SOCIETY

MONDAY—Fine arts society, lecture by John Kendrick Bangs, Fontenelle, 4 p. m. Mrs. Anthony French Merrill's lecture, Blackstone, 10:30 a. m. WEDNESDAY—Musical program at Prettiest Mile club. SATURDAY—Camp Grant-Fort Omaha foot ball game. Officers' dance at Fort Omaha. Dinner-dance at Prettiest Mile club. Children's dance at Prettiest Mile club.

WE think only in terms of foot ball these days for there is only one more week to wait until the big game between Fort Omaha and Camp Grant. The weather must be fair, we are sure it will be a crisp, sunny day, and pretty girls galore, wrapped up to the eyes in their new furs will cheer our Fort Omaha men to victory. Visions of waving handkerchiefs, military men in abundance, even yellow chrysanthemums mingle in our foot ball day dream for these gorgeous flowers are always worn by the fair fans on the side lines. This is too, a truly society event for our most prominent matrons are to be patrons, including Mesdames C. T. Kountze, chairman, John Caldwell, Sanford Gofford, Robert Burns, A. L. Reed, Amos Thomas, Clement Chase, Forest Richardson, George Prinz, Glenn Wharton, Willard Hosford, Joseph Barker, Herbert Wheeler, Luther Kountze, F. W. Judson, Sam Burns, W. H. Baldrige, W. A. Redick, W. R. McKeen, Philip Potter, Duncan Vinsonhale, Harry Dooley, Arthur Guion, S. S. Caldwell, C. M. Wilhelm, Thomas Davis, Moshier Colpetzer, R. F. Kennedy, F. P. Kirkendall, Frank Campbell, W. A. Johnson, Wilson Low, W. T. Burns, W. J. Foye, O. T. Eastman, Walter Head, J. T. Stewart, Fred Hamilton, F. A. Nash, John Redick, Barton Millard, Charles Offutt, J. E. Davidson and Gordon Wattles. And after the game is over, what could be more fitting than a dance? Such a wonderful affair has been planned to be given at the K. C. Club at Fort Omaha. The younger girls and matrons will just have time to change street clothes to evening gowns to arrive at the fort as the first notes of the opening one-step are struck. The decorations are to be in keeping with the fall season, gorgeous autumn flowers and softly shaded lights will transform the hall into a bowery beauty. And if victory is ours, it will indeed be the gayest affair of the season!

Prettiest Mile Golf Club. Prettiest Mile Ladies' Golf club entertained at the home of Mrs. Mary Vanderford, 6218 Florence boulevard, Tuesday evening, Miss Helen Madden, Miss Mary Lick and Mrs. L. C. Corporal Buffa's home is in Beloit, Wis. No date has been set for the wedding, but it will take place after the holidays unless Corporal Buffa is ordered away, in which case the wedding will take place before he goes.

Mona Cowell's Letter

(Continued from Page One) where almost all of the relief organizations have their materials delivered and where they are sorted and prepared for distribution. They told us they were very short of workers and that Mrs. Duryea wished to no French women. They handle hospital supplies and food on a small scale. I expect to make some kind of a report to the Vassar club of my investigations and observations. It seems as well run as any private charity—without some of the red tape that a big organization like the Red Cross necessitates. This hotel houses, just now all sorts of territorial nurses in grey with red bordered capes; dresses; smart officers, some apparently with their lady loves on their wedding trips; ambulance drivers in blue; Red Cross workers galore. HOME-MADE COUGH SYRUP

Helps Whole Family, Quickly. Woman's Interesting Letter.

Mrs. M. H. Van Wart, Lents, Ore., writes: "I feel it a duty to write you. Four years ago my husband had a bad cough and found no relief from any cough medicines he tried. Finally tried your Mentho-Laxene and made it up as a cough syrup and it quickly cured him. Now, this last winter, my two boys had fearful coughs and it has cured them. Advice to the Love-Lorn

BEATRICE FAIRFAX To Dimples.

Your letter is not at all clear. I do not understand whether it is the young man to whom you are engaged with whom you go riding or not. If so, there should be no objection. However, if you are asking whether you may go riding with another young man while you are visiting your cousin I can only say, stop to think whether you would like it if the shoe were on the other foot. Treat the man to whom you are engaged as you would wish him to treat you, and you will be sure to be right. I cannot advise girls whom I have never seen as to what will be becoming. You should know best.

To Dorothy.

At 17 you are pretty young to run away from home and try to make your own way in the world, especially since you have not been trained to do any kind of work. I sympathize with you most heartily in the loss of your horse, which was sold. Still, the feed for a horse costs considerable in these days, and perhaps your aunt felt she could not afford to keep it. Try to see her side of each situation as it arises. If you find things absolutely unendurable and decide to run away, which

EUCALYPTUS IS SAID TO PREVENT INFLUENZA

Some of our better authorities, both in this and foreign countries, strongly recommend the inhaling of Eucalyptus to prevent influenza.

One of the best and most convenient forms of applying Eucalyptus to the air passages of the head and nose is found in the simple EUCALYPTUS OINTMENT, known and recommended by doctors and nurses.

