is getting stronger and higher every day Don't wait until everyone else has chose and taken their pick, but come now, while can fit you out with what you want For instance: 640 A. 5 miles out, good room house, good frame barn, good cis tern, other good out buildings, all fence and cross fenced, about 79 A. under cul-tivation, nearly 500 A. can be farmed excellent buffalo and wheat sod per A \$24, part cash, balance back on 5 and 1

160 A, fine grass and hay land 314 miles out, no improvements, all farmable. \$23 per A. part cash, balance 5 and 10

Another quarter section just across the road from above place, the same good upland hay land, same price.

160 A 4 miles out, fine land, every foot farmable, per A. \$22.50; no improve-ments, same terms as above.

All three of these quarters are well

house, small frame barn, hen house, good FRANKLIN car series 9. Price \$1,500. sized cistern, good brick cellar, \$50 A. farmable, balance heavily grassed. 11 or 12 A. under cultivation, 6 or 7 A. alfaifa, Most of the place cuts good upland hay. All fenced and cross fenced all ready to move on to. Per A. only \$17. Small pay-ment down, annually or crop payment

plan, interest only 6 per cent,

1080 A. The old Lake Ranch-only miles from Crawford, 400 A farmable, about 10 A under cultivation, balance timber and most excellent hill pasture, streams of running water, nice large 3 streams of running water, nice large lake, 2 houses, considerable of it fenced with woven wire fencing, 4xi painted posts crecooted bottoms. This is, without a doubt, the finest medium sized ranch proposition in the west today. Most anyone will admit that \$23,000 takes the place, terms to suit. Part of the deferred payment at only 5 per cent and the balance at 6 per cent. I can sell this place with stock and all if desired. Some place with stock and all if desired. Some 75 or 80 head of cattle, some high grade Holstein milk cows in the lot. Some 40 or 45 head of horses, full line of farming and haying machinery. Would inventory the personal property in at satisfactory prices and would take a \$10,000 payment down on the entire place, nch, stock and all and give you all the time you need on the balance or take the balance on crop payment and as stock was mar-keted. Is not this a good opportunity for some father who has a son he wants to start up in the ranch business? 400 A. of farmable land will give him all the farm land he can take care of while the stock is growing into maturity. This place only 2 miles from Ft. Robinson de-pet and leading station.

2 quarter sections, one on one side of the road and one on the other, only 2 miles out from Whitney-right on the main Crawford-Chadron road. Each quar-ter has fully 135 or 140 A. farmable, while balance is grassed, but a little rough for farming. One quarter has a creek just cutting in its north edge. No improve-ments, all virgin sod, but heavily matted to buffalo grass. \$22.50 per A. takes either or both of these, on terms to suit.

640 A 2 miles from Joder, 11/2 miles from Crawford, 6 miles from Orella 4 room frame house, small frame barn, well. windmill and cement tank. About 109 A under cultivation, 500 A. can be cultivated. Here is a real opportunity. Only \$20 per A. \$2,060 down and balance on crop pay ment plan if desired. 1/2 of the crop until the place is paid for. Where can

A. 2 miles from Marsland. Fully 159 A. farmable, balance heavily grassed No improvements, all virgin prairie, \$35

These are just a few of the many bar gains I have. I have tracts ranging from 160 A. up to 3,480 A. If you can't get right on the train and come, write scribes many places. I have made eight different families happy in the past two weeks with new homes ranging from 160 A, up to 1,120 A, in size. Join the army new and be a producer of wheat and other food products in 1918. You will never have the opportunity again of getting in as easy as now Most Sincerely yours,

Derwent Hall Caine Exposes Crown Prince | SOUTH SIDE Åt U. Club Luncheon

Derwent Hall Caine, son of Sir Hall Caine, famous English actor, who is playing at the Orpheum this week, was the guest of the University club at a luncheon Friday and gave an interesting talk.

Mr. Caine is personally acquainted with the German crown prince Contrary to prevalent opinion that the prince is a narrow-minded fool Mr. Caine was emphatic in his statement to the contrary. He pronounced him clever, shrewd, cunning; but "as a true sportsman he s unable to qualify."

"He is a man who hates to lose and when he began his backward movement in the recent great drive, he knew well that the current report that he was maneuvering for position was false; that he would never yield a foot of ground without being orced to do so," said Mr. Caine, He would rather sacrifice a whole army than admit defeat."

Real Character Shown,

Mr. Caine related several incidents which portray the real character of the prince. On one occasion

Another incident occurred at a banquet at which both were present when the prince gave a toast on "Der Tag." Mr. Caine, not being familiar with the German language, in which it was given, later asked him to interpret the meaning of his subject. His reply was that the toast was " to the day when Germany should make war on all Europe and subject her to her dominion; to the day when all Europe should be the German empire; to population had been reduced from ments upon the earth would be the German empire and the United States of America," and then he nonchalantly added that he feared Germany and America could not
