

INDICATIONS POINT TO AUTO SHOW IN OMAHA

Other Large Centers Have About Decided to Hold Exhibitions; Omaha in Line.

Indications are prevalent among the managers of the national and local show association that the western cities at least will hold automobile shows this year.

It is rumored also that New York and Chicago will hold their shows, but possibly a little later than the dates heretofore observed.

Rumors to the effect that Chicago is much in favor of the show and that Kansas City already has decided to hold the show are current.

Manager Powell of the Omaha Auto Trade association has been in touch with the National Auto association, and Ray W. Sherman, secretary of the Show Managers' association.

Telegraphic communications indicated a feeling that the automobile shows will be held at almost all points of importance.

Manager Powell is very anxious for the Omaha dealers to get together regarding the holding of the Omaha show.

It is his opinion that an automobile show will do a great deal toward reviving the interest in the automobile industry and toward assuring the motor buying public that the industry will be back to normal basis in a very short time.

Girls' Social Club Formed by Society, Is in Need of Piano

Fifteen young girls, rescued by the Society for the Betterment of Girls and Boys, and formed into a little club, are extremely anxious for a piano.

These young girls have kept to the straight and narrow path for some months and the officers of the society believe they will continue to do so if they are given a real chance.

A little social club has been formed and rooms are now being considered for a meeting place.

The first thing the girls need is a piano, as they are all fond of music and most of them play some.

The lack of a place to entertain their friends and of the amusement needed by all young people, is one of the causes of the troubles which have beset them, and the society which is sponsoring them now believes that the piano will play an important part in their future welfare.

Anyone having a piano which they are willing to give to save these young girls may telephone Dr. Jennie Calitas, Walnut 345.

Omaha Men Publish New War Song that May Be Popular Hit

What may prove to be the first after-the-war song hit will be published by two Omaha men, Charles F. Schwager, former owner of the Alamito dairy, and Fred Stubbs, manager of the Alamito Farm Light company.

The song is entitled "When Blue Stars Turn to Gold." The words and music are already on sale at the music stores.

"Lure of Music" is Book Putting Humanity Forward

Do you really know music? Not the sharps and flats and scales and things that used to make your practice hour a time of trouble and despair, but the wonderful, warm, human side of music; the rich lives of great musicians; the thrilling stories of opera—all the glorious poetry and passion that are the real meaning of music to those who know.

"The Lure of Music" is a recent book that puts this human side of music forth in a most delightfully entertaining fashion.

But the most interesting feature of all in this superlatively interesting book is the unique method employed by the author of illustrating his theme with phonographic records of music selected to bring out just the point he is desiring. These selections have been most carefully made and embody a repository of the world's greatest music, arranged in a fashion not otherwise possible.

The records are made by the Columbia Graphophone company and a complete list of them can be had from any Columbia dealer.

Brakemen Found Not Guilty on Alcohol Theft Charge

Louis Moran and Sam Helvie were found not guilty by the petit jury in United States district court of the charge of robbery of interstate shipment of merchandise.

Moran and Helvie were brakemen on a Union Pacific train carrying a car of alcohol containing 12,000 gallons. When the train took the side track at Mercer, Neb., the liquid took fire and the entire cargo destroyed.

It was alleged that Moran and Helvie were trying to extract alcohol from the car and the blaze resulted from their lanterns. The jury deliberated only a few minutes, before returning a verdict.
