but favor.

There's no question of women's right to enter war activities-to take the place of the men now at the front. Indeed they would seem to have many points of superiority over men in some of the industrial fields which they are now entering. But to take men's burdens the women must be strong-must have iron nerves and good blood. So many women these days are frail, nerv-ous, borne down by the pains and aches peculiar to their sex. A sex tonic and nerve builder is needed, such as Dr. Pierce's Favorite Prescription.

An affection confined to women must have its cause in the womanly nature. There is no doubt that a diseased condition of the delicate womanly organs, is in general responsible for feminine nervousness and an undermined constitution. The use of Dr. Pierce's Favorite Prescription makes women happy by making them healthy. There are no more crying spells. "Favorite Prescription" is an herbal tonic for female weakness. It makes weak women strong.

Dr. Pierce's Favorite Prescription has been for nearly 50 years the most favorably known herbal tonic for women. Ask your neighbors!

The "Prescription" is sold in tablet or liquid form. Send ten cents to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., for large trial package.

Druggists sell the tablets in 60-cent packages. Men and women are many times tempted to ask their family physician uestions on delicate matters.—Such questions of sex are answered by the "Medical Adviser." The nursing of the sick, first aid to the injured, accidents, and emergencies, anatomy, physiology, hygiene, the human temperaments, the origin and transmission of life, the brain and mind, are treated of in an original and comprehensive manner, in harmony with the latest scientific discoveries. This book formerly sold for \$1.50. the Rubber Heel Science Perfected

The Ordinary Rubber Heel-Set with Nails Often Pulls Loose and Opens at the Joint

It takes the repair man almost as much time and trouble to put on old-style, rubber heels as for a little girl to get ready for a party. He can put on a pair of "Usco"

rubber heels in about as little time as it takes brother "Reddy" to get into the old swimmin' hole. The old-style, flat rubber heel is set on with rubber-cement and

nails. It soon gaps around the

edges, and gets frazzled and floppy. The "Usco" rubber heel is anchored for keeps with a few little nails and it tekes a spy glass to find the joint. Furthermore the joints

never gap.

"Usco" Rubber Heels are the product of scientific thought. They are the world's best rubber heels-made by the world's largest

rubber manufacturer.
