Safety, Security and Satisfaction

Are the all important questions to determine when buying your piano.

The Schmoller & Mueller Plan — one price to all — affords the utmost protection and is a sure and safe guarantee against over charge and misrepresentations of any nature whatsoever.

Under the Schmoller & Mueller Plan — one price to all — the experienced and the inexperienced, the wise and the unwise, the home and the distant buyer all pay the same price because they all receive the same value.

The one price plan in the last analysis simply means no "camouflaging" but the plain truth and nothing else but the truth all the time under all circumstances.

When you buy your Piano from a One Price house you have the advantage of knowing all the facts BEFORE you buy rather than the unpleasant sensation of discovering them by degrees AFTER you have bought.

Steinway Leadership

The unparalleled and distinguished patronage bestowed upon the Steinway house is the most convincing proof of its superiority.

By royal warrant Steinways have been appointed Piano makers for:

George V., king of Great Britain.

Mary, queen of Great Britain.

Their majesties, Albert and Elizabeth, king and queen of the Belgians.

Umberto I., king of Italy.

Alfonzo XIII., king of Spain.

Gustaf V., king of Sweden.

Charles, king of Roumania.

Oscar II., king of Norway.

and as additional cumulative evidence of Steinway pre-eminence it is only necessary to mention that every great pianist without ex-

ception, whether American or European, where a monetary consideration does not exist, chooses the Steinway.

Is Your Blood Starving For Want Of Iron?

Modern Methods of Cooking and Living Have Made an Alarming Increase in Iron Deficiency in Blood of American Men and Women

WHY NUXATED IRON SO QUICKLY BUILDS UP WEAK, NERVOUS, RUN-DOWN FOLKS—Over 3,000,000 People Annually Taking It in This Country Alone to Increase Their Strength, Power, Energy and Endurance.

"Is your blood starving for want of iron? Iron is red blood food. If you were to go without eating until you became weak, thin and emaciated, you could not do a more serious harm to yourself than when you let iron that gives it strength and power to change food into living tissue," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "Modern methods of cooking and the rapid pace at which people of this country live has made such an alarming increase in iron deficiency in the blood of American men and women that I have often marveled at the large number of people who lack iron in the blood, and who never suspect the cause of their weakness, nervous, run-down state. Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition, and are not aware of realizing the real and true cause of their trouble. Without iron in your blood your food merely passes through the body, something like corn through an old mill with rollers so wide apart that the mill can't grind.

Who Should Take Nuxated Iron THE ELDERLY INACTIVE MAN

THE RUN-DOWN BUSINESS WOMAN

THE EXHAUSTED BUSINESS MAN

"For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and all run-down, while at 60 or 65 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy.

"As proof of this take the case of Former United States Senator and Vice Presidential nominee, Charles A. Towne, who at past 65 is still a veritable mountain of tireless energy. Senator Towne says: 'I have found Nuxated Iron of the greatest benefit as a tonic and regenerative. Henceforth I shall not be without it. I am in a position to testify for the benefit of others to the remarkable and immediate helpfulness of this remedy, and I unhesitatingly recommend Nuxated Iron to those who feel the need of renewed energy and the regularity of bodily functions.

of Nuxated Iron and has often quickly become an entirely different individual—strong, healthy and rosy-cheeked. I have used Nuxated Iron widely in my own practice in most severe, aggravated conditions with untiring results. I have induced many other physicians to give it a trial, all of whom have given me most surprising reports in regard to its great power as a health and strength builder."
