

## RETURN LOADS BUREAU PUSHES DELIVERY PLAN

Central Truck Loading Station Location to Be Chosen by Committee Named on Thursday.

At the regular weekly meeting Thursday of the executive committee of the return loads bureau of the Chamber of Commerce, which is stimulating the use of auto trucks in delivering merchandise to nearby towns, three problems were taken up and will be "pushed to the limit." The first thing necessary at this time to make this form of delivery more successful is to have the country merchants wherever and whenever possible order his goods delivered by the trucks. The other two problems facing this bureau is to have men on the various lines deliver regularly and

to have a central loading station in Omaha. The latter proposition will be attended to immediately and a committee appointed to make the selection of the location will report next week. A committee composed of C. E. Stallard, W. Saunders and W. W. Killemer was also appointed to perfect the classification and rate system, which will be similar to the railroad system. At present the same rate is charged on all merchandise, whether it is nails or delicate millinery.

**New Street Name Signs in Downtown District**

The Nebraska Power company has practically completed its work of attaching street name signs to the new ornamental electric lights in the downtown district. The streets which have been improved are Tenth street, depot to Farnam; west on Farnam to Twenty-fourth; Douglas from the bridge to Twentieth; Thirtieth, Dodge to William; Fourteenth and Fifteenth Dodge to Howard; Sixteenth, Cumming to Leavenworth, and part of Seventeenth street. This is the first time that this district has been properly equipped with these signs, which are made of cast iron, with baked enamel lettering.

## ARTHUR MULLEN CONSULTS WITH BONDING HEAD

Lion's Tails Still Negotiating for a Settlement Over Claims Preferred by Them.

Negotiations for the settlement of claims preferred against the Lion Bonding and Casualty company by former employees, who once formed the suborganization of "The Lion's Heads," and who are now known as "The Lion's Tails," are still in progress. President Volpp, of Scribner, is in the city, presumably looking the situation over. He had an earnest conference with Arthur Mullen at noon. W. F. Taylor, who denied he was a member of "The Lion's Tails," and who stated in an interview with a Bee reporter that he had severed

his connection with the company in February of the present year, is alleged to have been carried on the payroll of the concern for a number of months at a salary of \$200 per month. His position, it is said, was manager of the accident department but the duties of the place, it is said, were not onerous, and he devoted very little time to the work. It is alleged he was engaged in the more lucrative occupation of selling a bunch of stock of the company which was put on the market at the time he was given his new position.

**Omaha Men Return from Trip to Arizona and Coast**

V. P. Unitt and Dr. T. E. Sample returned Saturday from a trip to Arizona and California. G. W. Platner, who accompanied them, returned the previous week. The trip was made to inspect a copper and silver mine in which they and other Omahans are interested and which is located near Wickenburg, Ariz. After a satisfactory visit, including the thrilling experience of being lowered several hundred feet down a shaft in a bucket, the Omaha men continued to Los Angeles and visited Coronado Beach and other points of interest.

## Home Guards Auto Corps Has Issued a Call for More Recruits

A call has been issued for recruits to the auto corps of A company, home guards. This division is in need of volunteers who will furnish automobiles for use of the home guards on various occasions and which can be utilized in a military way, such as soldier funerals.

There are about 50 car owners now members of this corps and no limit is set to the number who will be admitted. Applications are being received by John W. Parish, 1322 First National Bank building, whose telephone number is Douglas 1165.

**Passenger Association Meeting is Postponed**

# It Was Dewey Who Said: "Gridley, Fire When You Are Ready"

Those were pregnant words—the oftener you read them, the more you see in them. Readiness is a great thing—and firing at the right time an exceedingly important thing. We have been ready in our Ready-to-Wear section for some time. The fourth Liberty Loan has had the right-of-way and so we said to Department heads we'd better bide a wee, let's wait until Uncle Sam gets his—that is one most important thing—Omaha—Douglas County—and Nebraska have again done themselves proud—and so the decks are cleared for action and the order has been given—YOU MAY FIRE. SATURDAY, THEN, D. V. AND W. P. EXCITEMENT WILL COMMENCE.
