

# UNION PACIFIC TROOP TRAIN IN FAIRBURY CRASH

### Switch Engine Sideswipes Cars at Crossing; None Injured, But Equipment Smashed.

Fairbury, Neb., Nov. 24.—(Special)—A railroad wreck was averted here this forenoon by prompt action on the part of John J. Mulkey, Fairbury engineer, when he stopped his switch engine that sideswiped the locomotive on second No. 1, Union Pacific passenger, at a railroad crossing.

The Union Pacific train carrying a number of engineers of the U. S. Army enroute from Salt Lake City to Camp Funston, was running south over the railroad crossing when a Rock Island switch engine struck the train.

The switch engine in backing over the crossing caught the tank of the troop train. Both tanks were upset and demolished.

The Union Pacific train was undamaged except tank and engine. The locomotive was derailed.

Engineer Mulkey asserts that he was traveling three miles an hour when he struck the troop train, and that he wrestled for the crossing. He was alone on his engine, his fireman having gone for supplies.

Operating officials of both railroads expressed astonishment in view of the damage to locomotives and track that no one even sustained a scratch.

An investigation will be held to ascertain responsibility for the collision.

## Burlison Raises Ban on Telephone Construction

Lincoln, Nov. 25.—(Special).—Postmaster Burlison has raised the ban placed on telephone construction which has been in effect for several months. Very few of the companies, except the Nebraska Telephone company paid attention to the ban except to do away with construction involving the use of new material, according to the commission. It is expected that the raising of the embargo will not make much of a change for some time at least because of the lack of construction material.

## LIEBKNECHT IS SEEKING SPREAD OF RED REVOLT

### Radical Leader is Accused of Effort to Implant Doctrines of Bolshevism Among German Soldiers.

Berlin, Nov. 25.—(By Associated Press).—Dr. Karl Liebknecht, the radical socialist leader, is devoting himself primarily to an effort to influence the men returning from the front. His henchmen comprise a small army of red soldiers, who are accused of packing various meetings sufficiently to secure the majority necessary to push through measures calculated to embarrass the present government.

Dr. Liebknecht's agitation is the official propaganda of the Spartacus group of extreme radicals. He chiefly directs his attacks at the proposed national assembly. The indications, however, are that his effort to win over the returning soldiers has failed absolutely and yesterday's meeting was marked by the violent opposition of soldiers.

The radical leader's principal appeal is to the proletariat. Rosa Luxemburg is ably seconding Dr. Liebknecht. Her oratory is of the eloquent and fire-eating brand. The Spartacus group meetings are invariably attended by numerous women.

Philip Scheidemann, in Vorwaerts, declares that the insecurity of the government may be deduced from the undisturbed activity of the Spartacus faction, "who in their press, their pamphlets and their meetings, are endeavoring to win over the soldiers for bolshevism."

## Charge Big Robbery

An attempted robbery recently of 60,000,000 marks belonging to the treasury of Field Marshal von Mackensen's army is charged against members of the Spartacus faction. When the car containing the funds reached the railway station here a few days ago it was taken over by a detachment of red badged soldiers claiming to represent the Berlin soldiers' and workmen's government. The deceit was discovered and notwithstanding apologies to the effect that a misunderstanding was responsible for the attempted seizure, the red guards were arrested and interned at police headquarters. Von Mackensen's army is on its way through Austria for Germany.

## QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts Before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing his kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

## PERSHING PUTS ARMY IN FRANCE ON PEACE BASIS

### Commander in Chief Faced by Task of Checking Flow of Vast Stock of Supplies.

Paris, Nov. 25.—General Pershing issued orders after the signing of the armistice with Germany for the prompt reduction of the extensive system for purchasing supplies for the United States army in Europe and for speedy transition to a peace basis. Acting on this order, military authorities have given notice of cancellation of contracts so far as possible with a view to diminishing rapidly the inflowing stock of supplies required for an army of 2,000,000 men. An officer who has had much to do with this branch of the service sums up the situation as follows:

Was at Top Speed. "The American expeditionary force on November 11 was traveling at full speed ahead and was at the height of its supply activity. To reverse this tremendous business machine is the task upon which it is now engaged and the efficiency of its business organization is being manifested in its quick accommodation to entirely changed circumstances."

"When the American forces first began coming to France there was a great scarcity of ocean tonnage. It was impossible for many months to ship more than 300,000 or 400,000 tons of supplies to the forces, notwithstanding the great necessity for engineering and general construction equipment. Search for material in Europe, therefore, had to be conducted with the greatest possible energy over a wide field.

Has Agencies Everywhere. "The American army established agencies in all allied and neutral countries under a general purchasing agent. "More than 10,000,000 tons of material for the expeditionary forces was secured on this side of the ocean. To have transported this material from America would have taken 300 ships of 5,000 tons capacity about 480 days, or 16 months. "Apart from food supplies the army has secured the bulk of its material from Europe. Notwithstanding the great emergency under which it was operated, the American army endeavored to subject itself to all the checks and balances of a normal business organization which were possible under the circumstances."

# BOSNIA ASKS TO BE MADE PART OF SERB MONARCHY

### Addresses Note to the Crown Prince Seeking Union Under Former Karageorgevitch Dynasty.

Basel, Nov. 25.—The Boston national government has addressed a note to Crown Prince Alexander of Serbia asking for an immediate reunion of Bosnia and Herzegovina with the Serbian kingdom under the sovereignty of the Karageorgevitch dynasty, of which the crown prince is the ruling head.

Karageorge (Black George) Petrovitch was the founder of the reigning dynasty in Serbia. He was murdered in 1817, leaving two sons, one of whom, Alexander, became the reigning prince in 1842. In 1857 Alexander was forced to abdicate and was banished. The Obrenovitch dynasty then became the reigning house and continued until 1903, when King Alexander and his queen were murdered. Then the Karageorgevitch house returned to power, King Peter I becoming monarch. His older son, Prince George, renounced succession to the throne in 1909, and Prince Alexander, his younger brother, became the heir apparent. Prince Alexander fought with great distinction during the recent allied offensive in southern Serbia.

## BELLANS FOR INDIGESTION

6 BELLANS Hot water Sure Relief

Reliable Method of Hair Care

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of Canthrox (which you can get at any druggist's), in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After canthrox shampoo, arranging the hair is a pleasure.—Adv.
