Only Answer Should Be Demand for Unconditional Surrender, Declares Republican Senator.

Washington, Oct. 22.-Senator Lodge of Massachusetts, republican leader, in a statement today branded Germany's latest note as a "clumsy trap, awkwardly set, to involve us in diplomatic discussions," and said if it is answered at all it should be by demands only for unconditional sur-

"It seems to be unbelievable," said Senator Lodge "that any one should be taken in by the last German note. It is varnished over with a little false flattery, directed to the president and the people of the United States, which can deceive no one. It will not bear the slightest analy- 23:

Men Indicted for Steamer Eastland Disaster Freed

Chicago, Ill., Oct. 22.-State cases in criminal court against men in connection with the steamer Eastland disaster of July 24, 1915, were cleared from the N. J. dockets today. The state against Walter K. Greenebaum, manager of the Indiana Transportation company, charterer of the boat, was dismissed on motion of the state's attorney and manslaughter charges against four officials of the St. Joseph-Chicago Steamship company were dismissed with leave to reinstate. Those affected by the latter proceeding were George T, Arnold, president of the company; William H. Hull, vice president and manager; Walter C. Steele, secretary and treasurer and Ray W. Shortly after the disaster the federal government made unsuccessful attempts to try the men, according to the state's attorney, and this re-sulted in the state dropping the

Senator Poindexter produced the letter during a speech criticising the committee on public in formation which he said was seeking to spread the belief that German atrocities have been discontinued. The committee recently denied the crucifixtion story.

SAVERS OF LIFE IN BIG BATTLES

Thousand Casualties Daily Are

of War.

London, Oct. 22 .- (Associated Press)-Thirty-six tanks-one battalion-save at least a thousand casualties every day they are in action. The British war experts who made this statement while discussing the present allied offensive continued: "We have used in the fighting to date only a fraction of the men the enemy has been accustomed to employ for similar offensives and we have made up the difference largely with tanks. Since the ultimate victory will fall to the side with the higgest reserves, the more tanks we have the more assured our victory.

"It has been commonly thought that a direct hit by a shell means destruction for the tank. Not always. A fortnight ago a tank received seven direct hits from a German 'Seventy-seven' gun, but the tank finished its job and trundled back to its lines.

"Another in the Cambrai region went over a rise directly in front of a German howitzer. The howitzer fired from fifty yards away and a shell tore off part of the tank's side But the tank went on, driving right over the howitzer and putting it out of acion.

Recently Major General Seely deputy minister of munitions, said "I speak the literal truth when I say that I, and hundreds of others it has been my privilege to lead. would be dead now but for the tanks. They probably saved Amiens. They certainly saved us."

Anyone found to have obstructed the loan, will be prosecuted, it was declared. Fond Du Lac county's quota was \$8,701,350, which was oversubscribed \$88,350 not withstanding the failure of several tewnships to meet their allotment.
