

## POWELL, BACK, SAYS AUTO MEN FAVOR SHOWS

### Civic Bodies Also Endorse Exhibitions as Big Stimulus to Every Branch of Business.

C. G. Powell, secretary of the Omaha Automobile Trade association, returned Friday from Cleveland, where he represented Omaha at a meeting of automobile men held to discuss the automobile show situation.

Delegates from 26 cities attended and unanimously favored the holding of the shows. In addition to representatives of automobile associations and show managers, several cities sent representatives from their commercial associations. Prominent among these was Robert E. Lee of the St. Louis Chamber of Commerce.

**Stimulus to Business.** Mr. Lee indicated the feeling of the business men of St. Louis in saying he heartily favored shows. "The business men of St. Louis feel that the automobile show is a great stimulus to business in general as well as a boon to the automobile industry," he said.

Although the New York and Chicago shows will not be conducted by the National Automobile association, the dealers here decided to hold their shows at their own expense. This will give individual dealers a chance to enlarge upon their own ideas and fancies to a greater extent than was possible when the shows were handled by the national association.

**Floor Space Problem.** One of the problems which is giving the Omaha association great concern is the lack of floor space. The truck and tractor have come into prominence so rapidly that a show without exhibits of this character would be very much out of place, it is stated. Some arrangement will necessarily have to be made for additional floor space as the present capacity of the Auditorium is insufficient, say automobile men.

Last year Kansas City spent \$25,000 to house a tractor exhibit. Likewise Minneapolis spent \$20,000 in order to include tractors and accessories. Minneapolis has begun construction of a new auditorium, the primary object being to accommodate the automobile displays. In this connection, dealers point out that dealers in Nebraska contracted for \$4,000,000 worth of tractors to be sold during the coming year.

The Omaha Automobile Trade association will hold a meeting Saturday at 12 noon, when a decision will be reached regarding the Omaha show and the dates for same.

## RAILWAY CLERKS PLAN UNIONS TO CONTROL WAGES

### Take Steps to Guard Against Reduction of Wage While Living Cost Continues Excessive.

Not for the purpose of being aggressive, or to dictate to the railroad administration, but for self-protection, railroad clerks state they are taking steps to becoming unionized. Already clerks in Omaha freight houses have organized unions, affiliating with railroad employees who are in the operating and mechanical departments.

The organizing of unions has been put up to clerks in headquarters and offices, but up to this time action has been taken, though it has been discussed, and, it is said, looked upon favorably by most of the men.

In organizing clerks assert they have no desire to dictate wages or work hours, the principal object being to maintain a standard. Clerks believe that with the war ended there is a possibility wages may go back to the old level while living expenses may continue high. In this event, they say, wages would not be sufficient to enable them to live.

By organizing and being able to present a united and solid front, they would be in a position to aid in holding wages up so long as living expenses continued abnormally high.

His home is at Sixteenth and Dorcas streets.

His letter was written November 3, a few days before the armistice was signed, and in it he expressed the do-or-die spirit so familiar in the letters from the boys at the front.

## KEEP LOOKING YOUNG

### It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that embersence of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 50c per box. All druggists.
