OF WILD ORGIES Fascination of Drug and Criminal Career is Enjoyed in

Two of the most complete wrecks of humanity that have ever been held at the central police station, Florence Bowen and Charles Kerr, drug addicts of the most hopeless sort, were turned over to the federal authorities Monday morning. The couple, who claim to be man

and wife, were picked up at a house on South Twenty-fourth street, Satarday night, sodden with morphine. The woman was placed in a cell with four other fallen sisters and the man in another cell on the ground floor of the station, with a number of drunks and casual of-

They both lay, the man on cold cement and the woman on a steel floor, in a seemingly unconscious condition until about 4 o'clock Sunday, when the two were seized with terrible convulsions and tremors that occasioned the other inmates of the cells such alarm that the police attendants were summoned.

A physician was called, who had to administer opiates to quiet the awful cravings, the mental delirium and the physical manifestations of agony that had seized them when the effects of their orgy in drugs the night before had worn away. According to the tale Kerr tells.

Florence Bowen is one of the most noted shoplifters in the country and he has had a long criminal record. He says he and the woman are married, their mutual love of criminals at 3 o'clock p. m. yesterday: adventure and drugs forming the bond of affinity that has kept them together through a varied career

that has lasted for years.

Kerr says he is a member of a highly respectable family of Kansas and he is a graduate of Leland Stanford university. While still in college and between two semesters, he and a couple of companions, classmates, equally wild, went to Okla-homa and held up a train. They managed to escape detection for some time, but were finally apprehended for a criminal offense and Cudahy Packing Co 698 he was given his first penitentiary sentence.
