

## MAYOR SMITH IN FAVOR OF DANCE IN THE SCHOOLS

Omaha Executive Will Join Citizens Dancing and Playing Cards if Plan is Adopted.

Mayor Smith is in favor of dancing in the community centers, held in the 13 schoolhouses of the city several times a week. He said so in several unmistakable terms when shown a letter from citizens protesting against such "goings on" in the community centers.

"I am heartily in favor of dancing at these centers," he said, "and I am going to write a letter to the recreation director, stating that I am in favor of dancing and that I'll go down and dance with the people myself."

"Not only that but I am in favor of letting them play bridge if they want to, and I'll go and play bridge with them. You can't expect the people to go to those recreation centers and just sit around and talk."

Rev. W. L. Austin of the Pearl Methodist church, in a sermon Sunday took an opposite view from the mayor. He stated that he had no apologies to make for his remarks and strenuously opposed the new recreation plans. The pastor said that he did not oppose dancing from a standpoint of Christianity but for morality.

"I'VE NEVER SEEN ANYTHING LIKE IT," STATES HERLING

Wife is Like Different Woman After Taking Tanlac, He Says.

"My wife has been a different woman ever since she began taking Tanlac; why she couldn't walk more than a block or two without giving out, now she can go all day long and never feel it," said Edward H. Herling, who is employed at the Havlock shops of the Chicago, Burlington & Quincy Railroad and lives at 2036 K street, Lincoln, the other day.

"My wife had always been a strong and healthy woman up to two years ago," he continued, "then her health began to fail and she steadily got worse in spite of all we could do for her. She had no appetite at all and her stomach was so weak that she couldn't digest the little she did eat. Her food would sour on her stomach and bloat her up till she could hardly breathe, and she would become so nauseated at times that she could hardly retain a thing she had eaten. She complained of such terrible sick headaches that she would have to give up completely and lie down on the bed, and often she would get so dizzy that she would have to catch hold of something to keep from falling. Her nerves were in such a wretched state that the slightest noise would cause her to shake and tremble like a leaf and she was so restless at night that she could hardly sleep and would get up in the morning feeling almost too tired and worn out to start her day's work. As if all this was not enough to discourage a body she ached terribly with rheumatism in all her joints and actually moved around like a cripple."

"She tried all kinds of medicines and treatments without any success, and when we heard so many people telling about the good Tanlac was doing them I got her a bottle to try. Well, sir, I never saw anything like the way she began to brace up right after she started on this medicine. Her appetite increased right along and soon she was able to eat any and everything without suffering the least bit with nausea or gas afterwards. Her nerves are steady as a clock, and she sleeps all night like a child and gets up in the morning feeling bright and cheerful and gets through with her housework without any trouble at all. But best of all her rheumatism seems to be gone for good and all, for she says she never feels an ache or a pain of any sort now, and she can go down town shopping for half a day and get back home feeling as strong and well as when she started out."

Tanlac is sold in Omaha by all Sherman & McConnell Drug Company's stores, Harvard Pharmacy, West End Pharmacy, in South Omaha by Meany Drug Co., in Benson by Chas. H. Sprague, and the leading druggist in every town.—Adv.

### Advocate Fish Meal as a Substitute for Tankage

To stimulate greater interest in the production of fish meal, which is a good substitute for tankage in the feeding of hogs, E. Z. Russell, in charge of swine investigations for the United States Department of Agriculture, recently visited a number of fisheries along the Gulf coast as well as a number of marketing centers in the south. Tests conducted by the department showed that fish meal is equal in feeding value to tankage. It contains about 57 per cent protein. It is made by drying non-edible fish and grinding fine. This meal is being used at the government farm at Beltsville, Md., to replace tankage. The menhaden fisheries on the Atlantic coast can produce annually 10,000 tons of fish meal. Fisheries along the Gulf states and Mississippi river have been wasting or manufacturing as fertilizer large quantities of non-edible fish. Mr. Russell's visit to the Gulf states was to investigate the feasibility and to urge the fisheries to manufacture these non-edible fish into fish meal for swine feeding.

### Theosophical Lecturer is to Give Series of Talks

Claude L. Watson of St. Louis, national lecturer for the theosophical society, will give the first of a series of nine lectures on the subject, "Materialism, Mother of Germanism," at assembly hall, City National bank building. The lectures are free and the public is invited. Mr. Watson is a public lecturer and teacher of many years' experience. He has recently given up his position as instructor in science in the school of organic education at Fairhope, Ala., in order to be able to devote his whole time in the theosophical lecture field.

### No Buckwheat Cakes This Winter, Lane Tells Cronies

For years, each winter Charles J. Lane, general freight agent of the Union Pacific, has been supplying his close friends with a superior quality of buckwheat flour. The buckwheat has been raised in New York and ground in one of the few remaining mills where the old millstones are in existence. To these friends the flour was furnished without cost. This year friends of Mr. Lane are not going to eat any of the New York milled buckwheat flour. Owing to a late frost, according to Mr. Lane, the buckwheat crop was killed prior to maturity and as a result the crop of buckwheat cakes will be correspondingly light.

