DR. STITT HAS PRAISE FOR U.S. **MEN OVERSEAS**

Former Omaha Pastor Says American Soldiers Are the Manly Sort and Yearn for Church.

Rev. J. H. Stitt, formerly pastor of McCabe Methodist church in Omaha, who is now overseas as a divisional director of social activities, has written some wonderful letters home-letters which tell of the American soldier, his likes and dislikes, his bearing and beliefs, and which throw much light on his life abroad.

Here are some extracts from these letters which will interest Omaha and Nebraska people:

"My own appointment is in my estimation a particularly happy one and I am enjoying it immensely. I have a task which I hardly dared hope would fall to me so soon, namely divisional director of religious and social activities, something ike running a good sized chautauqua; with hundreds of good, redblooded American soldiers for an ever ready and appreciative audience. Oh, how I love those boys! They will do anything for you, and both officers and men show a gentlemanliness which, to say the least, is exceedingly delightful.

Fraise for Yankees. . "Really, it would be impossible for one to speak too highly of the spirit and manly bearing of our soldier boys in France. They have hard work to do every day, whether Sunday or not, but their demeanor shows that they like to keep the Sabbath atmosphere whenever possible. They are actually begging for preaching services and Bible classes, and the one thing we have to guard against is to announce a religious service and then only provide a lecture. It must be the real thing, with hymns and all, or it won't go.' So far, I have found the officers perfectly ready to give every facility for our work with their men.

"I am delighted to be able to tell you that I have failed to find any evidence of the frightful social disorder that we all feared would result from having our army placed on-French soil. The men are living good, clean lives and every inch of their fine young manhood is needed for the arduous toil which is daily the lot of an American soldier. I am proud of them and their officers. God bless them.

"France is lovely. Imagine a broad, sweeping valley, flanked on either side with now gently sloping uplands, now quite precipitous hills. The space between is irregularly divided up into fields of varying shades of green and yellow, according to the nature of the crops, a stone wall or low ditch forming the dividing line. A ribbon-like river threads the center, and tall scene which, to my mind, finds its counterpart only in good old

Meets Nebraska Boys. "A few days ago I met two Nebraska university boys who belong to the hospital unit here. One of them was Walter Rudersdorf of South Omaha. He is a brother of Mrs. Doane Powell. I was waiting outside the Y tent at the hospital ready to introduce my opera people, but something went wrong with the works and they did not arrive, so Mr. Rudersdorf and I employed the time very pleasantly finding, out that each came from good old Omaha-which is wonderful tonic to the men in these strange sur-

"My work brings me in touch with the boys of the 36th division of the A. E. F. We have splendid talent among the men. I have a really fine quartet who made some tours before enlisting. They sang the "Rosary" this morning-how's that for a preaching service?

"Last Sunday night the central hut was full of men listening so eagerly and quietly as I preached to them on 'Jesus of Nazareth Passeth By, my own soul greatly moved by the immense opportunity. At the close it was, 'You sure did your duty tonight, sir, I enjoyed that the best kind. This here's bin the first sermon I've heard since I come to France,' and others in the same strain. It isn't the compliment that one enjoys, but the glad feeling of

being able to help them.

"At the close of the sermon about 20 of the boys formed a Bible class to meet every Wednesday nigh... We have given them the books to study on the 'Manhood of the Mas-ter,' by Fosdick. The Y. M. C. A. is certainly supplying tools that are excellent to work with. You may tell all the folk for me that money given to the suppport of the 'Y' is certainly given to the right cause.'

American Soldiers Greatly Interested in News of Peace Moves

With the American Army Northwest of Verdun, Nov. 1.—(By Associated Press.)—The men in the most advanced positions on both sides of the lines are reading the news developments regarding an armistice almost a early as those to whom the daily papers are available. Propaganda officers, both American and German, are using aviators to distribute the notes which have passed between Berlin and Vienna and Washington, and tonight preparations were made to disseminate the news of Turkey's downfall.

Arthur Page and Walter Lipp-mann are conducting the propa-ganda from the headquarters in Paris and the details are being car-ried out by a big force, with which are co-operating the personal staff

and flying corps.
President Wilson's note to Austria was circulated by the Americans among the American troops within a few hours after it was delivered. Prisoners who were brought in a little later bad copies in their pos-session. The document had been printed within range of the enemy's suns and carried over by aviators.

The Government Requests

That in order to conserve labor, both men and women, now so much needed in all branches of government work, to save fuel and relieve transportation facilities, which are already overtaxed with war activities-
