Women's Work in War Time

Save Food Even if War is Won, Food Agent **Urges** Patriots

"Keep on saving food! Peace or no peace-war or no war-keep on saving food!" Miss Elizabeth Chamberlin, federal food agent, urges on all loyal Americans.

"With the daily reports of good news from overseas and the seeming nearness of peace, there is apt to be a tendency toward laxness with regard to the food conservation. This must not be, the war is not yet won and were the armistice signed and peace formally declared, we still have a large and even greater responsibility in feeding the world. Reports have come to the country that France is not sorely in need of food, that the people there have abundant supplies from which to draw and that starvation would not stare them in the face should Amercan support be withdrawn, are definitely and emphatically denied by the U.S. food administration. No piece of deliberate German propoganda could do greater injury at this time. France is short of food and would soon be starving if our help should be withdrawn. This is ber, 1918 or in the summer of 1919-America is bound to do her share."

Conservation Notes.

With the lifting of the influenza ban and the re-opening of the schools, the conservation classes have resumed their course of in-

instruction under Miss Elizabeth Chamberlin. On Tuesday at Sáraflours) will be considered and recipes has contrived his or her own way given. The hour is from 3:30 to of earning their pledge to Uncle 4:30 p. m. Mrs. R. H. Fair, chair- Sam and armed with the determin-

Adopt French War Orphans.

Three French orphans have been adopted by the Christ Child society through Miss Merritt, the foundress of the orgnization in Washington, D. C. During the summer/months this club of women has completed 400 articles in their Red Cross auxiliary, also 40 layettes that have been given away in the, city. Mrs. Tom Flynn is chairman of the unit and Mrs. John Hussie, assistant. At a meeting held Tuesday at the home of Mrs. C. W. Hamilton some plans were made for the annual Christmas tree which the society has always trimmed with gifts for some of the orphan children in the city.

ong, Beautiful Hair-Do You Want It?

How Developing the Roots of the

Hair Produces Remarkable Hair Growth. A Simple, Easy Way That Never Fails. By Valeska Suratt.

By Valeska Suratt. The great secret of making hair grow is in the development of the vigor of hair roots. Mere stimulation of the scalp is not enough. It is the lack of hair. Toots may be developed to a hair. The hair roots may be developed to a very remarkable degree by using the mothing can equal the use of beta-nothing can equal the use of beta-istore in one-ounce packages. When mixed with a haif pint of bay rum and a haif pint of water the developer is ready to use. It is not oily, and when used liberally gives all the results which anyone could wish. By developing the roots, the growth is forced, it becomes thick, vigorous and silky, bald spots fill out, and instead of with the scalp, thus putting an end to hair talling.

HIDEOUS-There is no question about bremely beautiful. In order to bring this about it is suggested that you omit for a time the use of ordinary complexion creams as such, and inatead use an article the en-tire force of which goes to the very pur-pose you want to achieve. This can readily be done by the use of sintone, a power nal packages at any drug store. This when mixed with two tablespoonfuls of silvcerine in a pint of water produces, most acquisite creamy application. This should be used liberally. It is even more

economical than the prepare face creams commonly sold. You will non find that all red spots, freckles, muddiness and sallowness will disappear and give way to a lily-like complexion without a single

MRS. P. E. T.—There is a simple, sure and safe method for the removal of super-fluous hairs, which when once used will never be abandoned for any other. By merely moistening the hairs with a few drops of sulfo solution the hairs are made to ahrivel and loosen completely from the skin, so that you can take your finger and wipe off the hairs completely with one stroke. It is so easy and simple that it has become a real toilet pleasure to re-move superfluous hairs in this way. It will not affect the most delicate skit. It can be used anywhere, on the face, arms, shoulders, etc., with perfect safety. A bot-tle of this superior article should be on every woman's dresser. It can be ob-tained at any drug store.

OLDISH-The question of wrinkles is a simple one to solve. You can be ab-solutely sure of the result. You can get rid of thousands of the little wrinkles, and bolately sure of the result. You can get rid of thousands of the liftle wrinkles, and a great many of the big ones by using eptol, which can be obtained at any drug store in two-ounce packages. The con-tents of the package are mixed with one tablespoonful of glycerine in a pint of water. The cream is rendy, and it should be used very freely. This is more eco-nomical than buying prepared creams in the stores, and which you have found to give slight results. In fact, while using ep-tol, you should discontinue the use of any other treatments for wrinkles, as they will be entirely unnecessary. This cream makes the porces amalier, and thereby refines the texture of the skin, bracing it up and making it nore plump and vigorous. It is really magin

ook unattractive or prematurely old because of gray, streaked with gray, white or faded hair. Don't let this condition with its look of age rob you of your youthful beauty and the wonderful opportunities which life offers. No matter how gray, prematurely gray, lusterless or faded your hair might be, "La Creole" Hair Dressing will revive the color glands of nature-promote a healthy condition of the hair and scalp-and cause all of your gray or faded hair to become evenly dark, soft, lustrous and beautiful. This preparation is not a dye, but an ele-gant toilet requisite which is easily applied by simply combing or brush-ing through the hair USE