Some of the lines of the song are quite poetical. One verse runs: "I watched a sweet rose drop and die for want of rain, and wondered why. The raindrops when at last they came. Could not restore its bloom again. You're like the rose; I'm like the rain. You want me and called in vain." And then follows the music which seems to be really catchy:

## FORMER OMAHA KILLS ATTORNEY IN PISTOL DUEL

G. A. Richardson of Macon, Miss., Shot to Death by John A. Moore, Once Lawyer Here.

John A. Moore, former Omaha attorney, now a resident of Macon, Miss., shot and killed George A. Richardson, a leading attorney of Macon, Sunday afternoon, in a pistol duel in Moore's office there, according to information received here.

Moore was slightly wounded, a package of Liberty bonds in the breast pocket of his coat stopping the force of a bullet and saving his life.

### The nature of the trouble which led to the shooting is not known.

### Won Big Suit

John A. Moore is a brother-in-law of Attorney Herbert Daniel, who is now in Washington on legal business. It will be remembered that Moore was awarded the largest personal damage claim ever rendered against the Union Pacific railroad company or recorded in Douglas county.

He alleged that he suffered personal injuries on a train on the Union Pacific as it was coming into the Union depot about three years ago, and, after a bitterly conducted suit, was awarded judgment for \$68,500.

He claimed the injuries he suffered caused him to be subject to spells of fainting which prevented him from doing business as an attorney at law.

About a year ago he left Omaha, and went to Macon, Miss., where he invested in a large plantation, which has since engaged his time and attention.

Friends here, when notified of the fatal duel in which he engaged, were much surprised. They say that great anger was foreign to his nature and during his residence in Omaha he was never known to have carried a revolver or to have engaged in a personal conflict with anyone.

A suit is now pending in the United States court of appeals, between the Union Pacific and Rock Island, to determine the responsibility for the accident which caused the Moore damage suit.

### Acid Stomach Brings On Premature Old Age

A few years ago the famous scientist, Prof. Metchnikoff, declared that people generally become decrepit—feeble-aged, years and years before their time—that a person ought to live well over a hundred years. He devoted a long life to scientific experiments and proved that the toxic poisons which form in the intestines and cause auto-intoxication—that is, self poisoning—had more to do with shortening life than anything else. Clean out these poisons and there is no reason why human beings should not live hale, hearty, strong and vigorous a hundred years or more. Such is the doctrine as taught by the noted Metchnikoff.

### What causes these toxic poisons, you ask—where do they come from—how do they get into the intestinal tract?

Science gives us an answer in one word—super-acidity—which is merely the medical name for what is more commonly known as acid stomach.

Too much acid in the stomach interferes with proper digestion of food. Instead, it ferments; and it is this mass of partially digested, sour, fermenting food passing through the intestines that creates those toxic poisons—poisons that are absorbed into the blood causing it to become thin, pale and sluggish—poisons that are carried into every part of the system—poisons that cause a long train of diseases and make millions of men and women feeble, haggard and old looking before their time, when by right they should be strong, healthy, in the prime of life.

### Common sense tells us that in order to stop those toxic poisons forming in the intestines, you must rid the stomach of excess acid. The food you eat must be properly digested and assimilated, and not be allowed to enter the intestines a sour, fermented mass, there to become a breeding place for countless millions of deadly germs—for these germs are in reality what make the poisons.

A way has been found for removing the excess acid from the stomach so quickly, naturally, easily, that it seems almost unbelievable. The removal of the excess acid is done by an absorbent remedy—much the same as you take up a blot of ink with blotting paper.

### This modern remedy is called EATONIC, in the form of compressed tablets, that you eat like a bit of candy. It is prepared to absorb the harmful acid and carry it away through the

### bowels. It drives the bloated out of the body. You can fairly feel it work. This leaves the stomach sweet, cool and strong. As the excess acid is taken away, it aids digestion and assimilation and so helps you get full strength out of every mouthful of food you eat. In cases of indigestion, heart-burn, bloating, belching, gassy, sour stomach, food-repeating and that miserable putrid-up feeling after eating, EATONIC affords almost instant relief.

It is not intended that EATONIC be in any sense suggested as a direct cure for catarrh, ulcer and cancer of the stomach, cirrhosis of the liver, auto-intoxication, anemia, emaciation, nervousness, mental depression, headache and other serious disorders arising from superacidity. But EATONIC positively does clean out the excess acid. And never lose sight of the fact that it is excess acid—acid-stomach—which is the starting cause, so great food scientists say, of all those physical and mental ills.

You have a right to enjoy perfect health, eat the things you like without the slightest fear of ill after effects, feel fine and fit and be at your best—physically and mentally—every hour of the day, every day of the year and from one year's end to the other. You ought to sleep soundly and get up in the morning refreshed, ready and eager to plunge into your day's work, joyous, enthusiastic. But do you always feel that way? If you don't there's something the matter—something that is slowing you down and holding you back. Look to your acid-stomach. See if you can't locate the source of all the trouble right there. For the chances are that you have an acid-stomach—and you can't be well and strong, and retain your hold on youth until you get rid of it!

EATONIC has been the salvation of thousands in putting their acid-stomach to rights. It will do the same for you. Surely it is worth your trial.

So get a big box of EATONIC from your druggist today. We authorize him to guarantee EATONIC to please you and you can trust your druggist to make this guarantee good. If EATONIC fails in any way, take it back—he will refund your money. If your druggist does not keep EATONIC write to us direct and we will send you a big 50c box. You can send us the 50c after you receive it. Address H. L. Kramer, President, Eatonie Remedy Co., Corner Wabash Avenue and 11th Street, Chicago, Ill.
