# HUNS MAY GO TO THEIR OWN LAND **BEFORE HALTING**

Prisoners Say Belgium and France Are in Process of **Evacuation**; Country Left Devastated.

With the Allied Armies in France and Belgium, Oct. 20.-Reliable information received from the other side of the line indicates that the German retreat will carry the enemy back many miles, if not all the way to Germany itself. Many prisoners captured on different parts of the line declare Belgium and France are in process of evacuation.

Guns from the Belgian coast are known to have reached Antwerp, but at the moment it is not certain whether they have gone beyond that city. Air material has been transferred from Ghent to Brussels. Detailed reports are coming in respecting several lines of German defenses, but none of these lines seem to be more than temporary. The principal line is reported to be along the Selzaete-Ghent canal and the Scheldt

Forty bridges have been thrown across the Meuse in the neighborhood of Huy, southwest of Liege, and the source from which this information is derived says that these are in preparation for the retreat of the Germans behind their own fron-

#### Pledge Violated.

The country from which the Germans are withdrawing offers striking proof of German brutality and destructiveness. When they retired from a town-the civilians were informed that they need have no fear of remaining there as the town would not be shelled. On this promise many civilians remained, but the Germans dropped numerous shells into the place and several civilians, among them women, were wounded. This crime has been added to those already chalked up against the Germans by the Brit-ish army.

Preliminary reconnaisances in vast stretches of recaptured territory show that in addition to the destruction of military establishments the Germans before departing demolished every factory and all mines. In many houses the Germans placed "booby" traps and infernal machines, which apparently were designed as much for civilians as for soldiers, according to the of-

ficial belief. The British armies have had previous experience with such appliances and have therefore not been caught. Hundreds of thousands of civilians are in the towns where the allied troops are operating and advancing, and hundreds have been released from each town liberated by the advance. The presence of these civilians necessitates the greatest care in the handling of shells bombs, and it is probable th. the Germans have left them behind just for this purpose.

Bridges Blown Up. All the bridges have been blown up by the retreating enemy, and because of this the people of Turcoing and Roubaix are experiencing some difficulty in getting food. Supplies are now being shipped into Lille for

the large population there. The Germans are also leaving the country strewn with land mines. The main Lille-Tournai road, as an instance, has been mined every 40 meters. The civilians of Roubaix you are all dead. say that before the Germans destroyed some of the factories in the towns they removed the machinery

and took it with them. More reports have been received of mutinies in the German army. The revolt movement seems to be

spreading. Along the road of retirement the houses in most places have been found to be intact. But the Germans apparently could not resist the temptation to loot, carrying off cloth of every description, Window shades and in fact anything made of cotton or wool were removed.

#### Harry O. Palmer Wins

Captaincy at Washington Arthur L. Palmer, Omaha attorney, has just received word that his brother, Harry O. Palmer, former Omaha attorney and later executive secretary of war savings for Nebraska and national organizer of war sayings, has been promoted from first lieutenant to captain and assigned to duty at the headquarters of Judge Advocate General Crowder, at Washington, D. C., as assistant executive officer and liaison

Captain Palmer enlisted as a private in the infantry on July 7 last and was stationed at Camp Lewis, American Lake, Washington, during which time he was made corporal and recommended for the sergeancy. On August 23 he was promoted to the rank of first lieutenant and or dered to Washington for duty. He said that it was with real regret that he gave up his corporal chevrons as he was proud of being a "doughboy" and enjoyed being called the "little corporal," as he was affectionately known among the big fellows at Camp Lewis.

Men and Women of Seven Big Organizations Which Are Taking "Home" to the Boys "Over There," Join in Countrywide Drive to Show Necessity of Providing Funds So That Our Fighting Men May Be Kept Comfortable and Contented.

F your boy is in the service-if he is steadfastly facing the Hun with eyes and heart unafraid, what better can you do than join one of the great organizations whose mission it is to care for him and lighten the heavy load of war that rests on his young shoulders?

You cannot fight, but you can stand behind a fighter and give him the support that makes for the American "pep" recently made famous by King George of England, when he said that the "doughboys" had put "pep" into the whole Allied armies. These are the reflections that have led so many fathers of soldiers and sailors to enter into the great work being done by the Y. M. C. A., Y. W. C. A., Knights of Columbus, Jewish Welfare Board, War Camp Community Service, American Library Association and the Salvation Army.

