The Women of France

The Frenchwoman is brought up to neglect none of the arts that attract men. Even in nuptial plants the woman worker knows where the mirror hangs, often has her powder puff at hand, and gives unconsciously the deft touch to the hair. If it has sometimes seemed to us that the French wife overlooks too easily the unconsciousness of a husband, it is because we have failed to understand the French women are expected to keep themselves so attractive to the mate after marriage as well as before that he will not want to wander over fields.

If it be asked what woman is sufficient all through life for the double duty of being a good wife and a good mother, I name you France, and add that French women are in this regard the marvel of their sex and the strongest bulwarks of monogamy.

And all talk about the lower birth rate in France is beside the mark. The child is held so precious in the French mind that he usually remains a dream child till the right conditions are in sight for his upbringing. If allowance be made for that fringe of the unproductive found in every land, it is doubtful whether the birth rate among the higher minded and responsible is lower over there than over here.

The Frenchwoman cannot be summed up in a phrase. Contrary to the general opinion, she is simple, practical, sensible, tenacious, deliberate, cautious, far-sighted and affectionate. She is sensitive but not sentimental. She is talkative but not superficial. She is ebullient but enduring. She is a compound of heart and head which explains Joffre, Petain, Foch and the poilu, who have fought these four years past our battle as well as their own and have been the surprise of every friend as well as the exasperation of the foe.

If Waterloo was won on the playing fields of Eton, Rugby, Harrow, certainly the Marne, Verdun and the Somme were won in the French house where the Frenchwoman lives and manages, smiles and plans, suffers and "carries on."—Lyman Powell in the Designer.

Mrs. P. A. Wells, who has been confined to her home for the last

three weeks owing to a previous injury, is improving rapidly.

Louis Amburst will leave Thursday for Camp Grant after spending a month's furlough here.

A son was born Wednesday to Mr. and Mrs. Frank Johnson.

Mr. and Mrs. W. I. Conn will leave Sunday evening to spend Thanksgiving in Oakland, Neb.

Tom Kinsler is recovering from an attack of influenza.

Mrs. W. H. McCord, who has been at the Mayo hospital at Rochester, is much improved and expects to return home soon.

FIGHT CATARRH  
Most Diseases Traceable to Inflammation and Congestion of Mucous Linings.

Science has at last fixed the origin of the majority of the ills of life upon Catarrh. Nine times out of ten disease is due to the fact that a catarrhal condition is preventing some organ or organs from functioning properly and that in turn throws the entire human machinery out of gear—result—you are sick. If further evidence of this is needed it is found in the hundreds and thousands of letters from the users of Peruna, people who suffered from various diseases but all evidently coming from catarrh.

Mr. George Clark, 124 Union St., Newark, N. J., writes: "I find Peruna good for coughs, colds, grip, stomach and bowel trouble."

From Mrs. P. Ludvigsen, 801 Crane St., Austin, Minn., comes an equally cheerful message: "I am full of liver trouble, can eat anything I want and feeling fine. There is no buzzing in my head or pain around my heart."

Mr. H. C. Swartz, R. F. D. 2, Box 219, Bellingham, Wash., recommends Peruna for either man or woman: "Thirty years ago a friend advised me to use Peruna as a good blood purifier and system renovator. My family has used it ever since. Peruna is a good, straight, honest medicine and builds up the whole body."

Dr. Hartman's World Famous Peruna is for Catarrh and Catarrhal conditions. Taken in time it helps ward off the grip and Spanish influenza and is an invaluable aid during recovery. Peruna may be purchased anywhere in either tablet or liquid form.—Adv.

"A Drop Or Two—Superfluous Hairs Are Gone!"

By Valeska Suratt.

IT IS now no more trouble to remove superfluous hairs, and no more danger than using a lotion on your face. This is easily demonstrated by the use of sulfo solution, a few drops of which, after being applied to the hairs, make the latter shrivel up completely and come loose from the skin, so that they can be wiped right off. Its only action is to remove hairs, nothing else. There is no more need to fear to irritate the skin or cause an ugly red spot where the hairs were removed, as is the case with many of the powders and pastes sold for the purpose. The problem of removing superfluous hairs pleasantly and easily is now solved by this method. The sulfo solution can be secured at any drug store. There is nothing to mix or get ready.

MISS D. D.—A head-wash that "dissolves" the fatty accumulations, dandruff and the scales that continually form on the scalp is a great exception among articles of this kind. More later will not completely remove the substances which form a "seal" on the scalp, and which restrain the full growth of the hair. Using the dissolving method, therefore, shows splendid results in the increased vigor and growing power of the hair. For this purpose you should use a teaspoonful of egrol in a cup of water. This is a marvelous scalp cleanser. The eggs can be obtained in original packages for twenty-five cents, a quantity sufficient to give you a dozen or more head-washes.

OLDISH—Here is a way to get rid of wrinkles which is really remarkable. It gets right at the very basis of the trouble. Its action is to make the pores smaller, and thereby give a much finer texture to the skin. The result is that the pores and cell tissues breathe, and naturally the wrinkles vanish quickly. In this way a remarkable difference in one's appearance can be produced very quickly. To gain this result, simply get a two-ounce package of egrol from the drug store. When you get home mix this with but one tablespoonful of glycerine in a half pint of water, and your cream will be ready. Every day this cream should be used about very freely. You will find it very economical, too. You will need nothing else but this to produce the results you want.

