

The United Forces of America

Are Winning the War

IT is with the united forces of humanity and machinery that we have been able to turn the tide of the great war "over there."

Through the combined efficient use of TRUCKS and TRACTORS we have been able to give Uncle Sam quickly those products which he needs most in the maintenance of the great American army and navy.

But the war isn't over yet and it behooves every one to utilize every minute to the best advantage. The greatest time savers in modern history are TRUCKS and TRACTORS.

TRUCKS and TRACTORS are the means of speeding up production and at the same time conserving man power.

It is a truly patriotic duty to utilize TRUCKS and TRACTORS to the maximum, to produce the maximum at a minimum cost.

Every day TRUCKS and TRACT-

These Firms Have Joined Together to Support Increased Production and Better Transportation

In the city or on the farm
TRUCKS
 and **TRACTORS**
 through their proven efficiency have established themselves permanently.
 They are recognized by the progressive business man and farmer as being indispensable:
 Use TRUCKS--Use TRACTORS
