

FEAR ATTEMPT TO COLOR NEWS FROM WARFRONT

National Chairman Hays Warns Republicans Against Any Attempt to Stomped Voters.

Lincoln, Neb., Nov. 4.—(Special Telegram.)—Attempts to color war news from Europe at the last hour in order to influence the election is feared by officers of the national republican committee at Washington, according to the following telegram received late this afternoon by Chairman Beach of the republican state committee: "Publication today of full page advertisement by democratic committee all over the country evidences their desperation. This of course will have no effect on result, neither will their statement from Hoger. Reports from all over the country still better this morning. Advise republican newspapers to bear constantly in mind the fact that all foreign news is subject to censorship of Creel and kindred bureaus and to be on guard tonight and tomorrow against any eleventh hour attempt to color the news from Europe. Victory is ahead of us sure. Don't leave anything undone to make this overwhelming."

"WILL H. HAYS." The advertisement mentioned by Chairman Hays has already appeared and the coloring of war news to suit political ends would be going no farther than the national democratic committee has already shown itself capable of going, in the opinion of Mr. Beach. The state chairman believes the battle already won for the republican ticket. If the voter stands firm and refuses to be stampeded by "gas attacks" at the last moment, the election will close Tuesday night with a grand victory all along the line, he says.

CITY COAL YARD INSTIGATOR OF MERRY RUMPUS

Teeming Words and Personalities Shouted Broadcast at Public Meeting in the Council Chamber.

Hot words flew thick and fast, men shook their fists under other men's noses, the chairman rapped in vain for order, city commissioners dared the voters to recall the a if they didn't like the way they were doing things and in general the rioting in the city council chamber last night reminded some old timers of the "good old days." The "hornet's nest" was stirred up at a public meeting called to discuss the municipal coal yard. A score of coal men were there and several score of coal consumers. The coal men's case was presented first by Attorney John Stout, who pointed out that the ordinance under which the coal yard is run, provides that it shall be run only where there is an emergency and people are unable to get coal through the regular channels. After he was through Tony Donohue, prominent union labor man, made a speech in which he declared that not only should the city sell coal but also provisions, flour, potatoes and "everything else."

Democratic Committee Doubles on Nonpartisans

Lincoln, Nov. 4.—(Special Telegram.)—That the democratic state committee succeeded in getting the list of members of the Non-partisan league after J. F. Evans had refused to use his influence to get them, is evidenced by the fact that the members have been receiving literature intended to turn votes to Governor Neville, the letters being sent out from St. Paul, Minn., conveying the impression that the head of the league was endorsing the governor. It was shown tonight that the democratic state committee was playing a double game when a message was received by the local head of the Non-partisan league in Nebraska from the head office in St. Paul denying that the league was sending out any literature whatever with the intention of helping the governor.

THE GREAT LEADER OF OUR ALLIES

Our boys are now following the great leader of our Allies "over there," fighting the battle of the United States, fighting without thought of being heroes—but fighting that men, women and children may not be tortured, burned and mutilated. Fighting against the bestial foe of America and mankind. No greater heroes nor braver men ever fought on the battlefields of France than our "Sammies." Men with dauntless spirits—men of red blood, courage, energy, vim and vigor are needed every day behind the lines as well as behind the guns. You need iron in the blood! Every healthy man or woman should have about as much iron in his or her body as there is in an ordinary "tenpenny" nail. To gain this iron, the best way is to take an iron-ionic, called "Iron-tic," a combination of iron in its most soluble form, discovered by Dr. Pierce and experimented with by his physicians at the Surgical Institute in Buffalo, N. Y.

"Iron-tic" is a form of iron readily taken up by the blood, the blood-cells get round, rich-red in color, the checks are pink, the appetite improves, and one feels full of "snap"—"pep"—"vigor"—instead of tired before the day is half done.

The eyes take on a luster and the body feels that tingle which one gets from a cold bath. If you want to try this new "Iron-tic" Tablet send 10 cents to the Surgical Institute in Buffalo, N. Y., and obtain a trial package. This 20th-century Iron tonic is sure to do you good. Druggists sell "Iron-tic" for sixty cents