ULYPTO OINTMENT is a scientifically prepared EUCALYPTUS OINTMENT, soothing, pleasing and healing, yet very powerful in antiseptic qualities and germ-killing properties.

ULYPTO OINTMENT is easy to apply, just put some in the nostrils and sniff it up the nose, let the vapors from the Eucalyptus penetrate the passages of the head and nose. DON'T DELAY THIS PREVENTION.

GET AFTER IT TODAY. Tomorrow MAY BE TOO LATE. ULYPTO OINTMENT is sold in all first class drug stores, at 25c for 1-ounce jar and 50c for 3-ounce jar.

How to Keep Strong and Healthy

Thinks Epidemic of "Flu" Found Many With Low Vitality.

Matter of Precaution—Take Tonic of Iron, Herbs and Roots.

If your health is perfect this may not interest you. If your health is not perfect, logically you are either sick or "partially sick." If sick, you need a doctor's advice and medicine. If "Partially Sick" you surely will benefit by taking a real medicine tonic, containing no alcohol or habit forming drugs. If you are weak, nervous, tired, sluggish and get no strength from your food you need a tonic.

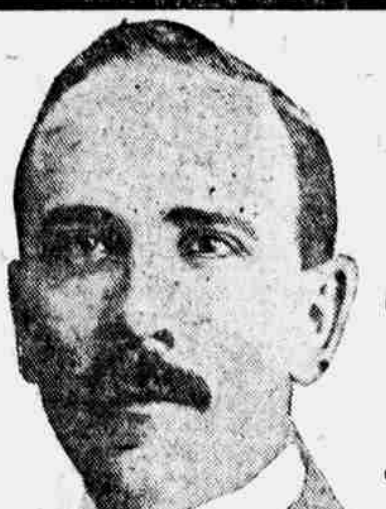

If neuralgia pains, headache, backache, stomach distress assail you—a tonic is your crying need. If irritable, hysterical, sleepless and you worry and fret without reason you need a tonic. If you are thin, anemic, "Bloodless" and ill nourished; if you catch cold too easily; if you tire with slight exertion and you are melancholy because of your inability to live and enjoy life—others do, surely a tonic of iron, root and herb extracts will help you.

Thousands like you, have found strength and cheerfulness by taking three grain Cadomene Tablets, the tried formula of a good physician. If "Partially Sick" you may increase your risk of fatal ailments attacking your weakened vitality. Be sensible and wise by toning up your health; right now is the time to begin. Ask your druggist for Cadomene Tablets and take as directed by the label.—Adv.

would be against my advice, at least be careful you do not run to someone worse. If you go to a big city because the girl from a city is pleasant to the Y. W. G. A. there and tell them the whole story and ask their help. To Anxious. A young man from a city is merely a boy and his affection is not to be taken too seriously. Neither because the girl from a city is pleasant to all the boys she is to be regarded as a flirt. Her attitude is doubtless what yours should be, pleasant friendship with all and no idea of love affairs. If the engagement exists, let it stand as long as you both want it to, but do not worry about the city girl. She will soon leave and the young man will turn his attention to you or some other girl in your town. I cannot advise you in what color you look best, as I have never seen you. As to curls, a girl of 18 is pretty old to wear her hair in that way. It is only done in pictures.

Science and Art

Dentistry is NOT a "science," but an "art"—in which Judgment holds the balance of power.

Science gives exact results from exact calculations—not OCCASIONALLY, but every time.

That is why it is science. Mathematics furnishes an apt example. Two and two make four every time they are added together, whether in the Orient or the Occident.

There are certain laws and rules applying to any science which are unchangeable—they apply every time.

Dentistry (and I might include other professions very properly) is NOT a science, because it is ever changing and changeable.

We learn certain principles in college, we familiarize ourselves with the study as condensed in text books, we attend clinics, and we listen to the lectures of those who have attained distinction, and therefore authority, in the profession, and THEN WE GO OUT INTO OUR SEVERAL OFFICES AND GIVE DIFFERENT DIAGNOSES AND DIFFERENT ADVICE ON IDENTICAL CONDITIONS.

Your family dentist advises saving your tooth; the extraction specialist suggests immediate extraction.

One dentist says you have pyorrhea; another disputes.

Barely ten per cent (according to an authority) of dentists are competent to properly treat and fill a root canal.

This is no reflection on dentistry as an art, which is making progress each day—but it distinctly proves it comes far from being an exact science.

It is therefore essential that people whose teeth continually give them trouble; people who are unduly sensitive to pain; people requiring unusual or very delicate dental operations, RELY ON THE EXPERIENCE IN ACTUAL PRACTICE rather than on fine spun theories and fanciful ideas.

In this office you will find that rare blending of skill and experience so essential to mastery workmanship.

I feel safe in saying that more patients have consulted myself and staff of associate dentists in the past ten years than ten average practitioners would see in a lifetime.

The lessons learned and the skill acquired from that experience form the strongest asset of this dental practice.

It costs you only your time to have a thorough examination of your teeth and estimate of the necessary work to be done.
