Depressed

Maybe you have an acid-stomach-and don't know it! There are millions of such people-weak. ailing, tired, worn out and "all in" before the day is half gone-listless and indifferent to their surroundings-often with aches and pains all over the body-woefully lacking in physical power and mental vigor-pale, emaciated-just dragging out a weary existence. Nine out of every ten of these people are unconscious victims of acid-stom-ach.

For these are only some of the ailments that are caused by what the doctors call superacidity, which is another name for sour or acid-stomach. What you want to know above all What you want to know above all else is how to quickly rid yourself of excess acid. A wonderful modern remedy called EATONIC literally wipes it out. It does the work easily, speedily and naturally. It makes the stomach pure, sweet, cool and com-fortable.
