State Organizer Makes Signed Statement of Facts in Regard to Work of League.

Lincoln, Oct. 27 .- (Special.)-The managers of the Morehead and Neville campaign have taken considerable pains to deny the reports that the democratic party is doing all in its power to line up the members of the nonpartisan league with their machine. An affidavit made by Jake Thull, an organizer of the nonpartisan league of Nebraska, which speaks strongly for itself is printed herewith.

In speaking about the matter, C. A. Sorenson of Lincoln, attorney the national nonpartisan league,

Twenty Government Locomotives Sent to Union Pacific Lines

The new United States govern ment railway locomotives which have been designed and approved by the railway administration are beginning to make their appearance in this part of the country.

The Union Pacific has received some 20 or more of them, which for the most part have been sent into the western territory to take care of the heavy traffic.

The new engines are of the Mikado type and are very large and powerful. They are designed to pull from 15 to 18 passenger coaches and make a speed of 35 to 45 miles per hour; or in the case of freight to draw from 2,500 to 3,000 tons and handle it with ease.

The equipment of these engines is up to the minute in every respect, and the new automatic stoker is considered to be a great improvement over anything that has come out yet. It is operated by a single valve and automatically crushes, sprays and feeds the coal into the fire box.

RICKENBACHER MADE CAPTAIN FOR EXPLOITS

Downs Hun Plane While Member of Escort to Group of **Bombing Machines** In Raid.

By Associated Press. With the American Army Northwest of Verdun, Oct. 27.-German troop concentration in the region of Briquenay, north of Grand Pre were bombarded this afternoon by about 60 all American bombing airplanes with about 80 pursuit planes protecting them. Formations of from 15 to 20 German machines attempt-

ed to drive off the Americans and several aerial combats resulted. Lt. Edward Rickenbacher was among the pursuit planes accompanying the bombing squadron. He engaged in two aerial combats and brought down a German machine within the American lines near Exermont. Rickenbacher followed the enemy machine close to the ground until he saw the enemy aviator land and fall into the hands of American infantrymen. Returning to his aerodohe, Rickenbacher heard the news of his promotion to a captain-

The weather was clear when word came that German troops were arriving at Briquenay by trains and that they were marching and being transported toward the Bourgoune wood. An expedition was quickly organized and was soon on the wing. In addition to bombing Briquenay and the railroad, the bombers dropped bombs in woods nearby and

excellent results, direct hits being obtained upon railroad sheds. Two American planes are reported missing.