MISS X.—The sure way to force hair to grow, and not merely to "tease" it a little, is to develop the roots. This always results in vigorous, heavy growth, and it can easily be brought about by mixing the contents of a one-ounce bottle of beta-quinol with a half pint of bay rum and a half pint of water. The beta-quinol, which can be secured at any drug store, is a very concentrated liquid, and is not oily. It is a pleasure to use it, and it never fails to invigorate the hair-roots. An increased growth of several inches a month is often produced by its use. It stops the falling of hair at once. No other hair treatment is necessary if you use this method faithfully. You will soon be surprised at the result.

GERTRUDE G.—There is one pre-eminently effective way to beautify the complexion, no matter how badly it may be affected with spots and other blemishes. This is by clearing up, not merely the very fine outer skin, such as comes off, for instance, after a case of sunburn, but the deeper tissues underneath. For this purpose there is nothing which can equal the use of zintone. A one-ounce package of this can be procured at any drug store. When this powder is mixed with two tablespoonfuls of glycerine in water, the result is a cream of exquisite texture, which, when used as directed, removes every red spot, freckle, all muddiness and sallowness, and leaves the skin white, bright, and naturally pure as a lily. Every woman should try this by all means. It rarely fails.—Adv.

WE are quite thrilled and delighted over the news of a Victory ball for the early weeks of December. The Auditorium has been selected for this gay and festive event and the Child Saving Institute is to be the recipient of the proceeds. The ball last year at the Fontenelle was such a beautiful affair with the style show, and we are expecting even more elaborate features this season. December promises to be a very festive month with the opening of the beautiful new Athletic club, and then Christmas and New Year's bobbing up in a flurry of snowflakes. While we are on the holiday subject, there is Thanksgiving, which is really and truly a Thanksgiving in the deepest sense of the word, this year. Family parties will be the rule, but the hotels will be very holiday-like on Thursday, for numerous supper parties are being planned to follow the theater.

The army set is indeed a social one. Every day is filled with affairs, informal luncheons, teas, and then dinners, when the officers forget weighty military matters for the time. Guests are very numerous at the two forts. Mrs. Edwin Kasselner has charming Miss Dorothy Phipps of Denver visiting her now.

Col. and Mrs. Jacob W. S. Wuest are entertaining at tea at Colonel Wuest's headquarters this afternoon, when the army set from both posts will attend the affair. Mrs. G. H. Strong, who is visiting Colonel and Mrs. Wuest with Mr. Strong, is to be honored at a large luncheon Tuesday given by the officers' wives at Fort Omaha. Mrs. Robert Loomis entertained eight guests at luncheon at the Omaha club Thursday in Mrs. Strong's honor.

**Luncheon for Mrs. Winter.**  
A luncheon in the palm room of the Fontenelle Monday is planned in honor of Mrs. Thomas G. Winter of Minneapolis, who is visiting Mrs. F. H. Cole. Mrs. Winter is second vice president of the General Federation of Women's Clubs, and chairman of the Minnesota Council of Defense, women's committee.

After the luncheon Mrs. Winter will speak on Americanization and Reconstruction. Men will be invited. Mrs. A. L. Fernald, president of the Omaha Woman's club and Douglas County Defense chairman, will preside. Mrs. M. D. Cameron, general federation board member for Nebraska, will introduce the speaker.

**Card Parties.**  
Mrs. D. M. Barrie was hostess for the meeting of the club Wednesday when prizes were won by Mesdames J. S. Dimick, Arthur Hoover, C. E. Sanstrom and C. M. Barrie. Mrs. J. S. Dimick will entertain the club in two weeks.

Columbian club will give a card party Tuesday evening in Lyceum hall. Twenty prizes will be given.

A card party will be given Monday evening by the women of St. Patrick's parish at their hall at Fourteenth and Castell streets. Twenty prizes of poultry will be given.

**Silver Wedding.**  
Mr. and Mrs. O. D. Pederson celebrated their silver wedding anniversary Thursday. A dinner party was given for the members of the family and a beautiful chest of silver was presented to Mr. and Mrs. Pedersen.

**Afternoon Kensington.**  
Mrs. A. S. Pinto entertained the Masonic women at a Kensington at her home, Friday afternoon. The assisting hostesses were Mesdames L. F. Shrum, John Douglas, D. G. Clay and G. W. Goodrich. Fifty guests were present at the affair.

**Dancing Party.**  
Patricia club will give a dancing party Friday evening at their hall, Sacred Heart Lyceum, at Twenty-second and Locust streets. Men in uniform will be honor guests.

Mrs. C. A. Hull, who has been Mrs. F. H. Meyer. Miss Betty with Mrs. Jack Webster in Washington, is now in St. Louis with Meyer is attending school at the Principia school in St. Louis.

Mrs. Earl Kiplinger and son, Delmore, have returned from Fort Sill, where they were with Lieutenant Kiplinger. Lieutenant Kiplinger is now stationed at Camp Jackson, Columbia, S. C.

Mrs. S. V. Chase has left for Chicago and later expects to spend the winter in the south.

Mrs. R. Beecher Howell left Thursday for New London, Conn., to join Mr. Howell.
