

HUN PEACE TALK IS MENACE, SAYS REV. TITUS LOWE

Omaha Pastor Who Saw Service "Over There" Says Retreat is Not Defeat, as Some Think.

Rev. Titus Lowe, pastor of the First Methodist church, who spent six months in young men's Christian association work in France, declares that the present "peace" talk is one of the most menacing things with which the allies have to contend.

The Germans are far from defeated and their peace proposals are nothing less than a hard stroke against the allied nations, he says. They are intended for nothing more than that. They have retreated, Rev. Lowe points out, to a considerable extent, but this retreat has been conducted in a masterly manner. It has not been a rout, the Hun casualties have not been extraordinarily large nor the number of prisoners taken by the allies large considering the number of men engaged.

Now is the time to fight. Now, of all times, is the time to continue the fight until the Hun military machine, some time in the future, shall lie in pieces and no longer threaten a peace-loving world.

The retreat of the Hun army from July 18 until the present time shows genius of a high order," said Mr. Lowe. "We have talked much of Foch's giant pincers and now the allies were closing the jaws of the trap. But a cold analysis of the facts makes plain four things: (1) Notwithstanding our acknowledged superiority in men, guns and aeroplanes our advance has been comparatively slow; (2) the number of prisoners taken is not large in comparison with the number of men employed; (3) the Hun casualties in the retreat are not as great as the allies' casualties from March 21 to July 18; (4) there is absolutely no sign of breakdown in the Hun fighting morale, no indication of a general debacle.

Great Difference. There is no wide difference between a calculated retreat and a colossal defeat. Only the latter will insure lasting peace. Peace based on anything short of a great victory for the causes of humanity would be spurious and criminal. The Hun government is not yet ready for the only peace that right-hearted humanity can grant.

"Why tolerate and encourage so much peace talk? Much of it is insidious peace propaganda. It has slowed up the Fourth Liberty loan drive all over the land. It will undermine the fighting spirit of the home base. It will weaken all our war work activities. This must not be. We did not enter this war because of anger, however justified, but because the soul of the nation burst through to a mighty conviction. Outraged justice forced us to take up arms. That same inflexible necessity bids us to set our faces as a flint toward a complete smashing of the Potsdam gang. The immediate necessity is not that battling Belgium shall be restored, that fighting France shall be repaid for all its bloody, heartrending sacrifices, but that the massive Hun fighting machine be broken into unmanageable pieces. Every other consideration is secondary to this. Time enough to talk of internal political upheavals when this primary objective has been achieved.

Should Harden Resolve. "When the Hun enemy begins to weaken, as he does now, it is not time to talk sentimentally of peace, but to harden our resolve to buttress our spirits, and to call on our reserve strength for the final overwhelming blows. The bells of victory are being prepared to ring out their thrilling message. Peace-bringing, soul-healing peace will one day come again to war-weary humanity. But that hour is not yet. This is the fighting hour, the supreme fighting hour in the history of mankind.

"As we value our own souls we dare not flinch when the hot fires on the altar of sacrifice lick up some of our precious lifeblood. Every American grave in France, every khaki-clad lad who has died in America, every American body which lies at the bottom of the trackless ocean is an unbreakable pledge that we shall not quit until we have fought through this war for humanity's freedom."

"Earn and Give" Is the Slogan for Victory Boys and Girls' Club

At a meeting at the University club Saturday J. H. Beveridge, chairman, announced plans for the Victory Boys and Girls in connection with the coming united war drive.

A card file will be made in which the names of every boy and girl in Omaha between the ages of 14 and 20 will be recorded. The file will be built by the manual training boys and the names will be taken from the school census. Mr. Beveridge estimates that there are about 14,000 children between these ages. Miss Belle Ryan, the assistant, believes there are 17,500. However, some of these are away at school.

Each boy and girl is to earn the sum of \$5 for the campaign. "Earn and give" is the slogan. Younger children are to be permitted to give, too. Two little boys under the age of 14 have already earned part of their \$5 and were much disappointed when the age limit was announced, so a sort of auxiliary organization will be arranged for the younger children.

"A million boys behind a million fighters—carry on," is the slogan of the boys. "Every girl pulling for victory—carry on," is the motto of the girls.

Chairmen and committees will be appointed for every school district and for each of the seven organizations for which the united drive will collect funds. A thorough canvass will be made of the children recorded in the card index, and then a canvass of those who do not "come through." There is an immense amount of work connected with this canvass, much of which will be done gratuitously by the employees of the school board.

Miss Belle Ryan, assistant superintendent of the public schools, was elected executive secretary of the drive. The principal of each school will be in charge of the drive in their district. At the Central High school Miss Jessie Towne, dean of girls, will have charge of the girls' work while E. E. McMillan will have charge of the boys. Miss Jennie McDonald will be in charge at the Commerce high school.

Father J. J. McCool will be vice-chairman and will have as his assistant Father Stetson. They will also act on behalf of the Knights of Columbus. General Secretary Flower of the Y. M. C. A. will look after the interests of that association. Miss Ethel Niemeyer will represent the Y. W. C. A. The War Camp Community Service will be represented by Miss Frances Range. Otto Brewer will have charge of the boys and Mrs. Charles Elgutter the girls of the Jewish Welfare board.

Miss Mary Foster of the Bureau of Vocational Guidance will secure positions for children desirous of working to secure their contributions to the fund.

Sugar Certificates For Canning Are Shut Off Saturday Night

Word has been received from Washington by the local food administrator, Gurdon W. Wattles, that from now on no more sugar certificates for canning will be issued. It is pointed out that the season for perishable fruits is now practically over, and such fruits as apples, etc., can be canned without sugar. Heretofore certificates could be had which entitled the holder to 35 pounds of sugar for canning purposes.

Mr. Wattles has also received word that the state's allotment of sugar for November is 3,700,000 pounds or 528,000 pounds less than for October.

Beginning with the first of November the amount of sugar allowed for the manufacture of soft drinks of all kinds will be cut down 25 per cent from what it was for the same month last year.

Excitement in Douglas Street When Movie Opens

It was at first thought that the Empress theater was violating Dr. Manning's ordinance regarding the closing of all theaters during the "flu" epidemic, when a crowd was seen congregating in front of the theater Saturday morning.

It later developed that Manager Skirball of the Metro Film corporation was giving a private showing of a new comedy drama before a gathering of movie men.

Dr. Manning was immediately notified, and with his consent, the "show" was allowed to continue, unmolested.

Orkin Bros. Soon Will Move Into New Store in New York

Orkin Bros.' new store which is located at 2123-25 West Thirty-fourth street, New York City, just opposite the Waldorf Astoria, is just about completed and ready for occupancy.

It was current comment among New York merchants, when this firm opened a store in that city in a small way about three years ago, that western men and western ideas could not succeed in competition with New York merchants; and it is a source of considerable satisfaction to the Orkin Bros. to know that they have not only succeeded, but that their store has grown to very large proportions.

When the building is completed and they get settled in their new quarters, this store will be one of the largest and most up-to-date ladies' toggeries in the entire country.

On the 27th

On the 27th we alter the clocks; probably before that day we shall have our first cold spell; after that day the long winter evenings will begin.

Of course, you will want your home snug and cozy by then and this probably means several new pieces of furniture, a rug or the redraping of some room.

For this reason it will pay to visit this store and make plans at once. Don't delay. Not only is time well advanced, but conditions are such that our stock, which was bought before the high price period, will have to be replaced by pieces that will probably have to be priced very, very much higher. All indications point that way, so don't, don't delay.