#### Have Fighting Sons

Yes, the Y. W. C. A. is included in the above list-many of its most prominent workers and officials have sons in the service and are standing behind them in every possible way. Just a few of those who have sons in the service are Mrs. Henry P. #### DREAMLAND ADVENTURE By DADDY

Witch of the Night

(In previous stories Peggy has had wonderful adventures among the Birds, and has done much war work.) CHAPTER 1. Old Miser Hardfist.

66 RINCESS PEGGY there's a want to thrash, and I'm not big enough to do it alone. Will you help me?"

This astonishing request made Peggy sit up straight in the porch swing where she had been drowsing fairly blazing with indignation, stood

Billy Belgium. "Why, gracious me, you know I can't do that," gasped Peggy. "It isn't ladylike to fight."

"You'll not have to do any of the real fighting. I'll lasso him with a rope and all you'll have to do will be to hang on to the rope while I

This sounded real exciting to Peggy, but she wasn't going to rush blindly into a row unless there was good asason for it.

"Who are you going to thrash and what's he done?" she asked.

"He is rich old Jonathan Hardfist who owns that beautiful country place just outside of town," replied Billy, doubling up his fists: "I'm going to thrash him because he refuses help defend America by buying Liberty bonds. He says he can make more money using his spare

funds in his own private business." "Isn't that mean of him!" exclaimengaged in was with Marvin Hart. ed Peggy. "I've heard father say The promoters of the contest ad- that he owes every cent he has to lend a part of your money," urged feet long, and as he lay on his vertised the show as a "world's the opportunities given him in this cot in a British hospital, he told championship" affair and engaged free country when he came from how he had strangled the reptile in an open air arena at Reno, Nev., abroad years ago. And now he will not do his part in keeping the coun-

try free."
\_"Will you help me thrash him?"
again demanded Billy. "Of course I will," replied Peggy. 'He deserves it. Are you sure he will not buy?'

Down the garden path came Jonathan Hardfist.

"He told me so himself. You know I am selling bonds because I'm a Belgian refugee. I told him how the Huns robbed the Belgians, how they wronged them, how they killed them. And all he answered was, 'We're safe enough over here in America." As if any place in this world would be safe if we don't win this war."

"Let's hurry!" exclaimed Peggy

But may be we'd better take a big

intended to use as a lasso. He tied dentist. a noose in this as he and Peggy hurried along toward Jonathan Hardfist's surburban estate.

"We will creep into his garden and wait until he comes along, exclaimed Billy. "He walks a lot in his garden thinking up schemes to make money."

property, crawling through a hedge, Canada Peggy gasped at its beauty. There those from this country here today man down the street that I were wide stretches of lawn, charming flower gardens, thriving patches of vegetables, a great palace-like cablegram from the United States died Friday of pneumonia at Camp house and various other buildings, today saying that the festivities in- Dodge, Iowa, where he has been including stables, garages, and servants quarters. It seemed to her that Mr. Hardfist ought to be willing to lend America all he could to bishop of Baltimore, decided to send keep this safe.

Suddenly a voice stopped 'the children. "Ask him again if he will help America protect him and all the

nation. The command came from a statue standing on a high pedestal above

"It's Liberty," whispered Billy Belgium in an awed voice. "I saw her statue as I entered the Land of the Free.'

"Yes, I am the Liberty spirit," answered the statue. "Appeal to him in my name." Down the garden path came Jona-

than Hardfist, his face set in a severe frown. Billy Belgium, obeyng the Liberty spirit, met him. "In the name of Liberty, I beg you, Mr. Hardfist to lend your noney to the Government." "Get our of here, you impudent

#### Move to Stimulate Production of More Iron, Steel and Coal

New York Oct. 19 .- With an aim oward stimulating the war-time production of iron and steel and coal and coke, a special meeting of the American Institute of Mine engineers will be held in Milwaukee, Wis., for three days beginning Oc-tober 8. Prominent members of the institute of metals division, and the iron and steel section of the institute will be in attendance.

Mining engineers throughout the country feel that the importance of iron and steel production, which in itself is dependent on the quantity and quality of coal and coke available, is paramount at the present stage of the war.

The Milwaukee meeting will be held simultaneously with the annual meeting of the American Foundrymen's association, and the men actually working with the products of American mines will be able to take counsel with the American engineers on the most pressing needs of the day.

Some of the subjects to be taken up in the course of the sessions are: symposium on the conservation of tin, the metallography of aluminium, dental alloys, radium, low temperature, distillation of Illinois and Indiana coals, the manufacture of ferro-alloys in the electric furnace, the use of coal in pulverized form, price fixing of bituminous coal by the United States fuel administration, the work of the national research council.

Motion pictures will be shown on the triplex steel process, concrete ships, and the work of war cripples in the manufacturing industries.
