THE LETTERS OF THOMASINA AT-KINS, George H. Doran Co., \$1.00. Intimate, whimsical, humorous and pathetic letters from the front by a private soldier in the Woman's Army Auxilliary corps of England. They give a very decided idea of the life of the "Waacs" in "Hostel," England and behind the lines France, in a fresh and colloquial style. The effect of the war on women and of women on the war is strikingly brought out.

men's work in flying in front of the lines as it is in warservice work here at home. You are confronted now by graver and harder duties. You, as mothers, wives and sisters, are called upon to face the separation from all that is most dear to you. The war must be won not less by women than by the fighting men. The influence of women is felt everywhere on the battlefield, in the hospital: and amongst the producers at home. Women all ever the that their work at home will help the men at the Front. There is an important factor which has to be carefully observed to make the great work women are doing successful. Nobody, man or woman, can do good work when health is impaired.

Brandeis Stores

There's a new idea of "service" in business now: it's been in operation here for some time. To us war-time "service" means this: To urge that you buy only the clothes you need; when you do buy to give you the quality that saves because it last long; to gladly refunded your money if we fail to satisfy you.

The Best Clothes Are the Cheapest

The main thing to consider isn't "How much do they cost?" but "How much do I get for the money?" Good clothes cost more this fall than they did a year ago (everything else does, too), but Quality is worth more to you today than ever before. It's YOUR duty to buy clothes (if you must buy any) which save labor and materials because they wear and last long; it's OUR duty to see that you get
